Wh = Dry weight of hull.
Wd = Dry weight of deck and superstructure.
We = Dry weight of permanent appurtenances except motor and control weight, battery weight, and portable tank weight.
K_1 and K_2 = Conversion factors for materials used from table 180.67 (b).

(b) Step 2: Determine Submerged Weight of Engine and Related Equipment (G) as follows:

(1) For outboard boats, G equals the sum of the submerged motor and control weight, battery weight, and full fuel tank weight from table 180.67(a) for maximum horsepower capacity marked on the boat in accordance with § 180.53.

(2) For inboard boats G equals 75 percent of the installed weight of engine, drive, and fuel system.

(c) Step 3: Determine Dry Weight of Load (C) as follows:

(1) For outboard boats, C equals the maximum weight capacity as determined in § 180.35 minus the sum of dry motor and control weight, battery weight, and full fuel tank weight from table 180.67 (a).

(2) For inboard boats, C equals the maximum weight capacity as determined in § 180.33.

(d) Step 4: Determine Flotation Required (W) in the formula:

$$W = W_s \text{ (Step 1)} + G \text{ (Step 2)} + .25\ C \text{ (Step 3)}$$

(e) Step 5: Determine the Volume of Flotation Material (F) needed in the formula:

$$F = \frac{\text{Flotation Required (W)}}{\text{Buoyancy of Flotation Material}}$$

where: "Flotation Required" is that value of W determined in Step 4; and "Buoyancy of Flotation Material" is determined by subtracting from the density of fresh water the density of the flotation material. The density of the flotation material must be determined after the material immersed in fresh water for one-half hour. Where air chambers are used the "Buoyancy of Flotation Material" is 62.4 lbs./ft.^{3}.

Title 3—The President

EXECUTIVE ORDER 11668

Providing for a National Center for Housing Management

By virtue of the authority vested in me as President of the United States and in accordance with the provisions of the Department of Housing and Urban Development Act, as amended (42 U.S.C. 3531 et seq.), Title VIII of the Housing Act of 1964, as amended (20 U.S.C. 801 et seq.), and Title V of the Housing and Urban Development Act of 1970 (12 U.S.C. 1701z–1 et seq.), it is ordered as follows:

SECTION 1. *Policy.* The Nation's housing stock represents an important national resource which must be preserved and well managed if public and private investments are to be protected, and if we are to meet our goal of providing a decent home and suitable living environment for low and moderate income residents. The production of Federally-assisted housing has greatly expanded in recent years, creating a need for a balanced strategy to ensure that such housing remains viable for the purposes intended.

This expansion also creates a need for a growing supply of new management manpower for the years ahead. Special skills must be developed among these managers so that they can effectively overcome the social and economic problems facing many residents of Federally-assisted housing, including the elderly. Training, the improvement of career opportunities, and the upgrading of industry standards are all essential to the improvement of the Nation's housing management capability, particularly for low and moderate income housing.

SEC. 2. *Establishment of a National Center for Housing Management.* (a) The Secretary of Housing and Urban Development is directed to call upon public-spirited citizens, dedicated and experienced in the appropriate disciplines, to create, in accordance with existing laws, a new, non-governmental, not-for-profit institution to serve as a National Center for Housing Management (referred to herein as the Center).

(b) The Center should be designed to provide objective and independent leadership at the national level in helping meet the Nation's housing management and training needs and should work cooperatively with the Department of Housing and Urban Development and with the public and private organizations and institutions involved in, or affected by, its activities.

SEC. 3. *Activities of the Center.* The activities of the Center should be developed along lines that include the following objectives:

(1) Development of training and educational programs for housing management and personnel;

(2) Cooperation with public and private national, State, and local organizations and institutions in extending housing management training and educational opportunities, using to the fullest extent possible

V 37-80 APR 25 72 XUM

the services and facilities of existing agencies with expertise in training and education.

(3) Cooperation with national, State, and local organizations and institutions in establishing or expanding recruitment and placement systems that will link training in housing management to job opportunities in that field.

(4) Development of improved housing management practices and assistance in professionalizing the housing management industry; and

(5) Stimulating the creation of new management entities, and strengthening the effectiveness of existing management entities.

SEC. 4. *Assistance by Federal Agencies.* To the extent consistent with law, all other Federal executive departments and agencies shall cooperate and work with the Department of Housing and Urban Development and the Center in providing appropriate advice and financial support so as to ensure that the above described objectives are carried out with the most effective and efficient use of Federal, State and local resources, both public and private.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

CHANGE OF AGENCY NAME

An order of the Secretary of Agriculture (37 F.R. 6327) changed the name of the Consumer and Marketing Service to the Agricultural Marketing Service and transferred to the Animal and Plant Health Inspection Service the meat and poultry inspection activities formerly administered by the Consumer and Marketing Service. An order of the Assistant Secretary for Marketing and Consumer Services (37 F.R. 6505) confirmed all delegations to the Administrator, Consumer and Marketing Service under the agency's new name, the Agricultural Marketing Service, with the exception of meat and poultry inspection activities. Accordingly, the provisions of Chapters I, IX, X, and XI, 7 CFR, are amended by changing the name "Consumer and Marketing Service" wherever it appears to "Agricultural Marketing Service."

These amendments are merely editorial. They do not affect any member of the public. Accordingly, under the provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure concerning the amendments are impracticable and unnecessary, and good cause is found for making amendments effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing amendments shall become effective upon publication in the FEDERAL REGISTER (4-25-72).

Done at Washington, D.C., this 20th day of April 1972.

G. R. GRANGE,
Acting Administrator.

[FR Doc.72-6298 Filed 4-24-72;8:50 am]

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION AND STANDARDS)

U.S. Standards for Sawdust Pack Grapes (European or Vinifera Type)

On April 5, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 6854) regarding the termination of United States Standards for Sawdust Pack Grapes (European or Vinifera type). These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621-1627), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers, and consumers. Official grading services are also provided under this act upon request of any financially interested party and upon payment of a fee to cover the cost of such services.

Statement of considerations leading to the termination of the standards. The U.S. Standards for Sawdust pack Grapes were issued in August 1928. They were last revised in October 1953 and amended in October 1962. The proposal to terminate these standards gave interested persons until April 15, 1972 to submit written data, views, or arguments regarding it. No adverse comments have been received.

The revision of the table grape standards in May 1971 provided for the certification of premium packs of grapes destined for long storage or overseas shipments. This eliminated the need for the sawdust pack standards. In the revising of the table grape standards it was stated that the U.S. Standards for Sawdust Pack Grapes would continue in effect until May 1, 1972. The termination of the sawdust pack standards was delayed so that shippers who had on hand a stock of containers marked "U.S. No. 1 Sawdust Pack" would have ample time to dispose of those containers. It was felt that one season would be sufficient time for disposal.

It is hereby found that good cause exists for not postponing the effective date of this termination beyond May 1, 1972 in that: (1) The 1972 packing season for grapes starts in May and it is in the interest of the industry that this termination be placed in effect at the earliest possible date to prevent possible confusion or error on the part of the industry; and (2) no special preparation is

V 37-80 APR 25 72 XUM

required for compliance with this termination on the part of members of the grape industry or of others.

Accordingly, the U.S. Standards for Sawdust Pack Grapes (European or Vinifera type) (7 CFR 51.2150–51.2178) shall be terminated effective May 1, 1972.

G. R. GRANGE,
Acting Administrator.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

CHANGE OF AGENCY NAME

For a document changing the name of the Consumer and Marketing Service to the Agricultural Marketing Service see F.R. Doc. 72-6298, 7 CFR Ch. I, *supra*.

[Lemon Reg. 529, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) *Order, as amended.* The provision in paragraph (b)(1) of § 910.829 (Lemon Regulation 529, 37 F.R. 7482) during the period April 16, 1972, through April 22, 1972, is hereby amended to read as follows:

§ 910.829 Lemon Regulation 529.

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1970 and Subsequent Crops, Rice Loan and Purchase Program

COMPLIANCE REQUIREMENTS AND WAREHOUSE CHARGES

On page 3753 of the FEDERAL REGISTER published on February 19, 1972, there was published a notice of proposed rule making to issue regulations amending §§ 1421.303 and 1421.307 of the 1970 and subsequent crops, rice loan and purchase program regulations.

Interested persons were given 30 days in which to submit written comments, suggestions or objections regarding the proposed amendments.

None have been received and the proposed amendments to the regulations are hereby adopted without change and are set forth below.

Effective date. These amendments to the regulations shall be effective upon publication in the FEDERAL REGISTER (4–25–72).

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

APRIL 18, 1972.

1. The amendment of § 1421.303 deletes the cross-compliance eligibility requirements for multiple farm producers and provides for determination of the eligibility for price support for rice on an individual farm basis. As amended, § 1421.303 reads as follows:

§ 1421.303 Compliance requirements.

An eligible producer shall be a producer on whose farm the rice acreage allotment established for the farm under the provisions of the Rice Acreage Allotment Regulations of Part 730 of this title has not been knowingly exceeded. If such rice was produced on a farm for which a certification is furnished under Part 718 of this title, Determination of Acreage and Compliance, and subsequent measurement of the rice acreage on such farm indicates that the acreage planted does not exceed the rice acreage allotment established for the farm by more than the larger of 0.5 acre, or 5 percent of the farm rice acreage allotment but not to exceed 15 acres, the farm rice acreage allotment will not be considered to have been knowingly exceeded.

2. The amendment to paragraph (c) of § 1421.307 provides that the receiving and loading out charges payable may not exceed those paid by Commodity Credit Corporation under its Uniform Rice Storage Agreement. The immediate effect of this amendment is to increase the maximum amount payable for such services from eight (8) cents to twelve (12) cents. As amended, paragraph (c) reads as follows:

§ 1421.307 Warehouse charges.

* * * * *

(c) *Refund of prepaid handling charges.* The receiving or the receiving and loading out charges on the rice referred to in paragraph (a) of this section and § 1421.23(i) shall be at the rate paid by the producer but not in excess of the rate for such services under the Uniform Rice Storage Agreement.

Title 12—BANKS AND BANKING

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 72-469]

PART 545—OPERATIONS

Real Estate Loans

APRIL 19, 1972.

Resolved that the Federal Home Loan Bank Board considers it advisable to amend Part 545 of the rules and regulations for the Federal Savings and Loan System (12 CFR Part 545) for the purpose of effecting technical revisions in several sections which relate to the Board's recent revision of § 545.6–7 of said part which was published in 37 F.R. 6285. Accordingly, the Federal Home Loan Bank Board hereby amends said Part 545 as follows, effective May 1, 1972:

1. Revise § 545.6–6 to read as follows:

§ 545.6–6 Lending area.

The regular lending area of a Federal association consists of the area: (a) Within a radius of 100 miles from such association's home office; (b) within a radius of 100 miles from each branch office of such association or other place of business approved by the Board as an agency of such association, to the extent that such area is also within the State in which such association's home office is located; and (c) in the case of a Federal association which is converted from a State-chartered institution, beyond 100 miles from its home office but within which area such association made loans while operating under State charter. Each converted association that desires to continue to make loans beyond 100 miles from its home office in the areas in which it made loans while operating under State charter shall file with the Board a map showing the areas within which such association made loans while operating under State charter. For the purpose of this section, the term "State" shall include the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States; and a county, parish, or similar political subdivision of a State is the unit of "area" in which a converted association made loans beyond a radius of 100 miles from its home office while operating under State charter.

§ 545.6–14 [Amended]

2. Revise § 545.6–14 by deleting paragraph (i) thereof.

3. Revise paragraph (d) of § 545.6–16 to read as follows:

§ 545.6–16 Housing facilities for the aging.

* * * * *

(d) *Relationship to the other provisions of the regulations.* Except as expressly provided by this section, the exercise of any authority conferred on or vested in any Federal association by this section shall be subject to, and limited or restricted by, all other provisions of this part.

* * * * *

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

Resolved further that, since the above amendments are of a technical nature to clarify references to the recent revision of § 545.6–7 above referred to and do not impose additional requirements, the Board hereby finds that notice and public procedure are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and the Board also finds, for the same reason, that publication for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of the amendments is unnecessary; and the Board hereby provides that the amendments shall become effective as hereinbefore set forth, on the same date on which such revision of § 545.6–7 becomes effective.

By the Federal Home Loan Bank Board.

Assistant Secretary.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 11171, Amdt. 39-1438]

PART 39—AIRWORTHINESS DIRECTIVES

Mitsubishi Model MU–2B Airplanes

Amendment 39–1238 (36 F.R. 12091) AD 71–14–1 requires periodic inspections of the main integral fuel tank inner surface coating and repair of peeling or blistering surfaces on Mitsubishi Model MU–2B airplanes. After issuing Amendment 71–14–1, the FAA has determined that the repetitive inspections required by the AD may be terminated if the fuel tanks undergo a rework involving the complete removal of the DV 1180 top coating material and the coating of the fuel tanks with Alodine and Finch 454–4–1 sealant in accordance with the airplane manufacturer's instructions. Therefore, the AD is being amended to provide for the termination of repetitive inspections when the fuel tanks are reworked in accordance with repair instructions provided in Mitsubishi Service Bulletin No. 143B, Method II, dated January 5, 1972. In addition AD 71–14–1 is being updated to include a reference to the current service bulletin.

Since this amendment provides an updated reference and an alternative means of compliance, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–1238 (36 F.R. 12091), AD 71–14–1 is amended as follows:

1. By amending the last sentence of paragraph (f) to read: * * *

Remove all defective coating and rework the affected areas in accordance with repair instructions provided in Mitsubishi Service Bulletin No. 143A or 143B, Method I, dated April 23, 1971 and January 5, 1972, respectively, or an FAA approved-equivalent, or comply with paragraph (g) of this section.

2. By adding a new paragraph (g) to read: * * *

(g) Drain the fuel tanks, remove all the top coating material, and rework the fuel tanks in accordance with Mitsubishi Service Bulletin No. 143B, Method II, dated January 5, 1972, or an FAA approved-equivalent.

3. By adding a new paragraph (h) to read: * * *

(h) The repetitive inspections specified in paragraphs (d) and (e) of this section may be discontinued when the fuel tanks are reworked in accordance with paragraph (g) of this section.

This amendment becomes effective May 1, 1972.

[Docket No. 11890, Amdt. 39-1439]

PART 39—AIRWORTHINESS DIRECTIVES

Hawker Siddeley Aviation de Havilland Model DH-114 "Heron" Airplanes

Pursuant to the authority delegated to me by the Administrator, an airworthiness directive was adopted on February 9, 1972, and made effective immediately as to all known operators of Hawker Siddeley de Havilland Model DH-114 "Heron" airplanes because of reported cracks of the fuselage rear spar transverse keel frame which could result in the loss of a wing in flight. The directive requires visual inspections of the fuselage rear spar tranverse keel frame for signs of buckling or cracking and repair, in accordance with approved instructions, as necessary. The initial inspection is required within the next 25 hours' time in service after the effective date of the AD; periodic inspections are required at intervals not exceeding 600 hours' time in service.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of Hawker Siddeley de Havilland Model DH-114 "Heron" airplanes by individual telegram dated February 9, 1972. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

HAWKER SIDDELEY AVIATION. Applies to de Havilland Model DH-114 "Heron" airplanes.

Compliance required as indicated.

(a) Within the next 25 hours' time in service after the effective date of this AD, unless already accomplished within the last 575 hours' time in service, and thereafter at intervals not to exceed 600 hours' time in service from the last inspection, remove the inspection doors just forward and aft of the fuselage rear spar transverse keel frame at fuselage station 43.25 and visually inspect both the front and rear face, including reinforcing sections, if installed, of the fuselage rear spar transverse keel frame for signs of buckling and cracks.

NOTE: During the inspection required by paragraph (a) of this section, particular attention should be directed to the area near the wing rear spar attachment.

(b) If cracks or other damage is found during inspections specified in paragraph (a) of this section, before further flight, repair the keel frame in accordance with ARB approved repair instructions obtained from the Product Support Department, Hawker Siddeley Aviation Ltd. Hatfield, Hertfordshire, England or an equivalent approved by the Chief, Engineering and Manufacturing Branch of an FAA Region (or in the case of the Western Region, the Chief, Aircraft Engineering Division).

This amendment is effective April 25, 1972, and was effective upon receipt for all recipients of the telegram dated February 9, 1972, which contained this amendment.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to make a minor alteration to the Fort Leonard Wood, Mo., transition area.

The 1,200-foot floor Fort Leonard Wood, Mo., transition area designated in 35 F.R. 18193, refers to "V-72". This airway now has been renumbered "V-238". Accordingly, it is necessary to revise the 1,200-foot floor transition area designation to affect this change.

Since this change is minor in nature, notice and public procedure hereon are neither necessary nor practicable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective June 22, 1972, as hereinafter set forth:

Amend § 71.181 of Part 71, Federal Aviation Regulations by substituting "V-238" for "V-72" in the description of the Fort Leonard Wood, Mo., 1,200-foot floor transition area.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on March 31, 1972.

Director, Central Region.

PARAGRAPH 1. Section 1.11 is amended by revising subsections (b), (c), and (d) of, and adding new subsections (e) and (f) to, section 11, and by revising the historical note. These new and revised provisions read as follows:

§ 1.11 Statutory provisions; tax imposed.

SEC. 11. *Tax imposed.* • • •

(b) *Normal tax.* The normal tax is equal to the following percentage of the taxable income:

(1) 30 percent, in the case of a taxable year beginning before January 1, 1964, and

(2) 22 percent, in the case of a taxable year beginning after December 31, 1963.

(c) *Surtax.* The surtax is equal to the following percentage of the amount by which the taxable income exceeds the surtax exemption for the taxable year:

(1) 22 percent, in the case of a taxable year beginning before January 1, 1964,

(2) 28 percent, in the case of a taxable year beginning after December 31, 1963, and before January 1, 1965, and

(3) 26 percent, in the case of a taxable year beginning after December 31, 1964.

(d) *Surtax exemption.* For purposes of this subtitle, the surtax exemption for any taxable year is $25,000, except that, with respect to a corporation to which section 1561 or 1564 (relating to surtax exemptions in case of certain controlled corporations) applies for the taxable year, the surtax exemption for the taxable year is the amount determined under such section.

(e) *Exceptions.* Subsection (a) shall not apply to a corporation subject to a tax imposed by—

PAR. 2. Section 1.11-1 is amended by revising paragraphs (a), (c), and (d) to read as follows:

§ 1.11-1 Tax on corporations.

(a) Every corporation, foreign or domestic, is liable to the tax imposed under section 11 except (1) corporations described in section 11(e); (2) corporations expressly exempt from all taxation under subtitle A of the Code (see section 501); and (3) corporations subject to tax under section 511(a). For definition of the terms "corporation," "domestic," and "foreign," see section 7701(a)(3), (4), and (5), respectively. It is immaterial that a domestic corporation subject to the tax imposed by section 11 may derive no income from sources within the United States. The tax imposed by section 11 is payable upon the basis of returns rendered by the corporations liable thereto, except that in some cases a tax is to be paid at the source of the income. See subchapter A (section 6001 and following), chapter 61 of the Code, and section 1442.

• • • • •

(c) The normal tax is at the rate of 22 percent and is applied to the taxable income for the taxable year.

(d) The surtax is at the rate of 26 percent and is upon the taxable income (computed without regard to the deduction, if any, provided in section 242 for partially tax-exempt interest) in excess of $25,000. However, in certain circumstances the $25,000 exemption from surtax may be disallowed in whole or in part. See sections 269, 1551, 1561, and 1564 and the regulations thereunder.

• • • • •

PAR. 3. Section 1.46 is amended by revising subsection (a)(5) of section 46 and the historical note to read as follows:

§ 1.46 Statutory provisions; amount of credit.

SEC. 46. *Amount of credit*—(a) *Determination of amount.* • • •

(5) *Controlled groups.* In the case of a controlled group, the $25,000 amount specified under paragraph (2) shall be reduced for each component member of such group by apportioning $25,000 among the component members of such group in such manner as the Secretary or his delegate shall by regulations prescribe. For purposes of the preceding sentence, the term "controlled group" has the meaning assigned to such term by section 1563(a).

• • • • •

[Sec. 46 as added by sec. 2(b), Rev. Act 1962 (76 Stat. 963); as amended by sec. 201(d)(4), Rev. Act 1964 (78 Stat. 32); sec. 3, Act of Nov. 8, 1966 (Public Law 89-800, 80 Stat. 1514); sec. 2(a), Act of Dec. 27, 1967 (Public Law 90-225, 81 Stat. 731); sec. 401(e)(1), Tax Reform Act 1969 (83 Stat. 603)]

PAR. 4. Section 1.46-1 is amended by revising so much of paragraph (b) as follows subparagraph (1)(ii)(*b*) thereof and paragraph (f) to read as follows:

§ 1.46-1 Determination of amount.

• • • • •

(b) *Limitation based on amount of tax*—(1) *In general.* • • •

(ii) • • •

(*b*) • • •

However, such $25,000 amount may be reduced in the case of certain married individuals filing separate returns (see paragraph (e) of this section); corporations which are component members of a controlled group (see paragraph (f) of this section); trusts and estates (see paragraph (c) of § 1.48-6); and organizations to which section 593 applies, regulated investment companies or real estate investment trusts subject to taxation under subchapter M, chapter 1 of the Code, and cooperative organizations described in section 1381(a) (see § 1.46-4). The excess of the credit earned for the taxable year over the limitation described in this paragraph for such taxable year is an unused credit which may be carried back or forward to other taxable years in accordance with § 1.46-2.

• • • • •

(f) *Apportionment of $25,000 amount among component members of a controlled group*—(1) *In general.* In determining the limitation based on amount of tax under section 46(a)(2) in the case of corporations which are component members of a controlled group of corporations on a December 31, only one $25,000 amount is available to such component members for their taxable years that include such December 31. See subparagraph (2) of this paragraph for apportionment of such amount among such component members. See subparagraph (3) of this paragraph for definition of "component member".

(2) *Manner of apportionment.* (i) In the case of corporations which are component members of a controlled group on a particular December 31, the $25,000 amount may be apportioned among such members for their taxable years that include such December 31 in any manner the component members may select, provided that each such member less than 100 percent of whose stock is owned, in the aggregate, by the other component members of the group on such December 31 consents to an apportionment plan. The consent of a component member to an apportionment plan with respect to a particular December 31 shall be made by means of a statement, signed by a person duly authorized to act on behalf of the consenting member, stating that such member consents to the apportionment plan with respect to such December 31. The statement shall set forth the name, address, employer identification number, and taxable year of each component member of the group on such December 31, the amount apportioned to each such member under the plan, and the location of the Service Center where the statement is to be filed. The consent of more than one component member may be incorporated in a single statement. The statement shall be timely filed with the Service Center where the component member having the taxable year first ending on or after such December 31 files its return for such taxable year and shall be irrevocable after such filing. If two or more component members have the same such taxable year, a statement of consent may be filed by any one of such members. Such statement shall be considered as timely filed if filed on or before the due date (including any extensions of time) of such member's income tax return which includes such December 31. However, if the due date (including any extensions of time) of the return of such member is on or before December 15, 1971, the required statement shall be considered as timely filed if filed on or before March 15, 1972. Each component member of the group on such December 31 shall keep as a part of its records a copy of the statement containing all the required consents.

(ii) An apportionment plan adopted by a controlled group with respect to a particular December 31 shall be valid only for the taxable year of each member of the group which includes such December 31. Thus, a controlled group must file a separate consent to an apportionment plan with respect to each taxable year which includes a December 31 as to which an apportionment plan is desired.

(iii) If the apportionment plan is not timely filed, the $25,000 amount specified in section 46(a)(2) shall be reduced for each component member of the controlled group, for its taxable year which includes a December 31, to an amount equal to $25,000 divided by the number of component members of such group on such December 31.

(iv) If a component member of the controlled group makes its income tax return on the basis of a 52-53-week taxable year, the principles of section 441(f)(2)(A)(ii) and paragraph (b)(1) of § 1.441-2 apply in determining the last day of such taxable year.

(3) *Definitions of controlled group of corporations and component member of controlled group.* For the purpose of this paragraph, the terms "controlled group of corporations" and "component member" of a controlled group of corporations shall have the same meaning assigned to those terms in section 1563 (a) and (b). For purposes of applying § 1.1563-1(b)(2)(ii)(c), an electing small business

V 37-80 APR 25 72 XUM

corporation shall be treated as an excluded member whether or not it is subject to the tax imposed by section 1378.

(4) *Members of a controlled group filing a consolidated return.* If some component members of a controlled group join in filing a consolidated return pursuant to § 1.1502–3(a)(3), and other component members do not join, then, unless a consent is timely filed apportioning the $25,000 amount among the group filing the consolidated return and the other component members of the controlled group, each component member of the controlled group (including each component member which joins in filing the consolidated return) shall be treated as a separate corporation for purposes of equally apportioning the $25,000 amount under subparagraph (2)(iii) of this paragraph. In such case, the limitation based on the amount of tax for the group filing the consolidated return shall be computed by substituting for the $25,000 amount the total of the amount apportioned to each component member which joins in filing the consolidated return. If the affiliated group filing the consolidated return and the other component members of the controlled group adopt an apportionment plan, the affiliated group shall be treated as a single member for the purpose of applying subparagraph (2)(i) of this paragraph. Thus, for example, only one consent executed by the common parent to the apportionment plan is required for the group filing the consolidated return. If any component member of the controlled group which joins in the filing of the consolidated return is an organization to which section 593 applies or a cooperative organization described in section 1381(a), see paragraph (a)(3)(ii) of § 1.1502–3.

(5) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). At all times during 1970 Smith, an individual, owns all the stock of corporations X, Y, and Z. Corporation X files an income tax return on a calendar year basis. Corporation Y files an income tax return on the basis of a fiscal year ending June 30. Corporation Z files an income tax return on the basis of a fiscal year ending September 30. On December 31, 1970, X, Y, and Z are component members of the same controlled group. X, Y, and Z all consent to an apportionment plan in which the $25,000 amount is apportioned entirely to Y for its taxable year ending June 30, 1971 (Y's taxable year which includes December 31, 1970). Such consent is timely filed. For purposes of computing the credit under section 38, Y's limitation based on amount of tax for its taxable year ending June 30, 1971, is so much of Y's liability for tax as does not exceed $25,000, plus 50 percent of Y's liability for tax in excess of $25,000. X's and Z's limitations for their taxable years ending December 31, 1970, and September 30, 1971, respectively, are equal to 50 percent of X's liability for tax and 50 percent of Z's liability for tax. On the other hand, if an apportionment plan is not timely filed, X's limitation would be so much of X's liability for tax as does not exceed $8,333.33, plus 50 percent of X's liability in excess of $8,333.33, and Y's and Z's limitations would be computed similarly.

Example (2). At all times during 1970, Jones, an individual, owns all the outstanding stock of corporations P, Q, and R. Corporations Q and R both file returns for taxable years ending December 31, 1970. P files a consolidated return as a common parent for its fiscal year ending June 30, 1971, with its two wholly-owned subsidiaries N and O. On December 31, 1970, N, O, P, Q, and R are component members of the same controlled group. No consent to an apportionment plan is filed. Therefore, each member is apportioned $5,000 of the $25,000 amount ($25,000 divided equally among the five members). The limitation based on the amount of tax for the group filing the consolidated return (P, N, and O) for the year ending June 30, 1971 (the consolidated taxable year within which December 31, 1970, falls) is computed by using $15,000 instead of the $25,000 amount. The $15,000 is arrived at by adding together the $5,000 amounts apportioned to P, N, and O.

PAR. 5. Section 1.48 is amended by revising subsections (c) (2) (C), (3) (C), and (d) (2) of section 48 and the historical note to read as follows:

PAR. 6. Section 1.48–3 is amended by revising paragraphs (a)(1) and (2)(iii) and (e), and by redesignating paragraph (e) as paragraph (d). These revised provisions read as follows:

§ 1.48–3 Used section 38 property.

(a) *In general.* (1) Section 48(c) provides that "used section 38 property" means section 38 property acquired by purchase after December 31, 1961, which is not "new section 38 property." See §§ 1.48–1 and 1.48–2, respectively, for definitions of section 38 property and new section 38 property. In determining whether property is acquired by purchase, the provisions of paragraph (c)(1) of § 1.179–3 shall apply, except that (i) "1961" shall be substituted for "1957", and (ii) the definition of "component member" of a controlled group of corporations in paragraph (d)(4) of this section shall be substituted for the definition of such term in paragraph (e) of § 1.179–3.

(2) • • •

(iii) In determining whether a person bears a relationship described in section 179(d)(2) (A) or (B) to a person who used property before its acquisition by the taxpayer, the provisions of paragraph (c)(1) (i) and (ii) of § 1.179–3 shall apply, except that the definition of "component member" of a controlled group of corporations in paragraph (d)(4) of this section shall be substituted for the definition of such term in paragraph (e) of § 1.179–3.

• • • • •

(d) *Dollar limitation for component members of a controlled group.*—(1) *In general.* (i) Section 48(c)(2)(C) provides that the $50,000 limitation on the cost of used section 38 property which may be taken into account for any taxable year shall, in the case of component members of a controlled group (as defined in subparagraph (4) of this paragraph) on a particular December 31, be reduced for each such member by apportioning the $50,000 amount among such component members for their taxable years that include such December 31 in accordance with their respective amounts of used section 38 property which may be taken into account, that is, in accordance with the total cost of used section 38 property placed in service by each such member during its taxable year (without regard to the $50,000 limitation or the applicable percentages to be applied in computing qualified investment).

(ii) Except as otherwise provided in this paragraph, the $50,000 amount shall be apportioned among those corporations which are component members of the controlled group on a December 31. For the taxable year of each such member which includes such December 31, the cost of used section 38 property taken into account in computing qualified investment under section 46(c)(1)(B) shall not exceed the amount which bears the same ratio to $50,000 as the cost of used section 38 property placed in service by such member for such taxable year bears to the total cost of used section 38 property placed in service by all component members of the controlled group for their taxable years which include such December 31.

(iii) If a component member of the group makes its income tax return on the basis of a 52–53-week taxable year, the principles of section 441(f)(2)(A)(ii) and paragraph (b)(1) of § 1.441–2 apply in determining the last day of such a taxable year.

(2) *Statement by the "filing member".* For purposes of this paragraph, the term "filing member" with respect to a particular December 31 means the member (or members) of a controlled group which has, among those members of the group which are apportioned part of the $50,000 amount for their taxable years which include such December 31, the taxable year including such December 31 which ends on the earliest date. The filing member of the group shall attach to its income tax return a statement containing the name, address, and employer identification number of each component member of the controlled group on such December 31 and a schedule showing the computation of the apportionment of the $50,000 amount among the component members of the group. Each such other member shall retain as part of its records a copy of the statement containing the apportionment schedule. Except as otherwise provided in subparagraph (3)(ii) of this paragraph, each member which is apportioned part of the $50,000 amount shall take such apportioned amount into account in filing its return for its taxable year which includes such December 31.

(3) *Estimate of used section 38 property to be placed in service.* (i) For purposes of subparagraphs (1) and (2) of this paragraph, if on the date (including extensions of time) for filing the income tax return of the filing member of the group with respect to a particular December 31, the total cost of used section 38 property actually placed in service by any component member of the group during such member's taxable year that includes such December 31 is not known, then such member shall estimate such cost. The estimate shall be made on the basis of the facts and circumstances known as of the time of the estimate. Any such estimate shall also be used in determining the total cost of used section 38 property placed in service by all component members for their taxable years including such December 31.

(ii) If an estimate is used by any component member of a controlled group pursuant to subdivision (i) of this subparagraph, each member may later file an original or amended return in which the apportionment of the $50,000 amount is based upon the cost of used section 38 property actually placed in service by all component members of the group during their taxable year which include such December 31. Such amended apportionment shall be made only if each component member of the group whose limitation would be changed files an original or amended return which reflects the amended apportionment based upon the cost of the used section 38 property actually placed in service by component members of the group. In such case, the new statement reflecting the amended apportionment shall be attached to the amended return of the filing member of the group, and a copy of such statement shall be retained by each such member pursuant to the requirements of subparagraph (2) of this paragraph.

(4) *Definitions of controlled group of corporations and component member of controlled group.* For purposes of this section, the terms "controlled group of corporations" and "component member" of a controlled group of corporations shall have the same meaning assigned to those terms in section 1563 (a) and (b), except that the phrase "more than 50 percent" shall be substituted for the phrase "at least 80 percent" each place it appears in section 1563(a)(1). For purposes of applying § 1.1563–1(b)(2)(ii)(c), an electing small business corporation shall be treated as an excluded member whether or not it is subject to the tax imposed by section 1378.

(5) *Members of controlled group filing a consolidated return.* For the purpose of apportioning the $50,000 amount in the case of component members of a controlled group which join in filing a consolidated return, all such members shall be treated as though they were a single component member of the controlled group. Thus, in determining the limitation on the cost of used section 38 property which may be taken into account by the group filing the consolidated return, the apportionment provided in subparagraph (1)(ii) of this paragraph shall be made by using the aggregate cost of such property placed in service by all members of the group filing the consolidated return. If all component members of the controlled group join in filing a consolidated return, the group may select the items to be taken into account to the extent of an aggregate cost of $50,000; if some component members of the controlled group do not join in filing the consolidated return, then the members of the group which join in filing the consolidated return may select the items to be taken into account to the extent of the amount apportioned to such members under subparagraph (1)(ii) of this paragraph.

(6) *Examples.* This paragraph may be illustrated by the following examples:

Example (1). (i) On December 31, 1970, corporations M, N, and O are component members of the same controlled group. The taxable years of M, N, and O end, respectively, on January 31, March 31, and April 30. During the respective taxable years of each corporation which include December 31, 1970, M places in service no used section 38 property, and N and O place in service used section 38 property with respective costs of $100,000 and $150,000. N is the "filing member" of the group since N, among the members (N and O) which are apportioned part of the $50,000 amount for their taxable years which include such December 31, has the taxable year ending on the earliest date.

(ii) The cost of used section 38 property taken into account by N for its taxable year ending March 31, 1971, may not exceed $20,000, that is, an amount which bears the same ratio to $50,000 as the cost of used section 38 property placed in service by N for its taxable year ($100,000) bears to the total cost of used section 38 property placed in service by all component members of the controlled group (M, N, and O) for their taxable years which include December 31, 1970 ($250,000). Similarly, the cost of used section 38 property taken into account by O for its taxable year ending April 30, 1971, may not exceed $30,000.

Example (2). (i) On December 31, 1971, corporations S and T are component members of the same controlled group. The taxable years of corporations S and T end, respectively, on January 31 and June 30. On April 15, 1972, S files an income tax return for its taxable year ending January 31, 1972, during which year it places in service used section 38 property costing $100,000. T estimates that it will place in service used section 38 property costing $150,000 during its taxable year ending June 30, 1972.

(ii) S, the "filing member" of the group, must file an apportionment schedule under which it may take into account as the cost of used section 38 property an amount not in excess of $20,000 ($100,000/$250,000 × $50,000). If T actually places in service during its taxable year used section 38 property costing more or less than $150,000, its income tax return for its taxable year ending June 30, 1972, may reflect the amended apportionment of the $50,000 limitation based upon the cost of used section 38 property actually placed in service by the group, provided that S attaches a new apportionment schedule to an amended return to reflect the amended apportionment. For example, if T places in service used section 38 property costing $200,000, the cost of used section 38 property taken into account by S and T for their respective taxable years could not exceed $16,667 ($100,000/$300,000 × $50,000) and $33,333 ($200,000/$300,000 × $50,000), respectively, under an amended apportionment.

PAR. 7. Section 1.48–4 is amended by revising paragraphs (c)(3)(ii) and (e) to read as follows:

§ 1.48–4 Election of lessor of new section 38 property to treat lessee as purchaser.

• • • • •

(c) *Basis of leased property.* • • •

(3) *Property transferred after February 25, 1964.* • • •

(ii) If the property is leased by a component member of a controlled group to another component member of the same controlled group (within the meaning of paragraph (f)(4) of § 1.46–1) on the date possession of the property is transferred to the lessee, the basis of the property in the hands of the lessee shall be the basis of the property in the hands of the lessor.

• • • • •

(e) *Lessor itself a lessee.* If the lessor of property is itself a lessee who is treated, under this section, as having purchased such property, and such sublessor makes a valid election under this section to treat the sublessee as a purchaser, then the basis and estimated useful life of such property in the hands of the sublessee shall be determined under paragraphs (c) and (d) of this section as if the original lessor had leased the property directly to the sublessee on the date possession of the property was transferred to the sublessee. Thus, for example, if on March 1, 1971, corporation X leases property to corporation Y, which in turn subleases the property to individual A (who is the first person to use the property for its intended function), and if both X and Y make valid elections under this section, the basis of the property to A is equal to its fair market value on the date on which possession is transferred from Y to A (regardless of whether X and Y are component members of the same controlled group), and its estimated useful life to A is the estimated useful life in the hands of X.

PAR. 8. Section 1.179 is amended by revising paragraphs (2)(B), (6), and (7) of section 179(d) and the historical note to read as follows:

(B) The Secretary or his delegate shall apportion the dollar limitation contained in such subsection (b) among the component members of such controlled group in such manner as he shall by regulations prescribe.

(7) *Controlled group defined.* For purposes of paragraphs (2) and (6), the term "controlled group" has the meaning assigned to it by section 1563(a); except that, for such purposes, the phrase "more than 50 percent" shall be substituted for the phrase "at least 80 percent" each place it appears in section 1563(a)(1).

PAR. 9. Section 1.179–2 is amended by revising paragraph (c) to read as follows:

§ 1.179–2 Dollar limitation.

• • • • •

(c) *Component members of a controlled group.* Component members of a controlled group (as defined in paragraph (e) of § 1.179–3) on a December 31 shall be treated as one taxpayer in applying the $10,000 limitation of this section. The allowance may be taken by any one such member or allocated (for the taxable year of each such member which includes such December 31) among the several members in any manner, pursuant to allocation by the common parent corporation if a consolidated return is filed for all component members of the group, or in accordance with an agreement entered into by the members of the group if separate returns are filed. If a consolidated return is filed by some component members of the group and separate returns are filed by other component members, then the common parent of the group filing the consolidated return shall enter into an agreement with those members who do not join in filing the consolidated return allocating the amount between the group filing the consolidated return and the other component members of the controlled group who do not join in filing the consolidated return. The amount of the allowance allocated to any member, however, shall not exceed 20 percent of the cost of the section 179 property actually purchased by the member in the taxable year. If a consolidated return is filed, the common parent corporation shall file a separate statement attached to the income tax return in which an election is made to claim an additional first-year depreciation. See § 1.179–4. If separate returns are filed by some or all component members of the group, each component member to which is allocated any part of the deduction under section 179 shall file a separate statement attached to the income tax return in which an election is made to claim an additional first-year depreciation allowance. See § 1.179–4. Such statement shall include the name, address, employer identification number, and the taxable year of each component member of the controlled group, a copy of the allocation agreement signed by persons duly authorized to act on behalf of those members who file separate returns, and a description of the manner in which the deduction under section 179 has been divided among them. If a consolidated return is filed for all component members of the group, an allocation among such members of the allowance under section 179 shall not be revoked after the due date of the return (including extensions of time) of the common parent corporation for the taxable year for which an election to take an allowance is made. If some or all of the component members of the controlled group file separate returns for taxable years including a particular December 31 for which an election to take the allowance is made, the allocation as to all members of the group shall not be revoked after the due date of the return (including extensions of time) of the component member of the controlled group whose taxable year which includes such December 31 ends on the latest date.

PAR. 10. Section 1.179–3 is amended by revising paragraphs (c)(1)(ii) and (e) to read as follows:

(c) *Purchase.* (1) • • •

(ii) The property is not acquired by purchase if acquired from any one component member of a controlled group (as defined in paragraph (e) of this section) by another component member of such group.

(c) *Accumulated earnings credit.* • • •

PAR. 12. Section 1.535–3 is amended by revising paragraphs (b)(2) and (c) to read as follows:

§ 1.535–3 Accumulated earnings credit.

• • • • •

(b) *Corporation which is not a mere holding or investment company.* • • •

(2) *Minimum credit.* Section 535(c)(2) provides for the allowance of a minimum accumulated earnings credit in the case of a corporation which is not a mere holding or investment company. Except as otherwise provided in section 243(b)(3) and § 1.243–5 (relating to effect of 100-percent dividends received deduction under section 243(b)) and section 1564 (relating to transitional rules in the case of certain controlled corporations), in the case of such a corporation, this minimum credit shall in no case be less than the amount by which $100,000 exceeds the accumulated earnings and profits of the corporation at the close of the preceding taxable year. See paragraph (d) of this section for the effect of dividends paid after the close of the taxable year in determining accumulated earnings and profits at the close of the preceding taxable year. In determining the amount of the minimum credit allowable under section 535(c)(2), the needs of the business are not taken into consideration. If the taxpayer has accumulated earnings and profits at the close of the preceding taxable year equal to or in excess of $100,000, the credit, if any, is determined without regard to section 535(c)(2). It is not intended that the provision for the minimum credit shall in any way create an inference that an accumulation in excess of $100,000 is unreasonable. The reasonable needs of the business may require the accumulation of more or less than $100,000, depending upon the circumstances in the case, but such needs shall not be taken into consideration to any extent in cases where the minimum accumulated earnings credit is applicable. For a discussion of the reasonable needs of the business, see section 537 and §§ 1.537–1, 1.537–2, and 1.537–3.

• • • • •

(c) *Holding and investment companies.* Section 535(c)(3) provides that, in the case of a mere holding or investment company, the accumulated earnings credit shall be the amount, if any, by which $100,000 exceeds the accumulated earnings and profits of the corporation at the close of the preceding taxable year. Thus, if such a corporation has accumulated earnings equal to or in excess of $100,000 at the close of its preceding taxable year, no accumulated earnings credit is allowable in computing

the accumulated taxable income. See paragraph (c) of § 1.533–1 for a definition of a holding or investment company. For the accumulated earnings credit of a mere holding or investment company which is a member of an affiliated group which has elected the 100-percent dividends received deduction under section 243(b), see section 243(b)(3) and § 1.243–5. For the accumulated earnings credit of a mere holding or investment company which is a component member of a controlled group of corporations (as defined in section 1563), see section 1564.

PAR. 14. Section 1.804–2 is amended by revising paragraph (d)(1) to read as follows:

§ 1.804–2 Taxable investment income.

• • • • •

(d) *Taxable investment income of a life insurance company.*—(1) *Definition.* Section 804(a)(2) defines the term "taxable investment income", for purposes of part I, as an amount (not less than zero) equal to the amount (if any) by which the net long-term capital gain exceeds the net short-term capital loss, plus the sum of the life insurance company's share (as determined under paragraph (c) of this section) of each and every item of investment yield (including tax-exempt interest, partially tax-exempt interest, and dividends received), reduced by the sum of—

(i) The life insurance company's share of interest which under section 103 is excluded from gross income,

(ii) The deduction for partially tax-exempt interest provided by section 242 (as modified by section 804(a)(3) and subparagraph (2)(i) of this paragraph) computed with respect to the life insurance company's share of such interest,

(iii) The deducton for dividends received provided by sections 243, 244, and 245 (as modified by section 804(a)(5) and subparagraph (2)(ii) of this paragraph) computed with respect to the life insurance company's share of the dividends received, and

(iv) The small business deduction provided by section 804(a)(4). For purposes of part I, such small business deduction shall be an amount equal to 10 percent of the investment yield for the taxable year, except that such amount shall not exceed $25,000, or, in the case of a component member of a controlled group of corporations (as defined in section 1563), the amount allowable under section 1564(a).

PAR. 15. Section 1.1562 is amended by revising so much of subsection (b)(1) of section 1562 as precedes subparagraph (A) thereof and the historical note to read as follows:

§ 1.1562 Statutory provisions; privilege of groups to elect multiple surtax exemptions.

SEC. 1562. *Privilege of groups to elect multiple surtax exemptions.* • • •

(b) *Additional tax imposed.*—(1) *General rule.* If an election under subsection (a)(1) by a controlled group of corporations is effective with respect to the taxable year of a corporation, there is hereby imposed for such taxable year on the taxable income of such corporation a tax equal to 6 percent of so much of such corporation's taxable income for such taxable year as does not exceed the amount of such corporation's surtax exemption for such taxable year. This paragraph shall not apply to the taxable year of a corporation if—

PAR. 16. Section 1.1562–1 is amended by revising paragraph (b)(2) to read as follows:

§ 1.1562–1 Privilege of controlled group to elect multiple surtax exemptions.

• • • • •

(b) *Effect of election.* • • •

(2) *Additional tax.* The additional tax imposed by section 1562(b) is an amount equal to 6 percent of so much of a corporation's taxable income for the taxable year as does not exceed the amount of such corporation's surtax exemption for such taxable year. However, if a corporation computes its tax under section 1201 (relating to alternative tax) and is subject to the additional tax imposed by section 1562(b) for such taxable year, the additional tax applies only to an amount equal to the excess of the net long-term capital gain over the net short-term capital loss for such taxable year (to the extent such amount does not exceed the amount of such corporation's surtax exemption for such taxable year).

• • • • •

PAR. 17. Section 1.1562–5 is amended by revising paragraph (a)(2), examples (4), (5), and (6) of paragraph (b)(2), and paragraph (c)(1) and (2) to read as follows:

§ 1.1562–5 Continuing and successor groups.

(a) *Controlled group continuing in existence.* • • •

(2) *Brother-sister group.* A brother-sister controlled group of corporations shall be considered as remaining in existence as long as the requirements of paragraph (a)(3)(i) of § 1.1563–1 continue to be satisfied with respect to at least two corporations, taking into account the stock ownership of only those five or fewer persons whose stock ownership was taken into account with respect to the election under section 1562(a)(1).

• • • • •

(b) *Controlled group no longer in existence.* • • •

(2) *Examples.* • • •

Example (4). Smith, an individual, owns 80 percent of the only class of stock of corporations W and X on each day of 1966 and 1967. W, in turn, owns 80 percent of the only class of stock of corporation Y on each day of 1966. On April 15, 1967, X purchases 80 percent of the only class of corporation Z and on April 30, 1967, W sells all its stock in Y. Under paragraph (a)(3) of this section, the combined group remains in existence throughout 1966 and 1967 since (i) the brother-sister controlled group of corporations referred to in paragraph (a)(4)(i) of § 1.1563–1 in respect of such combined group remains in existence, and (ii) at least one corporation is a common parent of a parent-subsidiary controlled group referred to in such paragraph.

Example (5). Assume the same facts as in example (4) except that Y and Z are life insurance companies subject to taxation under section 802 of the Code. Further assume that throughout 1966 and 1967 Y owns all the stock of corporation S, and Z owns all the stock of corporation T. S and T are life insurance companies subject to taxation under section 802. Before April 15, 1967, under paragraph (a)(5)(i) of § 1.1563–1, Y and S are treated as an insurance group of corporations. After April 30, 1967, under paragraph (a)(4) of this section, Z and T are treated as an insurance group which remains in existence throughout 1966 and 1967, since the combined group remains in existence within the meaning of paragraph (a)(3) of this section throughout 1966 and 1967, and there are at all times at least two insurance companies which satisfy the requirements of paragraph (a)(5)(i) of § 1.1563–1. (However, after April 30, 1967, Y and S cease to be members of the combined group and are considered to be a new controlled group of corporations.)

Example (6). Jones, an individual, owns all the stock of corporations M and N on each day of 1966. On February 1, 1967, he gives all the stock of M to his 18-year-old son who continues to hold the M stock throughout the remainder of 1967. Since Jones (or his son) owns, or is considered as owning under paragraph (b)(5)(i) of § 1.1563–3, all the stock of M and N on each day of 1967, under paragraph (a)(2) of this section the brother-sister controlled group consisting of M and N remains in existence throughout 1967.

• • • • •

(c) *Successor groups.*—(1) *Transactions involving a former owner or owners.* If, as a result of the transfer of stock of a corporation or corporations (whether by sale, exchange, distribution, contribution to capital, or otherwise), a controlled group ("old group") goes out of existence, and a new controlled group ("new group") comes into existence, then the new group shall be considered to be a successor to the old group, provided one of the following applies:

(i) A person or persons who own stock of the new group that meets the more-than-50-percent stock ownership requirement of section 1563(a)(2)(E) owned stock which met such stock ownership requirement with respect to the old group;

V 37-80 APR 25 72 XUM

(ii) A person or persons who owned more than 50 percent of the fair market value of the stock of the common parent of the old group owns, with respect to the new group, stock that meets the more-than-50-percent stock ownership requirement of section 1563(a)(2)(B); or

(iii) A person or persons who owned stock that met the more-than-50-percent stock ownership requirement of section 1563(a)(2)(B) with respect to the old group owns more than 50 percent of the fair market value of the stock of the common parent of the new group.

For purposes of this paragraph, the term "owns" includes direct ownership and ownership with the application of the rules contained in paragraph (b) of § 1.1563–3. For purposes of this subparagraph, if as a result of the transfer of stock, a parent-subsidiary controlled group or a brother-sister controlled group becomes a part of a combined group, then such parent-subsidiary or brother-sister group shall be considered as going out of existence as a result of such transfer. Also for purposes of this subparagraph, if as a result of the transfer of stock, a combined group goes out of existence and a parent-subsidiary or brother-sister group which was part of such combined group remains, then such parent-subsidiary or brother-sister group shall be considered to be a new controlled group which came into existence as a result of such transfer.

(2) *Examples.* The principles of subparagraph (1) of this paragraph may be illustrated by the following examples:

Example (1). On each day of 1971, unrelated individuals Grey, Black, and Green own the following amounts of the only class of outstanding stock of each of corporations R and T: Grey owns 40 percent, Black owns 40 percent, and Green owns 20 percent. On March 1, 1972, Grey sells all his stock in both corporations to unrelated individual Clay. As a result of the transfer, the brother-sister controlled group consisting of R and T goes out of existence. Since Black and Green, who owned stock which met the more-than-50-percent stock ownership requirement of section 1563(a)(2)(B) with respect to the old group, own stock of the new group (consisting of R and T) that meets the more-than-50-percent stock ownership requirement of section 1563(a)(2)(B), the new group is considered to be the successor to the old group. If Green also sold all his stock in both corporations to unrelated individual Barnes, Black would be the only stockholder of the new group whose stock ownership was taken into account in meeting the more-than-50-percent stock ownership requirement of section 1563(a)(2)(B) with respect to the old group. Since Black would not own stock of the new group that meets the more-than-50-percent stock ownership requirement of section 1563(a)(2)(B), the new group would not be considered a successor to the controlled group which went out of existence.

Example 2. On each day of 1971, all the outstanding stock of corporation P is owned in the following manner: Smith owns 30 percent, Jones owns 30 percent, and White owns 40 percent. P owns all the stock of corporation S_1, S_2, W_1, and W_2. On December 31, 1971, P, S_1, S_2, W_1, and W_2 are component members of the same controlled group. If on March 1, 1972, P distributes all the stock of S_1 and S_2 equally to Smith and Jones and all the stock of W_1 and W_2 to White, the controlled group consisting of P, S_1, S_2, W_1, and W_2 goes out of existence. Since Smith and Jones, who together owned stock which met the more-than-50-percent stock ownership requirement of section 1563(a)(2)(B) with respect to the old group, now together own stock of the new group (consisting of S_1 and S_2) that meets the more-than-50-percent stock ownership requirement of section 1563(a)(2)(B), such new group is considered the successor to the old group. On the other hand, since White, the sole shareholder of W_1 and W_2, did not own stock which met such stock ownership requirement with respect to the old group, the new group consisting of W_1 and W_2 is not considered a successor of the old group.

PAR. 18. Section 1.1563 is amended by revising subsection (a)(2), so much of subsection (c)(2)(A) as follows clause (i) thereof, and subsection (c)(2)(B), of section 1563 and the historical note to read as follows:

§ 1.1563 Statutory provisions; definitions and special rules.

SEC. 1563. *Definitions and special rules*—(a) *Controlled group of corporations.* * * *

(2) *Brother-sister controlled group.* Two or more corporations if five or fewer persons who are individuals, estates, or trusts own (within the meaning of subsection (d)(2)) stock possessing—

(A) At least 80 percent of the total combined voting power of all classes of stock entitled to vote or at least 80 percent of the total value of shares of all classes of the stock of each corporation, and

(B) More than 50 percent of the total combined voting power of all classes of stock entitled to vote or more than 50 percent of the total value of shares of all classes of stock of each corporation, taking into account the stock ownership of each such person only to the extent such stock ownership is identical with respect to each such corporation.

* * * * *

(c) *Certain stock excluded.* * * *

(2) *Stock treated as "excluded stock".*

(A) *Parent-subsidiary controlled group.* * * *

(ii) Stock in the subsidiary corporation owned by an individual (within the meaning of subsection (d)(2)) who is a principal stockholder or officer of the parent corporation. For purposes of this clause, the term "principal stockholder" of a corporation means an individual who owns (within the meaning of subsection (d)(2)) 5 percent or more of the total combined voting power of all classes of stock entitled to vote or 5 percent or more of the total value of shares of all classes of stock in such corporation,

(iii) Stock in the subsidiary corporation owned (within the meaning of subsection (d)(2)) by an employee of the subsidiary corporation if such stock is subject to conditions which run in favor of such parent (or subsidiary) corporation and which substantially restrict or limit the employee's right (or if the employee constructively owns such stock, the direct owner's right) to dispose of such stock, or

(iv) Stock in the subsidiary corporation owned (within the meaning of subsection (d)(2)) by an organization (other than the parent corporation) to which section 501 (relating to certain educational and charitable organizations which are exempt from tax) applies and which is controlled directly (or indirectly by the parent corporation or subsidiary corporation, by an individual, estate, or trust that is a principal stockholder (within the meaning of clause (ii)) of the parent corporation, by an officer of the parent corporation, or by any combination thereof.

(B) *Brother-sister controlled group.* For purposes of subsection (a)(2), if five or fewer persons who are individuals, estates, or trusts (referred to in this subparagraph as "common owners") own (within the meaning of subsection (d)(2)), 50 percent or more of the total combined voting power of all classes of stock entitled to vote or 50 percent or more of the total value of shares of all classes of stock in a corporation, the following stock of such corporation shall be treated as excluded stock—

(i) Stock in such corporation held by an employees' trust described in section 401(a) which is exempt from tax under section 501 (a), if such trust is for the benefit of the employees of such corporation,

(ii) Stock in such corporation owned (within the meaning of subsection (d)(2)) by an employee of the corporation if such stock is subject to conditions which run in favor of any of such common owners (or such corporation) and which substantially restrict or limit the employee's right (or if the employee constructively owns such stock, the direct owner's right) to dispose of such stock. If a condition which limits or restricts the employee's right (or the direct owner's right) to dispose of such stock also applies to the stock held by any of the common owners pursuant to a bona fide reciprocal stock purchase arrangement, such condition shall not be treated as one which restricts or limits the employee's right to dispose of such stock, or

(iii) Stock in such corporation owned (within the meaning of subsection (d)(2)) by an organization to which section 501 (relating to certain educational and charitable organizations which are exempt from tax) applies and which is controlled directly or indirectly by such corporation, by an individual, estate, or trust that is a principal stockholder (within the meaning of subparagraph (A)(ii)) of such corporation, by an officer of such corporation, or by any combination thereof.

[Sec. 1563 as added by sec. 235(a), Rev. Act 1964 (78 Stat. 116); amended by sec. 401(c) and (d); Tax Reform Act 1969 (83 Stat. 602)]

PAR. 19. Section 1.1563–1 is amended by revising paragraphs (a)(3), (4), and (5)(i), example (1) of paragraph (b)(4), and paragraph (c) to read as follows:

§ 1.1563–1 Definition of controlled group of corporations and component members.

(a) *Controlled group of corporations.* * * *

(3) *Brother-sister controlled group.* (i) The term "brother-sister controlled group" means two or more corporations if the same five or fewer persons who are individuals, estates, or trusts own (directly and with the application of the rules contained in paragraph (b) of § 1.1563–3), singly or in combination, stock possessing—

(*a*) At least 80 percent of the total combined voting power of all classes of stock entitled to vote or at least 80 percent of the total value of shares of all classes of the stock of each corporation; and

(*b*) More than 50 percent of the total combined voting power of all classes of stock entitled to vote or more than 50 percent of the total value of shares of all classes of stock of each corporation, taking into account the stock ownership of each such person only to the extent

such stock ownership is identical with respect to each such corporation.

(ii) The principles of this subparagraph may be illustrated by the following examples:

Example (1). The outstanding stock of corporations P, Q, R, S, and T, which have only one class of stock outstanding, is owned by the following unrelated individuals:

Individuals	Corporations					Identical ownership
	P	Q	R	S	T	
A	60%	60%	60%	60%	100%	60%
B	40%					
C		40%				
D			40%			
E				40%		
Total	100%	100%	100%	100%	100%	60%

Corporations P, Q, R, S, and T are members of a brother-sister controlled group.

Example (2). The outstanding stock of corporations U and V, which have only one class of stock outstanding, is owned by the following unrelated individuals:

Individuals	Corporations		Identical ownership
	U	V	
F	5%		
G	10%		
H	10%		
I	20%		
J	55%	55%	55%
K		10%	
L		10%	
M		10%	
N		10%	
O		5%	
Total	100%	100%	55%

Corporations U and V are not members of a brother-sister controlled group because at least 80 percent of the stock of each corporation is not owned by the same five or fewer persons.

(4) *Combined group.* (i) The term "combined group" means any group of three or more corporations, if—

(*a*) Each such corporation is a member of either a parent-subsidiary controlled group of corporations or a brother-sister controlled group of corporations, and

(*b*) At least one of such corporations is the common parent of a parent-subsidiary controlled group and also is a member of a brother-sister controlled group.

(ii) The definition of a combined group of corporations may be illustrated by the following examples:

Example (1). Smith, an individual, owns stock possessing 80 percent of the total combined voting power of all classes of the stock of corporations X and Y. Y, in turn, owns stock possessing 80 percent of the total combined voting power of all classes of the stock of corporation Z. Since—

(*a*) X, Y, and Z are each members of either a parent-subsidiary or brother-sister controlled group of corporations, and

(*b*) Y is the common parent of a parent-subsidiary controlled group of corporations consisting of Y and Z, and also is a member of a brother-sister controlled group of corporations consisting of X and Y,

X, Y, and Z are members of the same combined group.

Example (2). Assume the same facts as in example (1), and further assume that corporation X owns 80 percent of the total value of shares of all classes of stock of corporation T. X, Y, Z, and T are members of the same combined group.

(5) *Insurance group.* (i) The term "insurance group" means two or more insurance companies subject to taxation under section 802 each of which is a member of a controlled group of corporations described in subparagraph (2), (3), or (4) of this paragraph. Such insurance companies shall be treated as a controlled group of corporations separate from any other corporations which are members of the controlled group described in such subparagraph (2), (3), or (4). For purposes of this section and § 1.1562–5, the common parent of the controlled group described in subparagraph (2) of this paragraph shall be referred to as the common parent of the insurance group.

* * * * *

(b) *Component members.* * * *

(4) *Examples.* * * *

Example (1). Brown, an individual, owns all of the stock of corporations W and X on each day of 1964. W and X each uses the calendar year as its taxable year. On January 1, 1964, Brown also owns all the stock of corporation Y (a fiscal year corporation with a taxable year beginning on July 1, 1964, and ending on June 30, 1965), which stock he sells on October 15, 1964. On December 1, 1964, Brown purchases all the stock of corporation Z (a fiscal year corporation with a taxable year beginning on September 1, 1964, and ending on August 31, 1965). On December 31, 1964, W, X, and Z are members of the same controlled group. However, the component members of the group on such December 31 are W, X, and Y. Under subparagraph (2)(i) of this paragraph, Z is treated as an excluded member of the group on December 31 1964, since Z was a member of the group for less than one-half of the number of days (29 out of 121 days) during the period beginning on September 1, 1964 (the first day of its taxable year) and ending on December 30, 1964. Under subparagraph (3) of this paragraph, Y is treated as an additional member of the group on December 31, 1964, since Y was a member of the group for at least one-half of the number of days (107 out of 183 days) during the period beginning on July 1, 1964 (the first day of its taxable year) and ending on December 30, 1964.

* * * * *

(c) *Overlapping groups.*—(1) *In general.* If on a December 31 a corporation is a component member of a controlled group of corporations by reason of ownership of stock possessing at least 80 percent of the total value of shares of all classes of stock of the corporation, and if on such December 31 such corporation is also a component member of another controlled group of corporations by reason of ownership of other stock (that is, stock not used to satisfy the at-least-80-percent total value test) possessing at least 80 percent of the total combined voting power of all classes of stock of the corporation entitled to vote, then such corporation shall be treated as a component member only of the controlled group of which it is a component member by reason of the ownership of at least 80 percent of the total value of its shares.

(2) *Brother-sister controlled groups.* (i) If on a December 31, a corporation would, without application of this subparagraph, be a component member of more than one brother-sister controlled group on such date, such corporation shall be treated as a component member of only one such group on such date. Such a corporation may select which group in which it is to be included by filing an election as provided in this subparagraph. The election shall be in the form of a statement designating the group in which the corporation is to be included. The statement shall provide all the information with respect to stock ownership which is reasonably necessary to satisfy the Internal Revenue officer with whom it is filed that the corporation would, but for the election, be a component member of more than one controlled group. Once filed, the election is irrevocable and effective until such time that a change in the stock ownership of the corporation results in termination of membership in the controlled group in which such corporation has been included.

(ii) Except as provided in subdivision (iii) of this subparagraph, the statement shall be signed by a person duly authorized to act on behalf of such corporation and shall be filed on or before the due date (including extension of time) for the filing of the income tax return of such corporation for the taxable year. However, in the case of an election with respect to December 31, 1970, the statement shall be considered as timely filed if filed on or before December 15, 1971. In the event no election is filed in accordance with the provisions of this subdivision, then the district director with audit jurisdiction of such corporation's return for the taxable year which includes such December 31 shall determine the group in which such corporation is to be included, and such determination shall be binding for all subsequent years unless the corporation files a valid election with respect to any such subsequent year.

(iii) If more than one corporation would, without application of this subparagraph, be a component member of more than one controlled group, a single statement shall be signed by persons duly authorized to act on behalf of each such corporation. Such statement shall designate the group in which each corporation is to be included. The statement shall be attached to the income tax return of the corporation that, among those corporations which would (without the application of this subparagraph) belong to more than one group, has the taxable year including such December 31 which ends on the earliest date. However, in the case of an election with respect to December 31, 1970, the statement may be filed by December 15, 1971, with the service center director with whom such corporation's return is filed for the taxable year which includes such December 31. In the event no election is filed in accordance with the provisions of this subdivision, then the district director with audit jurisdiction of such corporation's return for the taxable year that includes such December 31 shall determine the

V 37-80
APR 25 72
XUM

group in which each corporation is to be included, and such determination shall be binding for all subsequent years unless the corporations file a valid election with respect to any such subsequent year.

(iv) The provisions of this subparagraph may be illustrated by the following examples (in which it is assumed that all the individuals are unrelated):

Example (1). On each day of 1970 all the outstanding stock of corporations M, N, and P is held in the following manner:

Individuals	Corporations		
	M	N	P
A	60%	40%	0
B	40%	20%	40%
C	0	40%	60%

Since the more-than-50-percent stock ownership requirement of section 1563(a)(2)(B) is met with respect to corporations M and N and with respect to corporations N and P, but not with respect to corporations M, N, and P, corporation N would, without the application of this subparagraph, be a component member on December 31, 1970, of overlapping groups consisting of M and N and of N and P. If N does not file an election in accordance with subdivision (ii) of this subparagraph, the district director with audit jurisdiction of N's return will determine the group in which N is to be included.

Example (2). On each day of 1970, all the outstanding stock of corporations S, T, W, X, and Z is held in the following manner:

Individuals	Corporations				
	S	T	W	X	Z
D	60%	60%	60%	60%	60%
E	40%	0	0	0	0
F	0	40%	0	0	0
G	0	0	40%	0	0
H	0	0	0	40%	0
I	0	0	0	0	40%

On December 31, 1970, the more-than-50-percent stock ownership requirement of section 1563(a)(2)(B) may be met with regard to any combination of the corporations but all five corporations cannot be included as component members of a single controlled group because the inclusion of all the corporations in a single group would be dependent upon taking into account the stock ownership of more than five persons. Therefore, if the corporations do not file a statement in accordance with subdivision (iii) of this subparagraph, the district director with audit jurisdiction of the return of the corporation whose taxable year ends on the earliest date will determine the group in which each corporation is to be included. The corporations or the district director, as the case may be, may designate that three corporations be included in one group and two corporations in another, or that any four corporations be included in one group and that the remaining corporation not be included in any group.

PAR. 20. Section 1.1563–2 is amended by adding a new subdivision (iv) to paragraph (b)(2), by revising paragraph (b)(3), and by revising subdivision (ii) of, and adding a new subdivision (iii) to, paragraph (b)(4). These revised and added provisions read as follows:

§ 1.1563–2 Excluded stock.

* * * * *

(b) *Stock treated as excluded stock.* * * *

(2) *Stock treated as not outstanding.* * * *

(iv) *Controlled exempt organization.* Stock in the subsidiary corporation owned (directly and with the application of the rules contained in paragraph (b) of § 1.1563–3) by an organization (other than the parent corporation)—

(*a*) To which section 501 (relating to certain educational and charitable organizations which are exempt from tax) applies, and

(*b*) Which is controlled directly or indirectly by the parent corporation or subsidiary corporation, by an individual, estate, or trust that is a principal stockholder of the parent corporation, by an officer of the parent corporation, or by any combination thereof.

The terms "principal stockholder of the parent corporation" and "officer of the parent corporation" shall have the same meanings in this subdivision as in subdivision (ii) of this subparagraph. The term "control" as used in this subdivision means control in fact and the determination of whether the control requirement of (*b*) of this subdivision is met will depend upon all the facts and circumstances of each case, without regard to whether such control is legally enforceable and irrespective of the method by which such control is exercised or exercisable.

(3) *Brother-sister controlled group.* If five or fewer persons (hereinafter referred to as common owners) who are individuals, estates, or trusts own (directly and with the application of the rules contained in paragraph (b) of § 1.1563–3) stock possessing 50 percent or more of the total combined voting power of all classes of stock entitled to vote or 50 percent or more of the total value of shares of all classes of stock in a corporation, the provisions of subparagraph (4) of this paragraph shall apply. In determining whether the stock owned by such person or persons possesses the requisite percentage of the total combined voting power of all classes of stock entitled to vote of a corporation, see paragraph (a)(6) of § 1.1563–1.

(4) *Stock treated as not outstanding.* * * *

(ii) *Employees.* Stock in such corporation owned (directly and with the application of the rules contained in paragraph (b) of § 1.1563–3) by an employee of such corporation if such stock is subject to conditions which run in favor of a common owner of such corporation (or in favor of such corporation) and which substantially restrict or limit the employee's right (or if the employee constructively owns such stock, the record owner's right) to dispose of such stock. The principles of subparagraph (2)(iii) of this paragraph shall apply in determining whether a condition satisfies the requirements of the preceding sentence. Thus, in general, a condition which extends, directly or indirectly, to a common owner or such corporation preferential rights with respect to the acquisition of the employee's (or record owner's) stock will be considered to be a condition which satisfies such requirements. For purposes of this subdivision, if a condition which restricts or limits an employee's right (or record owner's right) to dispose of his stock also applies to the stock in such corporation held by such common owner pursuant to a bona fide reciprocal stock purchase arrangement, such condition shall not be treated as one which restricts or limits the employee's (or record owner's) right to dispose of such stock. An example of a reciprocal stock purchase arrangement is an agreement whereby a common owner and the employee are given a right of first refusal with respect to stock of the employer corporation owned by the other party. If, however, the agreement also provides that the common owner has the right to purchase the stock of the employer corporation owned by the employee in the event that the corporation should discharge the employee for reasonable cause, the purchase arrangement would not be reciprocal within the meaning of this subdivision.

(iii) *Controlled exempt organization.* Stock in such corporation owned (directly and with the application of the rules contained in paragraph (b) of § 1.1563–3) by an organization—

(*a*) To which section 501(c)(3) (relating to certain educational and charitable organizations which are exempt from tax) applies, and

(*b*) Which is controlled directly or indirectly by such corporation, by an individual, estate, or trust that is a principal stockholder of such corporation, by an officer of such corporation, or by any combination thereof.

The terms "principal stockholder" and "officer" shall have the same meanings in this subdivision as in subparagraph (2)(ii) of this paragraph. The term "control" as used in this subdivision means control in fact and the determination of whether the control requirement of (*b*) of this subdivision is met will depend upon all the facts and circumstances of each case, without regard to whether such control is legally enforceable and irrespective of the method by which such control is exercised or exercisable.

* * * * * *

PAR. 21. Section 1.1563–3 is amended by revising paragraphs (d)(2)(iv) and (d)(3) to read as follows:

§ 1.1563–3 Rules for determining stock ownership.

* * * * * *

(d) *Special rule of section 1563(f)(3)(B).* * * *

(2) *Component member of more than one group.* * * *

(iv) If the application of subdivision (ii) or (iii) of this subparagraph does not result in a corporation being treated as a component member of only one controlled group of corporations on a December 31, then the determination of that group of which such corporation is to be treated as a component member

shall be made by the district director with audit jurisdiction of such corporation's return for the taxable year that includes such December 31 unless such corporation files an election as provided in this subdivision. The election shall be in the form of a statement, signed by a person authorized to act on behalf of such corporation, designating the group in which the corporation has elected to be included. The statement shall provide all the information with respect to stock ownership which is reasonably necessary to satisfy the district director that the corporation would, but for the election, be a component member of more than one controlled group. The statement shall be filed on or before the due date (including extensions of time) for the filing of the income tax return of such corporation for the taxable year. However, in the case of an election with respect to December 31, 1970, the statement shall be considered as timely filed if filed on or before December 15, 1971. Once filed, the election is irrevocable and effective until subdivision (ii) or (iii) of this subparagraph applies or until there is a substantial change in the stock ownership of such corporation.

* * * * * *

(3) *Examples.* The provisions of this paragraph may be illustrated by the following examples, in which each corporation referred to uses the calendar year as its taxable year and the stated facts are assumed to exist on each day of 1970 (unless otherwise provided in the example):

Example (1). Jones owns all the stock of corporation X and has an option to purchase from Smith all the outstanding stock of corporation Y. Smith owns all the outstanding stock of corporation Z. Since the Y stock is considered as owned by two or more persons, under subparagraph (2)(ii) of this paragraph the Y stock is treated as owned only by Smith since he has direct ownership of such stock. Therefore, on December 31, 1970, Y and Z are component members of the same brother-sister controlled group. If, however, Smith had owned his stock in corporation Z for less than one-half of the number of days of Z's 1970 taxable year, then under subparagraph (1) of this paragraph the Y stock would be treated as owned only by Jones since his ownership results in Y being a component member of a controlled group on December 31, 1970.

Example (2). Individual H owns directly all the outstanding stock of corporation M. W (the wife of H) owns directly all the outstanding stock of corporation N. Neither spouse is considered as owning the stock directly owned by the other because each of the conditions prescribed in paragraph (b)(5)(ii) of this section is satisfied with respect to each corporation's 1970 taxable year. H owns directly 60 percent of the only class of stock of corporation P and W owns the remaining 40 percent of the P stock. Under subparagraph (2)(iii) of this paragraph, the stock of P is treated as owned only by H since H owns (directly and with the application of the rules contained in paragraph (b)(1), (2), (3), and (4) of this section) the stock possessing the greatest percentage of the total value of shares of all classes of stock of P. Accordingly, on December 31, 1970, P is treated as a component member of a brother-sister group consisting of M and P.

Example (3). Unrelated individuals A and B each owns one-half of all the outstanding stock of corporation R, which in turn owns 70 percent of the only class of outstanding stock of corporation S. The remaining 30 percent of the stock of corporation S is owned by unrelated individual C. Under the attribution rule of paragraph (b)(4) of this section, A and B each is considered as owning 35 percent of the stock of corporation S. Accordingly, since five or fewer persons own at least 80 percent of the stock of corporations R and S and also own more than 50 percent identically (A and B's identical ownership each is 35 percent), on December 31, 1970, corporations R and S are treated as component members of the same brother-sister controlled group.

PAR. 22. There is added immediately following § 1.1563–4 the following new sections:

§ 1.1564 Statutory provisions; transitional rules in the case of certain controlled corporations.

SEC. 1564. *Transitional rules in the case of certain controlled corporations*—(a) *Limitation on additional benefits*—(1) *In general.* With respect to any December 31 after 1969 and before 1975, the amount of—

(A) Each additional $25,000 surtax exemption under section 1562 in excess of the first such exemption,

(B) Each additional $100,000 amount under section 535(c)(2) and (3) in excess of the first such amount, and

(C) Each additional $25,000 limitation on the small business deduction of life insurance companies under sections 804(a)(4) and 809(d)(10) in excess of the first such limitation,

otherwise allowed to the component members of a controlled group of corporations for their taxable years which include such December 31 shall be reduced to the amount set forth in the following schedule:

Taxable years including—	Surtax exemption	Amount under sec. 535(c)(2) and (3)	Small business deduction limitation
Dec. 31, 1970	$20,833	$83,333	$20,833
Dec. 31, 1971	16,667	66,667	16,667
Dec. 31, 1972	12,500	50,000	12,500
Dec. 31, 1973	8,333	33,333	8,333
Dec. 31, 1974	4,167	16,667	4,167

(2) *Election.* With respect to any December 31 after 1969 and before 1975, the component members of a controlled group of corporations shall elect (at such time and in such manner as the Secretary or his delegate shall by regulations prescribe) which component member of such group shall be allowed for its taxable year which includes such December 31 the surtax exemption, the amount under section 535(c)(2) and (3), or the small business deduction limitation which is not reduced under paragraph (1).

(b) *Dividends received by corporations*—(1) *General rule.* If—

(A) An election of a controlled group of corporations (as defined in paragraph (1), or in so much of paragraph (4) as relates to paragraph (1), of section 1563(a)) under section 1562(a) (relating to privilege of a controlled group of corporations to elect to have each of its component members make its returns without regard to section 1561) was made on or before April 22, 1969, and

(B) Such election is effective with respect to the taxable year of each component member of such group which includes December 31, 1969,

then, with respect to a dividend distributed on or before December 31, 1977, out of earnings and profits of a taxable year which includes a December 31 after 1969 and before 1975, subsections (a)(3) and (b) of section 243 (relating to dividends received by corporations) shall be applied to such component members comprising an affiliated group (as defined in section 243(b)(5)) in the manner set forth in paragraph (2).

(2) *Special rules.* (A) An election under section 243(b)(2) may be made for a taxable year which includes a December 31 after 1969 and before 1975, notwithstanding that an election under section 1562(a) is in effect for the taxable year.

(B) Section 243(b)(1)(B)(ii) shall not apply with respect to a dividend distributed on or before December 31, 1977, out of earnings and profits of a taxable year which includes a December 31 after 1969 and before 1975 for which an election under section 1562(a) is in effect, and in lieu of the percentage specified in section 243(a)(3) with respect to such dividend, the percentage shall be the percentage set forth in the following schedule:

If the dividend is distributed out of the earnings and profits of the distributing corporation's taxable year which includes—	The percentage shall be—
December 31, 1970	87½ percent.
December 31, 1971	90 percent.
December 31, 1972	92½ percent.
December 31, 1973	95 percent.
December 31, 1974	97½ percent.

(C) For taxable years which include a December 31 after 1969 for which an election under section 1562(a) is in effect, section 243(b)(3)(C)(v) shall not be applied to limit the number of surtax exemptions.

(c) *Certain short taxable years. If*—

(1) A corporation has a short taxable year beginning after December 31, 1969, and ending before December 31, 1974, which does not include a December 31, and

(2) Such corporation is a component member of a controlled group of corporations with respect to such taxable year (determined by applying section 1563(b) as if the last day of such taxable year were substituted for December 31),

then subsections (a) and (b) shall be applied as if the last day of such taxable year were the nearest December 31 to such day.

[Sec. 1564 as added by sec. 401(b), Tax Reform Act 1969 (83 Stat. 600)]

§ 1.1564–1 Limitations on additional benefits for members of controlled groups.

(a) *In general.* Section 1564(a)(1) provides that, with respect to any December 31 after 1969 and before 1975, only one component member of a controlled group of corporations (as defined in section 1563(a)) shall be allowed the full amount of—

(1) The $25,000 surtax exemption under section 1562 (relating to election of multiple surtax exemptions),

(2) The $100,000 amount under section 535(c)(2) and (3) (relating to the accumulated earnings credit), and

(3) The $25,000 limitation on the small business deduction of life insurance companies under sections 804(a)(4) and 809(d)(10).

The amounts otherwise allowed to the other component members of such controlled group for their taxable years which include such December 31

V 37-80 APR 25 72 XUM

shall be reduced to the amounts set forth in the following schedule:

Taxable years including—	Surtax exemption	Amount under sec. 535(c) (2) and (3)	Small business deduction limitation
Dec. 31, 1970	$20,833	$83,333	$20,833
Dec. 31, 1971	16,667	66,667	16,667
Dec. 31, 1972	12,500	50,000	12,500
Dec. 31, 1973	8,333	33,333	8,333
Dec. 31, 1974	4,167	16,667	4,167

(b) *Election.* (1) Section 1564(a)(2) provides that, with respect to any December 31 after 1969 and before 1975, the component members of a controlled group of corporations shall elect which component member or members of such group shall be allowed for their taxable years which includes such December 31 the full amounts described in paragraph (a)(1),(2), and (3) of this section. In making such election, the members may allocate such full amounts among themselves in any manner they choose. For example, the group may select one of its members to receive the full amount of the $25,000 surtax exemption under section 1562 and another of its members to receive the full $100,000 amount under section 535(c)(2), or it may select one of its members to claim both such full amounts.

(2) The election shall be made with respect to a particular December 31 and shall be valid only if each corporation which is a component member of the controlled group on such December 31 gives its consent. The consents shall be made by means of a statement, signed by persons duly authorized to act on behalf of each of the component members (other than wholly owned subsidiaries), stating which member has been selected to receive the amount which is not reduced under paragraph (a) of this section. The member so selected shall attach the statement to its income tax return for the taxable year including such December 31. The statement shall set forth the name, address, employer identification number, and taxable years of each of the other component members (including wholly owned subsidiaries) of the controlled group. Such other members shall attach a copy of the statement to their income tax returns for their taxable years including such December 31. An election plan adopted by a controlled group with respect to a particular December 31 shall be valid only for the taxable year of each member of the group which includes such December 31.

(3) Each component member of a controlled group which is a wholly owned subsidiary of such group with respect to a December 31 shall be deemed to consent to an election with respect to such December 31, provided each component member of the group which is not a wholly owned subsidiary consents to the election plan. A component member of a controlled group shall be considered to be a wholly owned subsidiary of the group with respect to a December 31 if, on each day preceding such date during its taxable year which includes such date, all of its stock is owned directly by one or more corporations which are component members of the group on such December 31.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 3—Department of Health, Education, and Welfare

PART 3-4—SPECIAL TYPES AND METHODS OF PROCUREMENT

Subpart 3-4.54—Procurement Clearance of Audio Visual Productions

On January 18, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 743) stating that the Department of Health, Education, and Welfare was considering an amendment to 41 CFR Chapter 3 by revising Subpart 3-4.54, Procurement Clearance of Audio Visual Productions. The purpose of this revision is to clarify the scope of coverage to include all steps and techniques used to procure a finished motion picture, video tape, slide show, film strip, audio recording, exhibitry, display, or similar productions.

Interested persons were invited to submit relevant data, views, or arguments within 30 days after publication. No comments were received, so the regulation is revised and hereby adopted as set forth below.

(5 U.S.C. 301; 40 U.S.C. 486(c))

Effective date. This amendment shall be effective upon publication in the FEDERAL REGISTER (4-25-72).

Dated: April 11, 1972.

N. B. HOUSTON,
Deputy Assistant Secretary for Administration.

1. The table of contents for Part 3-4 is amended by changing the title of Subpart 3-4.54 as follows:

Subpart 3-4.54—Procurement Clearance of Audio Visual Productions

The revision to subpart 3-4.54 is as follows:

Subpart 3-4.54—Procurement Clearance of Audio-Visual Productions

§ 3-4.5400 Scope of subpart.

This subpart provides for prior clearance and methods of contracting for the procurement of audiovisual productions. Refer to Chapter 1-121 of the General Administration Manual. The term "audio visual production," as used in this subpart, refers to all steps and techniques leading to the realization of a finished motion picture, video tape, slide show, film strip, audio recording, exhibitry, display, or similar materials, including design, layout, preparation of scripts, filming or taping, sound recording, editing, fabrication, or other activities leading to the creation of an audiovisual production regardless of intended use. Instructions relating to procurement of such productions obtained with grant funds are contained in Chapter 1-450 of the HEW Grants Administration Manual.

§ 3-4.5401 Responsibility.

No procurement action for acquisition of audiovisual productions shall be initiated without first obtaining proper clearance and approvals as set forth below. The Office of the Assistant Secretary for Public Affairs, Office of the Secretary (ASPA-OS), has been designated as the office of primary responsibility for the review and approval of all audiovisual productions. Requests for the procurement of audiovisual productions shall be submitted to ASPA-OS for review and approval (or disapproval).

§ 3-4.5402 Clearance for procurement.

(a) Clearances shall apply to contracts dealing, in whole or in part, with development of audiovisual productions, whether for public information, education or training purposes.

(b) All requests for approval of audiovisual productions, except requests for exhibitry shall be submitted on revised Form HEW-524, Request for Audiovisual Material. Requests for audiovisual materials will be submitted to ASPA-OS for review and approval prior to initiating any procurement action. Requests for approval of exhibitry shall be submitted to ASPA-OS in memorandum form stating the purpose as well as a general description of the content, and the circumstances under which the exhibitry will be used.

(c) Each request shall include the name of the assigned project officer. Failure to assign a project officer whose experience in audiovisual production is suitable to the project will constitute sufficient reason for disapproval of the project.

(d) Each request shall have been approved at the agency level by not lower than the principal public information officer, i.e., Assistant Commissioner for Public Affairs, Assistant Administrator for Information, etc., prior to submission to ASPA-OS.

(e) Requests shall be forwarded to ASPA-OS in triplicate by the approving agency level information officer. Two copies shall be returned by ASPA-OS to the agency level information officer together with (1) a memorandum of approval designating subsequent stages of the project at which ASPA-OS will review the material, or (2) a memorandum of disapproval documenting the reason for withholding approval.

(f) The approved original of the request shall be made a part of the permanent procurement file.

§ 3-4.5403 Methods of contracting.

(a) All procurements shall be conducted on a competitive basis whenever possible. The requirement for publicizing proposed procurements by synopsis in the Commerce Business Daily, as set forth in § 1-1.1003, Federal Procurement Regulations, shall be followed.

(b) When considered desirable and appropriate to do so, current approved bidders lists, call contracts, or procurement arrangements of another Federal agency or department may be used subject to prior concurrence of ASPA-OS, and Office of Procurement and Materiel Management, Office of the Assistant Secretary for Administration and Management (OPMM-OASAM).

(c) When operating agencies wish to supplement any qualified bidders list or call contract list with additional contractors, such additions shall be coordinated with ASPA-OS and OPMM-OASAM.

§ 3-4.5404 Competition.

(a) Contracts shall be awarded after competition and on a fixed price basis whenever feasible. Requests for sole source procurement shall receive the concurrence of ASPA-OS and OPMM-OASAM.

(b) When call contracts or procurement arrangements have already been synopsized, no further synopsis is necessary when issuing calls against the basic contract. However, this procedure does not eliminate the requirement to obtain adequate competition from sources described in § 3-4.5403(b) consistent with the nature and size of the requirement.

Chapter 5B—Public Buildings Service, General Services Administration

PART 5B-2—PROCUREMENT BY FORMAL ADVERTISING

Subpart 5B-2.2—Solicitation of Bids

LISTING OF SUBCONTRACTORS

This order amends the procedures for the listing of subcontractors by clarifying the term "subcontractor," defining the term "subcontract," and requiring that the designations for categories of subcontractors agree with the titles (including numbers) of the appropriate sections of the project specification.

Section 5B-2.202-70 is amended to read as follows:

§ 5B-2.202-70 Listing of subcontractors.

(a) Except as otherwise provided in paragraph (b) of this section, invitations for bids shall require the bidder to name the principal subcontractors (or his own firm when it will perform the work). Contracting officers shall determine the categories of work for which subcontractors' names are to be submitted. The mechanical, electrical, and elevator and/or escalator divisions of the project specifications shall be included in the subcontractor listing by title and division number. In addition, such listing shall include, by titles and section numbers, all other general construction categories of work in the project specifications which, individually, are determined by the contracting officer to comprise at least 3½ precent of the estimated cost of the entire contract; categories estimated to cost less shall not be included.

(e) The following clause shall be included in the Special Conditions:

LISTING OF SUBCONTRACTORS

(a) For each category on the List of Subcontractors which is included as part of the bid form, the bidder shall submit the name and address of the individual or firm with whom he proposes to contract for performance of such category: *Provided*, That the bidder may enter his own name for any category which he will perform with personnel carried on his own payroll (other than operators of leased equipment) to indicate that the category will not be performed by subcontract.

(b) If the bidder intends to subcontract with more than one subcontractor for a category or to perform a portion of a category with his own personnel and subcontract with one or more subcontractors for the balance of the category, the bidder shall list all such individuals or firms (including himself) and state the portion (by percentage or narrative description) of the category to be furnished by each.

(c) If alternate bids are required under this invitation, the bidder may list both the name of the individual or firm with whom he proposes to subcontract (or his own name) if awarded the contract on the base bid only, and the name of a different individual or firm with whom he proposes to subcontract for a category (or his own name) if award is made on the basis of base bid plus an alternate (or alternates) which affects the category for which alternate subcontractors are so listed, provided that the bidder clearly indicates after each such listing the basis upon which each named individual or firm shall be deemed to be the listed subcontractor for that category.

(d) The list may be submitted with the bid or separately by telegraph, mail, or otherwise. If mailed separately, the envelope must be sealed, identified as to content, and addressed in the same manner as prescribed for submission of bids. Failure to submit the list by the time set for bid opening shall cause the bid to be considered nonresponsive except under the conditions set out in Instruction No. 7 of the Instructions to Bidders (Standard Form 22).

(e) Except as otherwise provided herein, the successful bidder agrees that he will not have any of the listed categories involved in the performance of this contract performed by any individual or firm other than those named for the performance of such categories.

(f) The term "subcontractor" for the purpose of this requirement shall mean the individual or firm with whom the bidder proposes to enter into a subcontract for manufacturing, fabricating, installing, or otherwise performing work under this contract pursuant to the project specifications applicable to any category included on the list.

(g) The term "subcontract" includes, in addition to a two-signature document, all transactions resulting from acceptance of offers by awards or notices of awards; agreements and job orders; letter agreements; letters of intent; and orders, such as purchase orders, under which the subcontract becomes effective by written acceptance or performance. It also includes modifications thereto.

(h) Nothing contained in this clause shall be construed as changing the percentage requirement in the General Conditions for the Contractor to perform with his own forces.

(i) The Contractor shall be responsible for all aspects of performance by subcontractors.

(j) No substitutions for the individuals or firms named will be permitted except in unusual situations and then only upon the submission in writing to the Contracting Officer of a complete justification therefor and receipt of the Contracting Officer's written approval. In the event the Contracting Officer finds that substitution is not justified, the Contractor's failure or refusal to proceed with the work by or through the named subcontractor shall be grounds for termination of the contract under the provisions of Clause 5 of the General Provisions.

(k) Notwithstanding any of the provisions of this clause, the Contracting Officer shall have authority to disapprove or reject the employment of any subcontractor he has determined nonresponsible or who does not meet the requirements of an applicable Specialists or Competency of Bidder clause.

(l) The Contracting Officer shall have the right to require any information and supporting evidence he may deem relevant and necessary in connection with the approval or disapproval of a request for substitution and the appropriate adjustment of the contract price in the event substitution is approved, including but not limited to certified copies of the original worksheets used in the preparation of the bid on the prime contract, certified copies of the offers submitted to the successful bidder by the named subcontractor and the proposed substitute, and affidavits as to the circumstances relating to the request for substitution or the estimated cost of performance by any subcontractor named or proposed as a substitute. The Contractor's failure or refusal to proceed with the work by or through a named subcontractor after failing or refusing for an unreasonable period of time to furnish information and supporting evidence as required by the Contracting Officer in connection with a request for approval for a substitution shall be grounds for termination under the provisions of clause 5 of the general provisions.

(m) Nothing contained in this clause shall in itself be construed to create any contract or property rights in the successful bidder or any subcontractor. The imposition of any requirements under subparagraph (k) of this clause or the Contracting Officer's refusal to approve a substitution pursuant to the provisions of subparagraphs (j) and (l) of this clause shall not give rise to any cause of action against the Government by the successful bidder or by any subcontractor engaged or proposed to be engaged by the successful bidder.

(n) If the bidder fails to comply with the requirements of subparagraph (a) or (b) or (c) of this clause, the bid will be rejected as nonresponsive to the invitation.

(o) In order to effectively implement the objectives of the foregoing provisions and to ensure the timely receipt of accurate bids, the bidder is requested to urge all subcontractors intending to submit a proposal for work involved in the project to submit to all bidders to whom they intend to bid a written proposal (or written abstract) with or without price outlining in detail the specific sections of the specifications to be included in their work as well as any exceptions or exclusions therefrom. It is suggested that such written proposal be submitted to the bidder at least 48 hours in advance of the bid opening.

Chapter 60—Office of Federal Contract Compliance, Equal Employment Opportunity, Department of Labor

PART 60–7—ST. LOUIS PLAN

Requirements, Terms, and Conditions of Awarding Federal Construction Contracts

On February 8, 1972, notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 2847) with regard to amending Chapter 60 of Title 41 of the Code of Federal Regulations by amending Part 60–7 thereof dealing with the St. Louis Plan for equal employment opportunities in the construction trades. Interested persons were invited to submit written comments regarding the proposed amendment to the Deputy Assistant Secretary for Employment Standards, U.S. Department of Labor, 14th Street and Constitution Avenue NW., Washington, DC 20210, within 30 days of publication of that notice in the FEDERAL REGISTER.

Having considered all relevant material submitted, I have decided to, and do hereby amend Chapter 60, Title 41 of the Code of Federal Regulations by amending 60–7.30 thereof to read as follows:

Subpart D—Appendix A

§ 60–7.30 Appendix A.

* * * * *

REQUIREMENTS, TERMS, AND CONDITIONS

1. No contracts or subcontracts shall be awarded for Federal or federally-assisted construction in the city of St. Louis or St. Louis County, Mo., on projects whose estimated cost exceeds $500,000 unless the bidder completes and submits, prior to bid openings, this document designated as Appendix A, or a substantially similar document, which shall include specific goals of minority manpower utilization for each trade designated below which will be used by the contractor on all his work (both Federal and non-Federal) within the city of St. Louis and St. Louis County, Mo., during the term of his performance of the contract, such goals to be established by the contractor at least within the ranges established by this appendix in section 2 thereof. Minority manpower means, for the purposes of this appendix, Negroes, Spanish surnamed Americans, Orientals, and American Indians. The trades utilizing the following classifications of employees are covered by this appendix:

Asbestos workers.
Boilermakers.
Bricklayers.
Carpenters.
Cement and concrete finishers.
Electricians.
Elevator constructors.
Glaziers.
Ironworkers.
Lathers and plasterers.
Operating engineers.
Painters and paperhangers.
Plumbers and pipefitters.
Roofers and slaters.
Sheetmetal workers.
Tile setters and terrazzo workers.

The above designated trades are those in which the underutilization of minorities is most apparent and as to which goals of minority manpower utilization falling within the range designated herein could be developed and achieved, without displacing incumbents in the trades.

Included in the above listing is the trade of Carpenters as to which there has been developed and approved by the OFCC a Supplemental Manpower Agreement to which the Carpenters District Council of St. Louis and the Associated General Contractors of St. Louis are signatories. That Agreement which meets or exceeds the requirements of the St. Louis Plan which would otherwise be applicable to this trade provides, inter alia, for a 5-year goal of twenty percent (20%) minority manpower representation in the trade.

Additionally, an affirmative action agreement has been executed by and between the National Electrical Contractors Association and Local Union No. 1, International Brotherhood of Electrical Workers, which has been accepted by the OFCC. That Agreement also meets or exceeds the requirements of the St. Louis Plan which would otherwise be applicable to this trade and provides, inter alia, for a 5-year goal of seventeen percent (17%).

Those contractors who are signatories to the aforementioned affirmative action programs and who continue to satisfactorily participate therein, shall, so long as such programs remain approved by the OFCC be relieved of their obligations to meet their goals of minority manpower utilization designated in this appendix for the trades of Carpenters and Electricians, as appropriate.

A bidder who fails or refuses to complete or submit the goals required by this Appendix A and who is not otherwise relieved from his obligation to do so, shall not be deemed a responsive bidder and may not be awarded the contract or subcontract, but such goals need not be submitted only for those trades which the contractor contemplates to be used in the performance of the federally-involved contract. In no case shall there be any negotiations over the provisions of the specific goals submitted by the bidder after the opening of bids and prior to the award of the contract.

Signed at Washington, D.C., this 10th day of April 1972.

J. D. HODGSON,
Secretary of Labor.

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 170—FEES FOR FACILITIES AND MATERIALS LICENSES UNDER THE ATOMIC ENERGY ACT OF 1954, AS AMENDED

Revised Fees for Facilities and Materials Licenses

On January 25, 1972, the Atomic Energy Commission published in the FEDERAL REGISTER (37 F.R. 1121) proposed amendments to 10 CFR Part 170 of its regulations which would revise fees charged for facilities and materials licenses. Interested persons were invited to submit written comments and suggestions for consideration within 30 days after publication of the notice of proposed rule making in the FEDERAL REGISTER.

The fees set out in the notice of proposed rule making covered the costs related to health and safety compliance and inspection, which were not included in the previous fee schedule, and also reflected increased licensing costs. The proposed revised fees were based on the principle of full cost recovery. The cost of each function or element making up the total fee base was examined separately and was assigned to the appropriate fee category. The regulatory costs associated with the processing of licenses and health and safety compliance and inspection activities were used in developing the fees. No costs related to rule making, development of standards, codes and criteria, safeguards activities, and administration of the State relations program were included. Costs associated with licenses exempt from fees were identified and excluded.

After consideration of the comments received and other factors involved, the Commission has adopted the proposed amendments with certain modifications discussed below.

A number of persons commented that the Commission's fee schedule should take into account, with more particularity, the size and nature of licensed operations involving the use of byproduct material. Pending further consideration of these comments, the Commission is deferring adoption of the revised fee schedule for certain byproduct material licenses.

A new subparagraph (9) has been added to § 170.11(a) to exempt from fees license applications from, or licenses issued to, an agency of a State or any political subdivision thereof for byproduct material, source material, or special nuclear material.

The footnote to § 170.12(b) has been modified to clarify the intent of the Commission that fees for provisional construction permits or provisional operating licenses, which are payable, under the footnote to § 170.12(b) of Part 170, on the date of issuance of such provisional construction permits or provisional operating licenses, must be paid according to the fee schedules in effect on the date of issuance.

Paragraph 170.12(c) has been revised to clarify the due date for annual fees for licenses issued after February 5, 1971.

In view of the change in the fee schedule for nuclear power plants, footnote 1 of § 170.21 has been modified to clarify that in the case of license amendments authorizing higher power levels, the increased fees apply only to the increment. For example, if the power level of a reactor is increased from 1,800 Mw(t) to 2,000 Mw(t), the fee which must accompany the application is $19,000 (200×95=$19,000).

The Commission is required to keep the matter of license fees under continuing review. If costs of licensing services change, it may be expected that the fee schedule will be adjusted.

Pursuant to the Atomic Energy Act of 1954, as amended, and section 552 and section 553 of title 5 of the United States Code, the following amendments to Title 10, Chapter 1, Code of Federal Regulations, Part 170 are published as a document subject to codification to be effective thirty (30) days after publication in the FEDERAL REGISTER.

1. A new subparagraph (9) is added to § 170.11(a) of 10 CFR Part 170 to read as follows:

§ 170.11 Exemptions.

(a) No application filing fees, license fees, or annual fees shall be required for:

* * * * *

(9) A license for possession and use of byproduct material, source material, or special nuclear material applied for by, or issued to, an agency of a State or any political subdivision thereof.

* * * * *

2. In § 170.12 the footnote to the heading of paragraph (b) and paragraph (c) is amended to read as follows:

§ 170.12 Payment of fees.

* * * * *

(b) *Construction permit fees and operating license fees.*[1] Fees for construction permits and operating licenses are payable when the construction permit or operating license is issued. No construction permit or operating license will be issued by the Commission until the full amount of the fee prescribed in this part has been paid.

(c) *Annual fees.* All licenses outstanding on February 5, 1971, are subject to payment of the annual fee prescribed by this Part 170, as amended, within 30 days after February 5, 1971, and annually thereafter: *Provided, however,* That, in the case of licenses which have been subject to license fees prior to February 5, 1971, the next annual fee will be payable 1 year from the due date of the last fee payment and annually thereafter. In the case of licenses issued after February 5, 1971, annual fees are payable 1 year following the date of issuance of the license and annually thereafter.

3. Section 170.21 of 10 CFR Part 170 is amended to read as follows:

§ 170.21 Schedule of fees for production and utilization facilities.

Applicants for construction permits or operating licenses for production or utilization facilities and holders of construction permits or operating licenses for production or utilization facilities shall pay the fees set forth below: *Provided, however,* That annual fees shall not be paid by holders of licenses which authorize the possession but not operation of production or utilization facilities.

GENERAL PROVISIONS APPLICABLE TO NEGOTIATED COST-REIMBURSEMENT CONTRACTS

Notice of Proposed Rule Making

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that pursuant to the Federal Property and Administrative Services Act of 1949, as amended, the Office of the Secretary is considering an amendment to 41 CFR, Chapter 3, by adding a new § 3-16.950-315 under Subpart 3-16.9, Illustration of Forms.

Any person who wishes to submit written data, views, or comments pertaining to the proposed amendment may do so by filing them in duplicate with the Director, Office of Procurement and Materiel Management (OPMM), Room 3340, HEW North Building, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, DC 20201, within 30 days after publication of this notice in the FEDERAL REGISTER.

The proposed amendment will illustrate the revised Form 315, General Provisions (Negotiated Cost-Reimbursement Contracts). Major changes in the form, which was last revised in August 1964, are reflected in clauses entitled "Government Property," "Inspection and Reports," "Allowable Cost," and "Subcontracting." New clauses are to be entitled, "Accounts, Audit and Records," "Publication and Publicity," "Key Personnel," "Litigation of Claims," "Foreign Travel," "Questionnaires and Surveys," "Printing," and "Services of Consultants." Minor changes are being made in clauses entitled, "Definitions," "Payment," "Limitation of Cost," "Examination of Records," "Notice to the Government of Delays," "Rights in Data," "Reporting of Royalties," "Patent Rights," "Required Insurance," and "Overtime." No change is made in the clauses entitled "Changes" and "Authorization and Consent." The General Provisions will include certain clauses prescribed by Federal Procurement Regulations (41 CFR Part 1). These clauses are not being repeated here, but are identified by an appropriate cross-reference to the applicable FPR section.

As proposed, the new § 3-16.950-315 would read as follows:

§ 3-16.950-315 Form HEW-315, General Provisions (Negotiated Cost-Reimbursement Contract).

GENERAL PROVISIONS
(NEGOTIATED COST-REIMBURSEMENT CONTRACT)

1. DEFINITIONS

As used throughout this contract, the following terms shall have the meaning set forth below:

(a) The term "Secretary" means the Secretary, the Under Secretary, or any Assistant Secretary of the Department of Health, Education, and Welfare; and the term "his duly authorized representative" means any person, persons, or board (other than the Contracting Officer) authorized to act for the Secretary.

(b) The term "Contracting Officer" means the person executing this contract on behalf of the Government, and any other officer or employee who is properly designated Contracting Officer; and the term includes, except as otherwise provided in this contract, the authorized representative of the Contracting Officer acting within the limits of his authority.

(c) The term "Project Officer" means the person representing the Government for the purpose of technical direction of contract performance. The Project Officer is not authorized to issue any instructions or directions which effect any increase or decrease in the cost of this contract or which change the period of this contract.

(d) The term "Department" means the Department of Health, Education, and Welfare.

(e) Except as otherwise provided in this contract, the term "subcontract" includes purchase orders under this contract.

2. DISPUTES

(Text of this clause is set forth in FPR 1-7.101-12.)

3. LIMITATION OF COST

(a) It is estimated that the total cost to the Government for the performance of this contract will not exceed the estimated cost set forth in this contract and the Contractor agrees to use its best efforts to perform all work and all obligations under this contract within such estimated costs. If at any time the Contractor has reason to believe that the costs which it expects to incur in the performance of this contract in the next succeeding sixty (60) days, when added to all costs previously incurred, will exceed seventy-five percent (75%) of the estimated cost set forth in the contract, or, if at any time the Contractor has reason to believe that the total cost to the Government, for the performance of this contract, will be substantially greater or less than the estimated cost thereof, the Contractor shall notify the Contracting Officer in writing to that effect, giving its revised estimate of such total cost for the performance of this contract.

(b) The Government shall not be obligated to reimburse the Contractor for costs incurred in excess of the estimated cost set forth in the contract and the Contractor shall not be obligated to continue performance under the contract or to incur costs in excess of such estimated cost unless and until the Contracting Officer shall have notified the Contractor in writing that such estimated cost has been increased and shall have specified in such notice a revised estimated cost which shall thereupon constitute the estimated cost of performance of this contract. When and to the extent that the estimated cost set forth in this contract has been increased by the Contracting Officer in writing, any costs incurred by the Contractor in excess of such estimated cost prior to the increase in estimated cost shall be allowable to the same extent as if such costs had been incurred after such increase in estimated cost.

4. ALLOWABLE COST

(a) *Compensation for Contractor's performance.* Payment for the allowable cost, as herein defined and as actually incurred by the contractor shall constitute full and complete compensation for the performance of the work under this contract.

(b) *Allowable cost.* The allowable cost of performing the work under this contract shall be the costs actually incurred by the Contractor, either directly incident or properly allocable to the contract, in the performance of this contract in accordance with its terms. The allowable cost, direct and indirect, including acceptability of cost allocation methods, shall be determined by the Contracting Officer in accordance with:

(1) Subpart 1-15.3 of the Federal Procurement Regulations (41 CFR 1-15.3) as in effect on the date of this contract (For the provision applicable if the contract is not with an education institution, see paragraph 3 below).

(2) The terms of this contract.

(3)(i) "A Guide for Nonprofit Institutions Establishing Indirect Cost Rates for Research

V 37-80 APR 25 72 XUM

Grants and Contracts with the Department of Health, Education, and Welfare, DHEW Publication OASC–5," or (1) "A Guide for State Government Agencies Establishing Cost Allocation Plans and Indirect Cost Rates for Grants and Contracts with the Department of Health, Education, and Welfare, DHEW Publication OASC–6," or (1) "A Guide for Hospitals, Establishing Indirect Cost Rates for Research Grants and Contracts with the Department of Health, Education, and Welfare, DHEW Publication OASC–3," or (1) "A Guide for Local Government Agencies, Establishing Cost Allocation Plans and Indirect Cost Proposals for Grants with the Federal Government, DHEW Publication OASC–8," as in effect on the date of this contract, the same hereby incorporated herein by reference.

5. NEGOTIATED OVERHEAD RATES

(i) The following provisions shall be applicable with organizations other than educational institutions:

(a) Notwithstanding the provisions of the clause of this contract entitled "Allowable Cost," the allowable indirect costs shall be obtained by applying negotiated overhead rates to bases agreed upon by the parties, as specified below.

(b) The Contractor, as soon as possible, but not later than six (6) months after the expiration of each of the Contractor's financial years or such period as may mutually be agreed upon by the Government and the Contractor, shall submit to the Contracting Officer, with a copy to the cognizant audit agency, a proposed final overhead rate or rates for that period based on the Contractor's cost experience during that period, together with supporting cost data. Negotiation of final overhead rates by the Contractor and the Contracting Officer shall be undertaken as promptly as practicable after receipt of the Contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with the cost principles set forth in paragraph (3) of Clause 4, as in effect on the date of this contract, and the same hereby incorporated herein by reference.

(d) The results of each negotiation shall be set forth in an amendment to this contract, which shall specify (1) the agreed final rates, (2) the bases to which the rates apply, and (3) the periods for which the rates apply.

(e) Pending establishment of final overhead rates for any period, the Contractor shall be reimbursed either at negotiated provisional rates as provided in this contract or at billing rates acceptable to the Contracting Officer, subject to appropriate adjustment when the final rates for that period are established. To prevent substantial over or under payment, the provisional or billing rates may, at the request of either party, be revised by mutual agreement, either retroactively or prospectively. Any such revision of negotiated provisional rates provided in this contract shall be set forth in an amendment to this contract.

(f) Any failure by the parties to agree on any final rate or rates under this clause shall be considered a dispute concerning a question of fact for decision by the Contracting Officer within the meaning of the clause of this contract entitled "Disputes."

(g) Submission of proposed provisional and/or final overhead rates, together with appropriate data in support thereof, to the Secretary or his duly authorized representative, and agreements on provisional and/or final overhead rates entered into between the Contractor and the Secretary or his duly authorized representative, as evidenced by Negotiated Overhead Rate Agreements signed by both parties, shall be deemed to satisfy the requirements of (b), (d), and (e) above.

(ii) The following provisions shall be applicable with educational institutions when post determined rates are used:

(a) Notwithstanding the provisions of the clause of this contract entitled "Allowable Cost" the allowable indirect costs under this contract shall be obtained by applying negotiated overhead rates to bases agreed upon by the parties, as specified below.

(b) The Contractor, as soon as possible, but not later than six (6) months after the close of his fiscal year, or such other period as may be specified in the contract, shall submit to the Contracting Officer, with a copy to the cognizant audit activity, a proposed final overhead rate or rates for that period based on the Contractor's actual cost experience during that period, together with supporting cost data. Negotiation of final overhead rates by the Contractor and the Contracting Officer shall be undertaken as promptly as practicable after receipt of the Contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with Subpart 1–15.3 of the Federal Procurement Regulations (41 CFR 1–15.3) as in effect on the date of contract.

(d) The results of each negotiation shall be set forth in a modification to this contract, which shall specify (1) the agreed final rates, (2) the bases to which the rates apply, and (3) the periods for which the rates apply.

(e) Pending establishment of final overhead rates for any period, the Contractor shall be reimbursed either at negotiated provisional rates as provided in the contract, or at billing rates acceptable to the Contracting Officer, subject to appropriate adjustment when the final rates for that period are established. To prevent substantial over or under payment, and to apply either retroactively or prospectively: (1) Provisional rates may, at the request of either party, be revised by mutual agreement, and (2) billing rates may be adjusted at any time by the Contracting Officer. Any such revision of negotiated provisional rates specified in the contract shall be set forth in a modification to this contract.

(f) Any failure by the parties to agree on any final rate or rates under this clause shall be considered a dispute concerning a question of fact for decision by the Contracting Officer within the meaning of the "Disputes" clause of this contract.

(g) Submission of proposed provisional and/or final overhead rates together with appropriate data in support thereof to the Secretary or his duly authorized representative, and agreements on provisional and/or final overhead rates entered into between the Contractor and the Secretary or his duly authorized representative, as evidenced by Negotiated Overhead Rate Agreements signed by both parties, shall be deemed to satisfy the requirements of (b), (d), and (e) above.

(iii) The following provisions shall be applicable with educational institutions when predetermined rates are used:

(a) Notwithstanding the provisions of the clause of this contract entitled "Allowable Cost," the allowable indirect costs under this contract shall be obtained by applying predetermined overhead rates to bases agreed upon by the parties, as specified below.

(b) The Contractor, as soon as possible but not later than three (3) months after the close of his fiscal year, or such other period as may be specified in the contract, shall submit to the Contracting Officer, with a copy to the cognizant audit activity a proposed predetermined overhead rate or rates based on the Contractor's actual cost experience during that period, together with supporting cost data. Negotiation or predetermined overhead rates by the Contractor and the Contracting Officer shall be undertaken as promptly as practicable after receipt of the Contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with Subpart 1–15.3 of the Federal Procurement Regulations (41 CFR 1–15.3) as in effect on the date of this contract.

(d) The results of each negotiation shall be set forth in a modification to this contract, which shall specify (1) the agreed predetermined overhead rates, (2) the bases to which the rates apply, (3) the fiscal year unless the parties agree to a different period for which the rates apply, (4) the specific items treated as direct costs or any change in the items previously agreed to be direct costs, and (5) the amount of any carryforward adjustment applied in determining the rates.

(e) Pending establishment of predetermined overhead rates for the initial period of contract performance, or for any fiscal year or different period agreed to by the parties, the Contractor shall be reimbursed either at (1) the rates fixed for the previous fiscal year or other period, or (2) billing rates acceptable to the Contracting Officer, subject to appropriate adjustment when the final rates for that fiscal year or other period are established.

(f) Any failure by the parties to agree on any predetermined overhead rate or rates under this clause shall not be considered a dispute concerning a question of fact for decision by the Contracting Officer within the meaning of the "Disputes" clause of this contract. If for any fiscal year or other period of contract performance the parties fail to agree to a predetermined overhead rate or rates, it is agreed that the allowable indirect costs under this contract shall be obtained by applying negotiated final overhead rates in accordance with the terms of the "Negotiated Overhead Rates—Postdetermined" clause set forth in §1–3.704–2(a) of the Federal Procurement Regulations (41 CFR 1–3.704–2(a)), as in effect on the date of this contract.

(g) Submission of proposed provisional and/or final overhead rates together with appropriate data in support thereof to the Secretary or his duly authorized representative and agreements on provisional and/or final overhead rates entered into between the Contractor and the Secretary or his duly authorized representative, as evidenced by Negotiated Overhead Rate Agreements, signed by both parties, shall be deemed to satisfy the requirements of (b), (d), and (e) above.

(iv) The following provisions shall be applicable with educational institutions when fixed rates subject to carryforward adjustments are used.

(a) Notwithstanding the provisions of the clause of this contract entitled, "Allowable Cost," the allowable indirect costs under this contract shall be obtained by applying negotiated fixed overhead rates to bases agreed upon by the parties; as specified below. Such negotiated fixed rates shall be subject to carryforward adjustments in subsequent years.

(b) The Contractor, as soon as possible but no later than three (3) months after the close of his fiscal year, or such other period as may be specified in the contract, shall submit to the Secretary, or his duly authorized representative, with a copy to the cognisant audit activity, a proposed fixed overhead rate or rates based on the Contractor's actual cost experience during the fiscal year, including adjustment, if any, for amounts carried forward, together with supporting cost data. Negotiation of fixed overhead rates, including carryforward adjustments, if any, by the Contractor and the Secretary, or his duly authorized representative, shall be undertaken as promptly as practicable after receipt of the Contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with Subpart 1–15.3 of the Federal Procurement Regulations (41 CFR 1–15.3), as in effect on the date of this contract.

(d) The results of each negotiation shall be set forth in an amendment to this contract, which shall specify (1) the agreed fixed overhead rates, (2) the bases to which the rates apply, (3) the fiscal year, unless the parties agreed to a different period, for which the rates apply, (4) the specific items treated as direct costs or any changes in the items previously agreed to be direct costs, and (5) the amount of any carryforward adjustment applied in determining the rates.

(e) Pending establishment of fixed overhead rates for any fiscal year or different period agreed to by the parties, the Contractor shall be reimbursed either at the rates fixed for the previous fiscal year or other period or at billing rates acceptable to the Contracting Officer, subject to appropriate adjustment when the final rates for that fiscal year or other period are established.

(f) Any failure of the parties to agree on any fixed overhead rate or rates or to the amount of any carryforward adjustment under this clause shall not be considered a dispute concerning a question of fact for decision by the Contracting Officer within the meaning of the "Disputes" clause of this contract. If for any fiscal year or other period specified in the contract, the parties fail to agree to a fixed overhead rate or rates, it is agreed that the allowable indirect costs under this contract shall be obtained by applying negotiated final overhead rates in accordance with the terms of the "Negotiated Overhead Rates—Postdetermined" clause set forth in section 1–3.704–2(a) of the Federal Procurement Regulations, as in effect on the date of this contract.

(g) Submission of proposed fixed, provisional, and/or final overhead rates, together with appropriate data in support thereof, to the Secretary or his duly authorized representative and agreements on fixed, provisional, and/or final overhead rates entered into between the Contractor and the Secretary or his duly authorized representative, as evidenced by Negotiated Overhead Rate Agreements signed by both parties, shall be deemed to satisfy the requirements of (b), (d), and (e), above.

6. PAYMENT

(a) *Payment on account of allowable costs.* Once each month (or at more frequent intervals if approved by the Contracting Officer) the Contractor may submit to the Contracting Officer, in such form and reasonable detail as may be required, an invoice or voucher supported by a statement of costs incurred by the Contractor in the performance of this contract and claimed to constitute allowable costs. Promptly after receipt of each invoice or voucher the Government shall, subject to the provisions of (b) below, make payment thereon as approved by the Contracting Officer.

(b) *Audit adjustments.* At any time or times prior to settlement under this contract the Contracting Officer may have invoices or vouchers and statements of cost audited. Each payment theretofore made shall be subject to reduction for amounts included in the related invoice or voucher which are found by the Contracting Officer, on the basis of such audit, not to constitute allowable cost. Any payment may be reduced for overpayment, or increased for underpayments, on preceding invoices or vouchers.

(c) *Completion voucher.* On receipt and approval of the invoice or voucher designated by the Contractor as the "completion invoice" or "completion voucher" and upon compliance by the Contractor with all the provisions of this contract (including without limitation, the provisions relating to patents and provisions of (d) below) the Government shall promptly pay to the Contractor any balance of allowable cost. The completion invoice or voucher shall be submitted by the Contractor promptly following completion of the work under this contract but in no event later than 6 months (or such longer period as the Contracting Officer may in his discretion approve in writing) from the date of such completion.

(d) *Applicable credits.* The Contractor agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Contractor or any assignee under this contract shall be paid by the Contractor to the Government, to the extent that they are properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract. Reasonable expenses incurred by the Contractor for the purpose of securing such refunds, rebates, credits, or other amounts shall be allowable costs hereunder when approved by the Contracting Officer.

(e) *Financial settlement.* Prior to final payment under this contract, the Contractor and each assignee under this contract whose assignment is in effect at the time of final payment under this contract shall execute and deliver:

(1) An assignment to the Government in form and substance satisfactory to the Contracting Officer, of refunds, rebates, credits, or other amounts (including any interest thereon) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(2) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract, subject only to the following exceptions:

(i) Specified claims in stated amounts or in estimated amounts where the amounts are susceptible to exact statement by the Contractor;

(ii) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the Contractor to third parties arising out of the performance of this contract: *Provided*, That such claims are not known to the contractor on the date of the execution of the release: *And provided further*, That the Contractor gives notice of such claims in writing to the Contracting Officer not more than 6 years after the date of the release or the date of any notice to the Contractor that the Government is prepared to make final payment, whichever is earlier; and

(iii) Claims for reimbursement of costs (other than expenses of the Contractor by reason of its indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the Contractor under the provisions of this contract relating to patents.

7. EXAMINATION OF RECORDS

(a) This clause is applicable if the amount of this contract exceeds $2,500 and was entered into by means of negotiation including small business restricted advertising, but is not applicable if this contract was entered into by means of formal advertising.

(b) The Contractor agrees that the Comptroller General of the United States and the Secretary, or any of their duly authorized representatives, shall until expiration of 3 years after final payment under this contract or of the time period for the particular records in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, have access to and the right to examine any directly pertinent books, documents, papers, and records of the Contractor involving transactions related to this contract.

(c) The Contractor further agrees to include in all his subcontracts hereunder a provision to the effect that the subcontractor agrees that the Comptroller General of the United States, or his duly authorized representatives shall, until expiration of 3 years after final payment under the subcontract, or of the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20) whichever expires earlier, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor, involving transactions related to the subcontract. The term "subcontract" as used in this clause excludes (1) purchase orders not exceeding $2,500 and (2) subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

(d) The periods of access and examination described in (b) and (c) above, for records which relate to (1) appeals under the "Disputes" clause of this contract, (2) litigation or the settlement of claims arising out of the performance of this contract, or (3) costs and expenses of this contract as to which exception has been taken by the Comptroller General or any of his duly authorized representatives, shall continue until such appeals, litigation, claims, or exceptions have been disposed of.

8. INSPECTION AND REPORTS

(a) *Inspection of work.* The Government shall have the right to inspect the work and activities under this contract, including, without limitation, premises where any Government property may be located, at such reasonable times and in such manner as it may deem appropriate and the Contractor shall afford the Government proper facilities and assistance for such inspection.

(b) *Reports.* The Contractor shall furnish such progress reports, schedules, financial and cost reports, and other reports concerning the work under this contract as the Contracting Officer may require or as specified elsewhere in this contract. Cost and other financial data and projections furnished pursuant to this paragraph (b) shall not relieve the Contractor of the requirements for furnishing notice specified in the clause of this contract entitled, "Limitation of Cost."

9. SUBCONTRACTING

(a) *Prior approval required.* Except as provided in (c) below, the Contractor shall not enter into any subcontract or purchase order not otherwise expressly authorized elsewhere in this contract without the prior written approval of the Contracting Officer and subject to such conditions as the Contracting Officer may require. The Contractor shall use such special and directed procurement sources as may be expressly required by the Contracting Officer.

(b) *Request for approval.* The Contractor's request for approval to enter into a subcontract pursuant to this clause shall include:

(1) A description of the supplies or services to be called for by the subcontract;

(2) Identification of the proposed subcontractor and an explanation of why and how the proposed subcontractor was selected, including the degree of competition obtained;

(3) The proposed subcontract price, together with the Contractor's cost or price analysis thereof;

(4) Identification of the type of subcontract to be used;

(5) A copy or draft of the proposed subcontract, if available; and

V 37-80 APR 25 72 XUM

(6) Any other information which the Contracting Officer may require.

(c) *Certain purchases of property and services.* Prior written approval shall not be required for firm fixed-price subcontracts for the purchase or rental of items of personal property having a unit acquisition cost of less than $200 or for the purchase or rental by an educational institution of any item of permanent research equipment having a unit acquisition cost of less than $1,000 or for subcontracts in a total amount less than $1,000, unless otherwise specified elsewhere in the contract: *Provided, however,* That advance notification shall be given by the Contractor of any subcontract which exceeds in dollar amount 5 per centum of the total estimated cost of this contract.

(d) *Contractor's procurement system.* The Contractor shall use methods, practices or procedures in subcontracting or purchasing (hereinafter referred to as the Contractor's "procurement system") acceptable to the Contracting Officer. The Contracting Officer may, at any time during the performance of this contract, require the Contractor to provide information concerning its procurement system.

(e) *Effect of subcontracting.* Subcontracts shall be made in the name of the Contractor and shall not bind nor purport to bind the Government. The making of subcontracts hereunder shall not relieve the Contractor of any requirement under this contract (including, but not limited to, the duty to properly supervise and coordinate the work of subcontractors, and the duty to maintain and account for property pursuant to the clause of this contract entitled "Government Property"). Approval of the provisions of any subcontract by the Contracting Officer shall not be construed to constitute a determination of the allowability of any cost under this contract, unless such approval specifically provides that it constitutes a determination of the allowability of such cost. In no event shall approval of any subcontract by the Contracting Officer be construed as effecting any increase in the estimated cost set forth in this contract. No subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis.

(f) *Procurements from contractor-controlled sources.* Procurement or transfer of equipment, materials, supplies, or services from a contractor-controlled source (any division or organizational component of the prime contractor, exclusive of the contracting component, and any subsidiary or affiliate of the Contractor under a common control) shall be considered a subcontract for the purposes of this clause.

10. ACCOUNTS, AUDIT AND RECORDS

(a) The Contractor shall maintain books, records, documents, and other evidence, accounting procedures, and practices, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. The foregoing constitutes "records" for the purposes of this clause.

(b) The Contractor's facility(ies), or such part thereof as may be engaged in the performance of this contract, and his records shall be subject at all reasonable times to inspection and audit by the Contracting Officer or his authorized representatives.

(c) The Contractor shall preserve and make available his records (1) until the expiration of 3 years from the date of final payment under this contract, or the time periods for the particular records specified in 41 CFR Part 1–20, whichever expires earlier, and (2) for such longer period, if any, as is required by applicable statute, or by other clauses of this contract, or by (i) or (ii) below.

(i) If this contract is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of 3 years from the date of any resulting final settlement.

(ii) Records which relate to (A) appeals under the "Disputes" clause of this contract, (B) litigation or the settlement of claims arising out of the performance of this contract, or (C) costs and expenses of this contract to which exception has been taken by the Contracting Officer or any of his duly authorized representatives, shall be retained until such appeals, litigation, claims, or exceptions have been disposed of.

(d) The Contractor shall insert the substance of this clause, including this paragraph (d), in each subcontract hereunder that is not firm fixed-price or fixed-price with escalation. When so inserted, changes shall be made to designate the higher-tier subcontractor at this level involved in place of the Contractor; to add "of the Government prime contract" in place of "this contract" in (B) of subparagraph (c) (ii) above.

11. CHANGES

The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, make changes, within the general scope of this contract, if any one or more of the following: (a) Drawings, designs, or specifications; (b) method of shipment or packing; (c) place of inspection, delivery, or acceptance; and (d) the amount of Government-furnished property. If any such change causes an increase or decrease in the estimated cost of, or the time required for performance of this contract, or otherwise affects any other provisions of this contract, whether changed or not by any such order, an equitable adjustment shall be made (a) in the estimated cost or delivery schedule, or both, and (b) in such other provisions of the contract as may be so affected, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change: *Provided, however,* That the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Where the cost of property made obsolete or excess as a result of a change is included in the Contractor's claim for adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of such property. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled, "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

12. NOTICE TO THE GOVERNMENT OF DELAYS

Whenever the Contractor has knowledge that any actual or potential situation, including, but not limited to, labor disputes, is delaying or threatens to delay the timely performance of the work under this contract, the Contractor shall immediately give written notice thereof, including all relevant information with respect thereto, to the Contracting Officer.

13. PATENT RIGHTS

(a) *Definitions.* As used in this clause, the term (1) "Invention" or "Invention or discovery" includes any art, machine, manufacture, design, or composition of matter, or any new and useful improvement thereof, or any variety of plant, which is or may be patentable under the Patent Laws of the United States; and (2) "Made," when used in relation to any invention or discovery, means the conception or first actual or constructive reduction to practice of such invention.

(b) *Disclosure.* Whenever an invention or discovery is made by the Contractor or its employees in the course of or under this contract, the Contractor shall immediately give the Contracting Officer written notice thereof and shall promptly thereafter furnish the Contracting Officer with complete information thereon, including as a minimum (1) a complete written disclosure of each such invention, and (2) information in writing, as soon as practicable, concerning the date and identity of any public use, sale, or publication of such invention made by or known to the Contractor.

(c) *Determination of rights.* The Secretary, or his duly authorized representative, shall have the sole and exclusive power to determine whether or not and where a patent application shall be filed and to determine the disposition of all rights in any invention made under this contract, including title to and rights under any patent application or patent which may issue thereon. The Secretary, or his duly authorized representative, may, upon the request of the Contractor, determine to exercise his option to waive rights to any such invention in foreign countries. The determination of the Secretary, or his duly authorized representative, on all these matters shall be accepted as final and the provisions of the clause of this contract entitled "Disputes" shall not apply. The Contractor agrees that it will, and warrants that all of its employees who may be the inventors of any such invention will execute all documents and do all things necessary or proper to effectuate the determination of the Secretary, or his duly authorized representative, or to vest in the Government the rights granted to it under this clause and to enable the Government to apply for and prosecute any patent application, in any country, covering such invention where the Government has the right under this clause to file such application.

(d) *Contractor employee and subcontractors.* The Contractor shall:

(1) Obtain patent agreements to effectuate the provisions of this clause from all persons who perform any part of the work under this contract, except such clerical and manual labor personnel as will have no access to technical data.

(2) Insert in each subcontract having experimental, developmental or research work as one of its purposes, a provision making this clause applicable to the subcontractor and its employees.

(e) *Reports.* The Contractor shall furnish the Contracting Officer, in addition to the information called for in paragraph (b) of this clause:

(1) Interim reports on the first anniversary of the contract, where extended or renewed, and every year thereafter listing all inventions made during the period, whether or not previously reported, or certifying that no inventions were made during the applicable period; and

(2) A final report, prior to final settlement of this contract, listing all such inventions made in the course of or under this contract, including all those previously listed in interim reports, or certifying that there are no such unreported inventions.

(f) *Withholding payment for failure to comply.* At any time during the performance of this contract, the Contracting Officer may direct that payment be withheld in the amount of 10 percent of the total amount obligated by the Government with respect to this contract or $10,000, whichever is less, if the Contracting Officer determines that the Contractor has failed to furnish any of the written notices, disclosures, or reports required by paragraphs (b) and (e) above, until such time as the Contractor shall have corrected such failure. The withholding of any amount or subsequent payment thereof to the Contractor or the failure to withhold any amount shall not be construed as a waiver of any rights accruing to the Government under the contract. This paragraph shall not be construed as requiring the Contractor to withhold any amounts from a subcontractor to enforce compliance with the patent provisions of a subcontract.

(g) *Acknowledgement.* With respect to any patent application on any invention made in the course of or under this contract, the Contractor shall incorporate in the first paragraph of the patent specification, and prominently in any patent issued thereon, the following statement:

"The invention described herein was made in the course of or under a contract with the U.S. Department of Health, Education, and Welfare."

14. RIGHTS IN DATA

(c) *License to copyrighted data.* In addition to the Government rights as provided in (b) above, with respect to any subject data which may be copyrighted the Contractor agrees to and does hereby grant to the Government a royalty-free, nonexclusive and irrevocable license throughout the world to use, duplicate or dispose of such data in any manner and for any purpose whatsoever, and to have or permit others to do so: *Provided, however,* That such license shall be only to the extent that the Contractor now has, or prior to completion or final settlement of this contract may acquire, the right to grant such license without becoming liable to pay compensation to others solely because of such grant.

(d) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(e) *Marking and identification.* The Contractor shall mark all subject data with the number of this contract and the name and address of the contractor or subcontractor who generated the data. The Contractor shall not affix any restrictive markings upon any subject data, and if such markings are affixed, the Government shall have the right at any time to modify, remove, obliterate, or ignore any such markings.

(f) *Subcontractor data.* Whenever any subject data is to be obtained from a subcontractor under this contract, the Contractor shall use this same clause in the subcontract, without alteration, and no other clause shall be used to enlarge or diminish the Government's rights in that subcontractor Subject Data.

(g) *Deferred ordering and delivery of data.* The Government shall have the right to order, at any time during the performance of this contract, or within 2 years from either acceptance of all items (other than data) to be delivered under this contract or termination of this contract, whichever is later, any subject data and any data not called for in the schedule of this contract but generated in performance of the contract, and the Contractor shall promptly prepare and deliver such data as is ordered. The Government's right to use data delivered pursuant to this paragraph (g) shall be the same as the rights in subject data as provided in (b) above.

The Contractor shall be relieved of the obligation to furnish data pertaining to an item obtained from a subcontractor upon the expiration of 2 years from the date he accepts such items. When data, other than subject data, is delivered pursuant to this paragraph (g), payment shall be made, by equitable adjustment or otherwise, for converting the data into the prescribed form, reproducing it or preparing it for delivery.

15. REPORTING OF ROYALTIES

If this contract involves any royalty payments in excess of $250 or if the amount of any royalty payment in excess of $250 is reflected in the estimated cost, the Contractor shall report in writing to the Contracting Officer, as soon as practicable during the performance of this contract, the amount of any royalties paid or to be paid by it directly to others in connection with the performance of this contract, together with: (a) The names and addresses of licensors to whom such payments are made; (b) the patent numbers or patents application serial numbers (with filing dates) involved or other identification of the basis of such royalties; and (c) information concerning the manner of computation of such royalties.

16. AUTHORIZATION AND CONSENT

Where "key personnel" have been identified in this contract, it has been determined that such named personnel are necessary for the successful performance of the work under this contract; and the Contractor agrees to assign such personnel to the performance of the work under this contract, and shall not reassign or remove any of them without the consent of the Contracting Officer. Whenever, for any reason, one or more of the aforementioned personnel is unavailable for assignment for work under the contract, the Contractor shall immediately notify the Contracting Officer to that effect and shall, subject to the approval of the Contracting Officer without formal modification to the contract, replace such personnel with personnel of substantially equal ability and qualifications.

(2) The Government shall deliver to the Contractor, for use in connection with and under the terms of this contract, the property described elsewhere in this contract, together with such related data and information as the Contractor may request and as may reasonably be required for the intended use of such property (such property to be referred to as "Government furnished property").

In the event that Government furnished property is not delivered to the contractor by such time or times as stated, or if not stated, in sufficient time to enable the contractor to meet such delivery or performance dates under this contract, the Contracting Officer shall, upon timely written request made by the Contractor, make a determination of the delay occasioned the Contractor and make appropriate equitable adjustments to any contractual provisions affected by any such delay in accordance with the provisions of the clause of this contract entitled "Changes."

In the event that Government furnished property is received by the Contractor in a condition not suitable for the intended use, the Contractor shall, immediately upon receipt thereof, notify the Contracting Officer of such fact and, as directed by the Contracting Officer either (i) return or otherwise dispose of such property, or (ii) effect repairs or modifications thereto. Upon completion of (i) or (ii) above, the Contracting Officer, upon timely written request of the Contractor, shall make appropriate equitable adjustments to any contractual provisions affected thereby in accordance with the provisions of the clause of this contract entitled "Changes." The foregoing provisions for adjustment are exclusive and the Government shall not be liable to suit for breach or contract by reason of any delay in delivery of Government furnished property or delivery of such property in a condition not suitable for its intended use.

(b) *Title.* (For title provision applicable to contracts with educational institutions for scientific research, see paragraph (h) below.)

(1) Title to all property furnished by the Government shall remain in the Government. Title to other property, the cost of which is reimburseable to the Contractor under this contract, shall pass and vest in the Government upon (i) issuance for use of such property in the performance of this contract, or (ii) commencement of processing or use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by the Government in whole or in part, whichever first occurs. All Government furnished property, together with all property acquired by the Contractor, title to which vests in the Government under this paragraph, are subject to the provisions of this clause and are hereinafter collectively referred to as "Government property."

(2) Title to the Government property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government property, or any part thereof, be or become a fixture or lose its identity or personality by reason of affixation to any realty.

(c) *Use of Government property.* Government property shall, unless otherwise provided herein or approved by the Contracting Officer, be used only for the performance of this contract.

(d) *Property management and control.* The Contractor shall maintain and administer in accordance with sound business practice a program for the maintenance, repair, protection, and preservation, control of and accountability for Government property, so as to assure its full availability and usefulness for the performance of this contract. (i) Which results from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, or on the part of any of its managers, superintendents, or other equivalent representatives, who have supervision or direction of (A) all or substantially all of the Contractor's operations at any one plant, laboratory or separate location in which this contract is being performed or (B) a separate and complete major organization, industrial or otherwise, in connection with the performance of this contract:

(ii) Which results from a failure on the part of the Contractor, due to willful misconduct or lack of good faith on the part of any of its directors, officers or other representatives mentioned in subparagraph (i) above, (A) to maintain and administer, in accordance with sound business practice, the program for maintenance, repair, protection, and preservation of Government property as required by paragraph (d) hereof, or (B) to take all reasonable steps to comply with any appropriate written directions of the Contracting Officer under paragraph (4) hereof;

(iii) For which the Contractor is otherwise responsible under the express terms of this contract;

(iv) Which results from a risk expressly required to be insured under this contract, but only to the extent of the insurance so required to be procured and maintained, or to the extent of insurance actually procured and maintained, whichever is greater; or

(v) Which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement: *Provided,* That, if more than one of the above exceptions shall be applicable in any case, the Contractor's liability under any one exception shall not be limited by any other exception.

(2) If the Contractor transfers Government property to the possession and control of a subcontractor the transfer shall not affect the liability of the Contractor for loss or destruction of or damage to Government property as set forth in (1) above. The Contractor shall require the subcontractor to assume the risk of and be responsible for any loss or destruction of or damage to Government property while in the latter's possession or control, and the subcontract shall contain appropriate provisions requiring the return of all Government property in as good condition as when received (except for reasonable wear and tear or for the utilization of the property in accordance with the provisions of this contract). *Provided, however,* That the subcontractor may be relieved from such liability only to the extent that the subcontract, with the prior approval of the Contracting Officer, so provides.

(3) The Contractor shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance, or any provisions for a reserve, covering the risk of loss of or damage to the Government property, except to the extent that the Government may have required the Contractor to carry such insurance under any other provision of this contract.

(4) Upon the happening of loss or destruction of or damage to the Government property, the Contractor shall notify the Contracting Officer thereof, and shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best order, and furnish to the Contracting Officer a statement of:

(i) The lost, destroyed, and damaged Government property;

(ii) The time and origin of the loss, destruction or damage;

(iii) All known interests in commingled property of which the Government property is a part; and

(iv) The insurance, of any, covering any part of or interest in such commingled property.

The Contractor shall make repairs and renovations of the damaged Government property, or take such other action as the Contracting Officer directs.

(5) In the event the Contractor is indemnified, reimbursed, or otherwise compensated for any loss or destruction of or damage to the Government property, it shall use the proceeds to repair, renovate, or replace the Government property involved, or shall credit such proceeds against the cost of the work covered by the contract, or shall otherwise reimburse the Government, as directed by the Contracting Officer. The Contractor shall do nothing to prejudice the Government's right to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer, shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including assistance in the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery. In addition, where a subcontractor has not been relieved from liability for any loss or destruction of or damage to Government property, the Contractor shall enforce the liability of the subcontractor for such loss or destruction of or damage to the Government property for the benefit of the Government.

(f) *Disposition of Government property.*

(1) During the period of performance of this contract, the Contractor shall promptly and regularly report to the Contracting Officer, in such form and manner as the Contracting Officer may direct, concerning the status of Government property under the contract, including all Government property in the Contractor's possession which is not in use or which is excess to the needs of the contract. The Contractor shall make such disposition of Government property as the Contracting Officer may direct. The Contractor shall in no way be relieved of responsibility for Government property without the prior written approval of the Contracting Officer.

(2) Upon completion or expiration of this contract, or at such earlier date as may be fixed by the Contracting Officer, the Contractor shall render an accounting, as prescribed by the Contracting Officer, of all Government property which had come into the possession or custody of the Contractor under this contract. Such accounting shall include inventory schedules covering all items of Government property not consumed in the performance of this contract, or not theretofore delivered to the Government, or for which the Contractor has not otherwise been relieved of responsibility. The Contractor shall deliver or make such other disposition of Government property covered in such inventory schedules as the Contracting Officer may direct.

(3) The net proceeds of any disposition of Government property, in accordance with (1) and (2) above, shall be credited to the cost of the work covered by the contract or shall be paid in such manner as the Contracting Officer may direct.

(g) *Restoration of premises.* Unless otherwise provided herein, the Government shall not be under any duty or obligation to restore or rehabilitate, or to pay the costs of the restoration or rehabilitation of the Contractor's facility or any portion thereof which is affected by removal of any Government property.

(h) *Title to property under contracts with educational institutions for scientific research.* If this is a contract with a nonprofit educational institution for scientific research, as determined by the Contracting Officer elsewhere in this contract, the following title provision shall replace paragraph (b) above:

Title

(i) Title to all Government-furnished property shall remain in the Government.

(ii) Except as otherwise expressly provided elsewhere in this contract, title to all material, supplies and equipment purchased or otherwise acquired by the Contractor, for the cost of which the Contractor is to be reimbursed as a direct item of cost, shall be and remain in the Contractor subject to the provisions of subparagraph (3) below: *Provided, however,* That the Contractor shall not, under any Government contract or subcontract thereunder or under any Government grant, charge for any depreciation, amortization, or use of any property title to which remains in the Contractor pursuant to this subparagraph. The Contractor agrees to use such materials, supplies, and equipment for the benefit of research under this contract and any extensions or successor contracts thereto and to continue to use such property for the benefit of research of interest to the Government.

(iii) With respect to items of equipment having an acquisition cost of $1,000 or more, title to which vests in the Contractor pursuant to subparagraph (ii) above, the Contractor agrees:

(A) To report such items to the Contracting Officer from time to time as they are acquired and to maintain a control system which will permit their ready identification and location; and

(B) To transfer title to any such items to the Government, or to a third party designated by the Government, when third party is eligible under existing statutes, in accordance with any written request therefor issued by the Contracting Officer at any time prior to final payment under this contract.

(iv) All Government-furnished property, together with all property acquired by the Contractor, title to which vests in the Government pursuant to any other express provision of this contract, is subject to the provisions of this clause and is hereinafter collectively referred to as "Government property." Title to the Government property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty.

CIVIL AERONAUTICS BOARD

[14 CFR Part 221]

[Docket No. 24426; EDR–226]

AIR FREIGHT FORWARDERS AND DIRECT AIR CARRIERS

Proposed Information Required To Be Submitted With Tariff Publications Filed With Board

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment to § 221.165 of the Economic Regulations (14 CFR 221.165) which would rescind in part the current exemption of air freight forwarders and international air freight forwarders from the requirement that air carriers submit with the filing of certain tariff publications with the Board, in or attached to their transmittal letters, supporting economic data and information and a table of comparisons of proposed rates with current rates. The amendment also would make it clear that the submission by air carriers, direct or indirect, of economic data and information in support of tariff filings is mandatory, rather than optional, and that estimates of costs of service must be accompanied by substantiating detail and sources. Finally, the proposed amendment would require all air carriers, direct or indirect, specifically to identify competing rates or fares whenever meeting such rates or fares is relied upon as the basis for an exception from the requirement for furnishing supporting data and information or the table of rate comparisons to which reference is made, above.

The principal features of the proposed amendment are set forth in the Explanatory Statement and proposed rule. The amendments are proposed under the authority of sections 204(a) and 403 of the Federal Aviation Act of 1958, as amended (72 Stat. 743, 758; 49 U.S.C. 1324, 1373).

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before May 22, 1972, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room

V 37 I 80 APR 25 72 XUM

712, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, upon receipt thereof.

Dated: April 20, 1972.

[SEAL] HARRY J. ZINK, *Secretary.*

EXPLANATORY STATEMENT

Section 221.165 of the Board's tariff regulations sets forth the requirements for information to be submitted to the Board by the issuing air carrier or agent in or attached to the transmittal letters accompanying tariff publications containing tariff changes or new matter related to interstate or overseas air transportation. The information falls into three categories, which may be generally described[1] as follows:

(a) An explanation of and the reasons for the proposal, including the basis of ratemaking employed:

(b) Economic data in support of the proposal, including estimates of costs of service and estimates of the effect of the proposal upon the carrier's traffic and revenue, together with explanations of the basis of the estimates; and

(c) Comparisons, in tabular form, of the proposed rates and current rates for a sample of pairs of points.

1. *Freight forwarders.* Tariff proposals, with certain exceptions, are subject to rejection if not accompanied by the above information. One of the exceptions, contained in § 221.165(d)(1)(iii), relieves air freight forwarders and international air freight forwarders from the requirement of furnishing the material generally described in paragraphs (b) and (c), supra. This exception was effected by an amendment of Part 221 contained in ER–493, 32 F.R. 7453, May 19, 1967. At that time the Board stated that the rates and charges of freight forwarders were heavily influenced by the level of the rates of the direct air carriers, by competition among the large number of authorized forwarders, and by the type of service performed by the particular forwarder. Accordingly, we found, at that juncture, that the burden which would be imposed on forwarders by requiring compliance with paragraphs (b) and (c) of § 221.165 did not appear warranted by the benefits of the additional information.

We believe that review of the exemption of forwarders from the above requirements may now be warranted because the factors upon which the exemption was based seem no longer to be valid. While the level of forwarder rates is influenced by direct carrier rates as the Board found in 1967, there is no consistent relationship between airline rates and forwarder rates for various shipment sizes or between changes in airline and in forwarder rates. There are also significant differences among the rates published by various forwarders, both in level and in structure. Changes in airline rates have frequently resulted in different percentage changes in forwarder rates for shipments of various sizes and in different markets, and in different percentage changes by various forwarders. Finally, certain forwarders have recently been moving many of their shipments by chartered aircraft, thus severing the relation between the rates they charge and the rates for scheduled transportation charged by direct carriers as a cost element.

Although in the past the Board has not found it necessary to subject all forwarder rates to vigorous economic analyses, this situation may be changing. One of the factors has been forwarder use of chartered aircraft referred to above, and tariff filings by forwarders of numerous sharply reduced rates based on these charter operations. These filings have evoked protests by direct carriers claiming significant competitive impact, and certain of those filings have been set for investigation or suspended by the Board. It may be anticipated that the higher volume of controverted tariff filings by forwarders will be maintained.

Moreover, other circumstances also appear to warrant a revision of the general exemption. Since the present rule was adopted the air freight forwarding industry has grown substantially with forwarders now handling some 40 percent of domestic air freight and approximately 50 percent of the transcontinental business. Thus, to a very substantial extent the shipping public is paying forwarder rates rather than direct air carrier rates. Some forwarders charge relatively high rates, and in recent months a number of rate increases have been proposed by freight forwarders which have required close scrutiny by the Board .

The lack of justification (showing economic data and comparisons of current and proposed rates) in support of comprehensive rate changes by forwarders has resulted in significant workload for the Board and its staff. In a number of instances, complaints against forwarder proposals have evoked answers by the forwarders containing supporting data, thus leaving the complainant with no established procedures to refute such data or contentions. The above factors are especially troublesome in view of the time constraints related to the 30-day notice requirement contained in section 403(c) of the Federal Aviation Act. Requiring forwarders to submit the same justification as direct carriers would be consistent with the general rule that a carrier should support rate filings with the factual basis for its proposals.

The Board recognizes, however, that the new requirement to furnish economic data and rate comparisons could prove burdensome to the many small operators. Currently, there are approximately 200 forwarders authorized as indirect air carriers by the Board, and fewer than 10 percent account for over 80 percent of the forwarders' revenues. Accordingly, we propose to limit the requirement at this time to the larger forwarders, i.e., those with annual revenues exceeding $5 million. In view of current circumstances, undue burden on forwarders of this size.

2. *Economic justifications.* It should also be noted that under the current regulation tariff filings by direct air carriers have sometimes been accompanied by statements of justification which failed to provide adequate economic support for the tariff proposed. While § 221.165 of the regulations calls for a full explanation of the proposal, including the reasons therefor, and details the types of economic data which should normally be supplied by way of justification, § 221.165(b) does contain a phrase which has led to problems: That provision refers to economic data • • • "on which the filing air carrier intends that the Board rely," including, in cases where pertinent, various estimates, etc. Although the Board wished to afford some flexibility to the carriers as to the extent of the economic justifications presented, depending upon the nature and importance of the tariff filing and on whether the tariff could be expected to be controversial, it is possible that the above-quoted language may have misled some carriers into believing that they could furnish incomplete or abbreviated data in any case at their option—or even no information at all. This was not our intention,[2] but in any event experience has shown that a requirement which may depend on an interested carrier's characterization of its tariffs can lead to difficulties. In practice, some significant filings have lacked adequate economic justification, and this has worked to the detriment of potential complainants as well as proving troublesome to the Board and its staff. Therefore, we shall require the filing of detailed economic data in all cases, and to remove any doubt as to the mandatory nature of § 221.165 we shall delete the above-quoted phrase. We shall not delete the phrase "where pertinent" from § 221.165(b), since there may be some tariff filings where some of the data or information generally to be included under the mandate of that section would not provide relevant support.[3] However, all carriers are put on notice that failure to supply the data or information listed in § 221.165(b), whenever reasonably pertinent, will subject the tariff proposal to rejection.

The Board also proposes to add to the rule a specific requirement that estimates of costs of service be accompanied by supporting details and references to sources. This information has not always been furnished in the past, but it is of material assistance in analyzing and assessing proposed tariffs and should be supplied by all carriers.

[1] The requirements are detailed in paragraphs (a), (b), and (c) of § 221.165.

[2] See ER–493, cited above, which spoke in terms of the "requirements" of the provisions here in question and of the "burden" of requiring compliance under the existing circumstances—terms which would not appear consistent with an interpretation that the carrier is free in all cases to decide what, if any, material it will file.

[3] For example, cost data may not be pertinent in some cases where the tariff publication provides for a rule change other than a rate or fare.

3. *Identifying competing rates.* Subject to the provisions[4] of § 221.165(d)(1)(iv), all tariff publications filed "to meet competition" are also currently excepted from the requirement that they be accompanied by supporting data and comparisons in accordance with § 221.165 (b) and (c). However, at present the filing carriers are not specifically required to identify the competing rates or fares where this exception is relied upon, and due to the vast numbers of rates and fares on file with the Board the failure to provide identifying tariff references has resulted in much inconvenience. Therefore, we propose to remedy this condition by requiring all carriers subject to § 221.165, both direct and indirect, to supply complete tariff references which will identify the competing tariff matter which their tariff publication purports to meet, in any case where meeting competition is relied upon as a reason for the tariff filing.

It is proposed to amend Part 221 of the Board's Economic Regulations (14 CFR Part 221) by:

1. Amending § 221.165 by revising paragraphs (b)(1), (d)(1)(iii), and by adding a new (*d*) to paragraph (d)(1)(iv) to read as follows:

§ 221.165 Explanation and data supporting tariff changes and new matter in tariff publications.

• • • • •

(b) Economic data and/or information in support of the new or changed matter, including, in cases where pertinent,

(1) Estimates of cost of service, with supporting details and references to sources, and

(iii) By air freight forwarders or international air freight forwarders, as defined in Parts 296 and 297 of this subchapter, whose revenues from forwarder operations during their most recent fiscal year prior to the filing of the tariff publication were less than $5 million, or

(iv) • • •

(*d*) In any case where new or changed matter is filed to meet competition the filing carrier or agent must supply in or attached to the transmittal letter the complete tariff references which will serve to identify the competing tariff matter which the tariff publication purports to meet.

[4] To qualify for the exemption the filings must involve rate or fare reduction or the establishment of new rates or fares similar to the level and services of those in effect for competing carriers.

FEDERAL SAVINGS AND LOAN SYSTEM

Proposed Eligibility Requirements for Branch Offices and Mobile Facilities

APRIL 4, 1972.

3. To revise the mobile facility eligibility requirements by removing the requirements relating to minimum percentage of reserves and surplus and pledge of savings accounts.

4. To revise the statement of policy relating to applications by Federal associations for branch offices and mobile facilities to state the Board's policy regarding adequacy of net worth as a factor in the preliminary determination of supervisory objection.

Accordingly, the Federal Home Loan Bank Board proposes to amend said Parts 541, 545, and 556 as follows:

PART 541—DEFINITIONS

(ii) More than 12 months have elapsed since the date of disapproval by the Board of an application to serve any substantial part of the same savings service area, as determined by the Supervisory Agent, but this requirement shall be applicable only if the association has filed two applications to serve any substantial part of such savings service area within the 12 months preceding such date of disapproval and both such applications have been disapproved by the Board;

(*b*) Twenty-four months, if the proposed branch office is to be redesignated as the association's home office; or

Such application and prescribed "Outline of Information To Be Submitted in Support of an Application for Permission to Establish a Branch Office" may be obtained from the Supervisory Agent. An application shall be deemed to be complete when the foregoing requirements of this paragraph (c) have been met.

An application shall be deemed to be complete when the foregoing requirements of this paragraph (d) have been met.

• • • • •

PART 556—STATEMENTS OF POLICY

4. Amend said Part 556 by revising subdivision (ii) of paragraph (a)(7) and subdivisions (i) and (iii) of paragraph (b)(4) of § 556.5 thereof, to read as follows:

§ 556.5 Establishment of Federal savings and loan associations and branch office and mobile facilities of such associations.

(a) *Internal processing procedure.* The Board deems it advisable that applicants for permission to organize Federal savings and loan associations and Federal associations who are applicants for permission to establish branch offices and mobile facilities, and persons who are interested in such applications, be informed of certain general instructions by the Board governing staff handling of applications and of the timetable for handling applications which the Board has adopted as objective, as follows:

• • • • •

(7) *Branch and mobile facility applications — supervisory considerations.* • • •

(ii) *Preliminary determination of supervisory objection—(a) Procedure.* The Director of the Office of Examinations and Supervision is authorized, with respect to any application for a branch office or mobile facility, to make a preliminary determination that there is no basis for supervisory objection, and the Supervisory Agent is authorized, within limits fixed by such Director, to make such determination. If the Director of the Office of Examinations and Supervision is of the opinion that there is any supervisory matter which might afford a basis for preliminary supervisory objection, he should submit the matter to the Board for its decision, together with a report and recommendation. The Director of the Office of Examinations and Supervision shall issue instructions to assure that there is no delay for supervisory reasons in the processing of an application of an association whose policies, condition, or operation, as determined by the Supervisory Agent within limits fixed by the Director, do not afford a basis for preliminary supervisory objection, and, in other cases, to assure that the preliminary determination, or submission to the Board for decision, is made within 30 days from the date of filing of the application.

(*b*) *Adequacy of net worth.* If the net worth of an applicant association is in an amount less than 3 percent of its savings accounts, this factor shall afford a basis for preliminary supervisory objection unless the Supervisory Agent finds in writing that the applicant association meets all of the following criteria:

(*1*) Adequacy of net worth to support the particular branch office or mobile facility applied for;

(2) Sound management;

(3) Sound lending practices;

(*4*) Assets of above-average quality; and

(5) Satisfactory operating results.

• • • • •

(b) *Policy on approval of branch office and mobile facilities.* • • •

(4)(i) As a general policy under § 545.14(b) of this chapter, the Board will not consider or process any application by a Federal association for permission to establish a branch office unless the applicant association meets all of the eligibility requirements contained in subparagraph (1) of § 545.14(b) of this chapter. However, under subparagraph (2) of paragraph (b) of § 545.14 of this chapter, the Board may, in its discretion, permit the consideration and processing of particular branch applications even if the applicant association fails to meet the eligibility requirement contained in subdivision (i) of subparagraph (1) of § 545.14(b) of this chapter.

• • • • •

(iii) In addition to permitting special treatment under subparagraph (2) of paragraph (b) of § 545.14 of this chapter for applications for branches to serve certain low-income, inner-city areas, the Board may permit the consideration and processing of branch office applications for all Federal associations servicing particular geographical areas, e.g., State, county, or city, upon recommendation by the Supervisory Agent that the eligibility requirement of subdivision (i) of subparagraph (1) of § 545.14(b) of this chapter could cause a competitive hardship to such associations. Following approval by the Board of such a recommendation by a Supervisory Agent, branch office applications from such Federal associations may be considered and processed with such frequency as the Board may determine to be appropriate for the particular geographical area.

Resolved further, that interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue NW., Washington, DC 20552, by May 26, 1972, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

DISTRICT OF COLUMBIA SAVINGS AND LOAN ASSOCIATIONS AND BRANCH OFFICES

Proposed Eligibility Requirements for Branch Offices

APRIL 4, 1972.

Resolved that the Federal Home Loan Bank Board considers it advisable to amend Parts 582 and 582b of the regulations for District of Columbia Savings and Loan Associations and Branch Offices (12 CFR Parts 582, 582b) for the following purposes:

1. To revise the branch office eligibility requirements by (i) permitting applications in cases where the proposed branch office is to be redesignated as the association's home office and it will take more than 12 months from date of approval to open such branch; and (ii) removing the requirements relating to minimum percentage of reserves and surplus and pledge of savings accounts.

2. To revise the statement of policy relating to applications for branch offices to state the Board's policy regarding adequacy of net worth as a factor in the preliminary determination of supervisory objection.

Accordingly, the Federal Home Loan Bank Board proposes to amend said Parts 582 and 582b as follows:

PART 582—OFFICES

1. Amend Part 582 by revising paragraphs (b) and (c) of § 582.1 thereof to read as follows:

§ 582.1 Branch offices.

• • • • •

(b) *Eligibility.* (1) Except as provided in subparagraph (2) of this paragraph, an association shall be eligible to have an application for permission to establish a branch office considered and processed only if, at the date on which such application is filed with the Board:

(i) The association does not have on file with the Board any other such application, excluding any application as to which more than 4 months have elapsed since the date of publication of notice thereof;

(ii) More than 12 months have elapsed since the date of disapproval by the Board of an application to serve any substantial part of the same savings service area, as determined by the Supervisory Agent, but this requirement shall be applicable only if the association has filed two applications to serve any substantial part of such savings service area within the 12 months preceding such date of disapproval and both such applications have been disapproved by the Board;

(iii) The association submits in support of its application evidence giving reasonable assurance, in the judgment of the Supervisory Agent, that the proposed branch office, if approved, will be opened within the following applicable time period after the date of approval by the Board:

(*a*) 12 months, except as otherwise provided in (*b*) and (*c*) of this subdivision;

(*b*) 24 months, if the proposed branch office is to be redesignated as the association's home office; or

(*c*) 36 months, if the proposed branch office is to be located in a shopping center having not less than 400,000 square feet of shopping space.

(2) The Board may, with respect to particular applications or classes of applications, determine to consider and process such applications without regard to the eligibility requirement contained in subdivision (i) of subparagraph (1) of this paragraph.

(c) *Application form; supporting information.* An application for permission to establish a branch office shall be in form prescribed by the Board. Such application and prescribed "Outline of Information To Be Submitted in Support of an Application for Permission to Establish a Branch Office" may be obtained from the Supervisory Agent. Information shall be furnished in support of the application in accordance with such Outline designed to show: (1) There will be at the time the branch is opened a necessity for the proposed branch office in the community to be served by it; (2) there is a reasonable probability of usefulness and success of the proposed branch office; and (3) the proposed branch office can be established without undue injury to properly conducted existing local thrift and home-financing institutions. An application shall be deemed to be complete when the foregoing requirements of this paragraph (c) have been met.

• • • • •

PART 582b—STATEMENTS OF POLICY

2. Amend Part 582b by revising §§ 582b.2 and subparagraph (2) of paragraph (g) of § 582b.3 to read as follows:

§ 582b.2 Policy with respect to inner-city branch offices.

(a) As a general policy under § 582.1(b) of this chapter, the Board will not consider or process any application by an association for permission to establish a branch office unless the applicant association meets all of the eligibility requirements contained in subparagraph (1) of § 582.1(b) of this chapter. However, under subparagraph (2) of paragraph (b) of § 582.1 of this chapter, the Board may, in its discretion, permit the consideration and processing of particular branch applications even if the applicant association fails to meet the eligibility requirement contained in subdivision (i) of subparagraph (1) of § 582.1(b) of this chapter. It is the intention of the Board to permit this special treatment in connection with applications for branches to serve low-income, inner-city areas which are inadequately served by existing savings and loan facilities.

(b) Applicant associations wishing such special treatment with respect to a particular application must furnish the Supervisory Agent with detailed information demonstrating that the application (or a prior branch application, if less than 4 months have expired from the date of publication of notice thereof) is for a branch office (1) to be located within an area characterized by substandard family incomes, chronically high unemployment, a high percentage of welfare recipients, and substandard housing, and (2) to fulfill the objectives of facilitating the granting of loans in such area, particularly for construction or rehabilitation of housing, stimulating thrift and providing financial guidance among low-income residents of such area, and providing opportunities for employment or job training for residents of such area. If the Supervisory Agent is satisfied that the above criteria for special treatment of the application have been met, he may determine that the association is eligible under § 582.1(g) of this chapter, and the application may be processed as provided therein.

§ 582b.3 Internal processing procedure for applications for branch offices.

The Board deems it advisable that applicants for permission to establish branch offices, and persons who are interested in such applications, be informed of certain general instructions by the Board governing staff handling of applications and of the timetable for handling applications which the Board has adopted as an objective, as follows:

• • • • •

(g) *Supervisory considerations.* • • •

(2) *Preliminary determination of supervisory objection—(i) Procedure.* The Director of the Office of Examinations and Supervision is authorized, with respect to any application for a branch office, to make a preliminary determination that there is no basis for supervisory objection, and the Supervisory Agent is authorized, within limits fixed by such Director, to make such determination. If the Director of the Office of Examinations and Supervision is of the opinion that there is any supervisory matter which might afford a basis for preliminary supervisory objection, he should submit the matter to the Board for its decision, together with a report and recommendation. The Director of the Office of Examinations and Supervision shall issue instructions to assure that there is no delay for supervisory reasons in the processing of an application of an association whose policies, condition, or operation, as determined by the Supervisory Agent within limits fixed by the Director, do not afford a basis for preliminary supervisory objection, and, in other cases, to assure that the preliminary determination, or submission to the Board for decision, is made within 30 days from the date of filing of the application.

(ii) *Adequacy of net worth.* If the net worth of an applicant association (as defined in § 561.13 of this chapter) is in an amount less than 3 percent of its savings accounts, this factor shall afford a basis for preliminary supervisory objection unless the Supervisory Agent finds in writing that the applicant association meets all of the following criteria:

(*a*) Adequacy of net worth to support the particular branch office applied for;

(*b*) Sound management;

(*c*) Sound lending practices;

(*d*) Assets of above-average quality; and

(*e*) Satisfactory operating results.

Resolved further that interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue NW., Washington, DC 20552, by May 26, 1972, as to whether this proposal should be adopted, rejected, or modified. MARKET NEWS SERVICE LEASED WIRE NETWORK

General Statement of Basis and Purpose of Private Direct Connections

Pursuant to the Organic Act of the U.S. Department of Agriculture (R.S. 520; 7 U.S.C. 2201), the Cotton Statistics and Estimates Act (50 Stat. 62; 7 U.S.C. 473b), section 9 of the Tobacco Inspection Act (§ 9, 49 Stat. 733; 7 U.S.C. 511h), and paragraphs (g), (k), and (n) of section 203 of the Agricultural Marketing Act of 1946 (§ 203, 60 Stat. 1087; 7 U.S.C. 1622 (g), (k), (n)), the Secretary of Agriculture has the authority and the duty to "acquire and to diffuse among the people of the United States useful information on subjects connected with agriculture, in the most general and comprehensive sense 'of that word," including marketing reports and other items of interest to the agricultural community, by the most expeditious means possible, and for the benefit of the general public.

The Market News Service was initiated in 1915 and the Market News Service leased wire network has been in operation continuously since 1917. Largely as a consequence of improved technology, the Market News Service has been expanded from time to time over the years. The present leased wire network of more than 19,000 miles connects the field and Washington offices of the Market News Service and the Federal-State market reporters who gather market news at more than 200 permanent and seasonal markets and producing areas. Market reports are issued to the public as promptly as possible by all available practical means on cotton, fruits, vegetables, dairy and poultry products, livestock, meat, grain, feeds, tobacco, and other agricultural products. The reports include such matters as market supplies, demands, activity, prices, and trends. The Market News Service is an invaluable tool to producers, handlers, and dealers in all major agricultural commodities produced in the United States, and the Department of Agriculture is constantly striving to improve the efficiency of the Marketing News Service so as to better accommodate these sectors of our economy in the public interest.

In a notice published in the FEDERAL REGISTER on May 25, 1963 (28 F.R. 5240), the Department of Agriculture described the fact that it maintains and operates a network of teletypewriter circuits which it leases from a telephone company for the rapid dissemination of agricultural market news among its Washington and field offices throughout the United States; stated that, in order to facilitate more rapid and more extensive dissemination of market news, the Department was considering granting permission for newspapers, radio and television stations, commercial firms, cooperatives, and any other interested persons to have direct connections or private "drops" on the USDA teletypewriter Market News Service leased wire circuit; and afforded an opportunity for any interested person to submit comments regarding the matter.

In July 1963, after careful consideration of all responses to the notice, the Department announced its decision to inaugurate the new direct extension system by granting permission for any interested person to acquire a direct connection to a USDA leased wire circuit for direct receipt of public market news information as it is being transmitted to USDA Market News Service offices for immediate release to the public. The announcement was made in a widely distributed USDA bulletin, AMS-510, which declared that the new system was being instituted for the purpose of "speed[ing] the dissemination of market reports and widen[ing] the area to which they are disseminated." The new system was implemented on August 1, 1963, and has been operative continuously since that date.

In the case of P.A.M. News Corp. v. Hardin, 440 F. 2d 255, 258, note 4 (C.A.D.C., 1971), the Court stated that under section 4 of the Administrative Procedure Act (now 5 U.S.C. 553) it was incumbent upon the Department to publish in the FEDERAL REGISTER its determinations with respect to the direct extension system and to set forth a "concise general statement" of the basis and purpose therefor. This general statement of the basis and purpose of the direct extension system of the Department of Agriculture's Market News Service is being published pursuant to the Court's opinion.

By a letter dated September 20, 1963, the Secretary of Agriculture transmitted to Senator Spessard L. Holland, Chairman, Agriculture Subcommittee of the Senate Committee on Appropriations, a document entitled "Developments Regarding Use of the Federal-State Market News Leased Wire System." The letter and document were published in the Congressional Record on September 25, 1963 (109 Cong. Rec. 18006-18008). That document which contains a concise general statement of the developments leading to the direct extension connection system and the basis and purpose of the system, and answers to the arguments advanced in opposition to the system, is set forth below:

DEVELOPMENTS REGARDING USE OF THE FEDERAL-STATE MARKET NEWS LEASED WIRE SYSTEM

U.S. DEPARTMENT OF AGRICULTURE
WASHINGTON, D.C., SEPTEMBER 19, 1963

The U.S. Department of Agriculture has been collecting and disseminating agriculture market news since 1915 in cooperation with State departments of agriculture. The reports consist of prices, stocks, and movement of cotton and cottonseed, dairy and poultry products, fruits and vegetables, grain and feeds, livestock, meat and wool, molasses, naval stores, and tobacco.

For many years market news reports have been transmitted among the 135 Federal-State market news offices over a national leased wire system. The reports are then made available from each market news office. It is essential to collect, transmit, and

V 37-80 APR 25 72 XUM

release these market reports with the least possible delay if they are to be of maximum usefulness. For example, many livestock producers look to the reports from Kansas City, Chicago, or other markets before making their plans each day for direct or auction sales of cattle and hogs.

Market news offices release their reports in many ways. Daily mimeographed reports are sent out by mail; summaries are given to local newspapers and broadcast stations; long distance collect telephone calls or telegrams are sent to individuals at their request; recorded telephone tapes are cut for automatic playback to callers; reports are posted at stockyards and other public markets; and many persons visit the market news offices daily at the time when certain reports are due to be released. Special summaries are supplied several times daily to the Associated Press, United Press International, and other news services at points throughout the United States.

Because of the delays or lack of completeness in the relaying system through the local market news offices, users of the market news service have requested that teletypewriter receiving machines be installed at their place of business. In 1950, the Western States Meat Packers Association established a leased wire circuit to distribute market news reports to its members. The Market News office in San Francisco serviced this circuit by relaying the livestock reports on a sending machine which the association located in this office. In 1955, a similar circuit and arrangement was set up by the National Independent Meat Packers Association which was serviced by the Market News office in Chicago. Also in 1955, the Colorado Cattle Feeders Association established its circuit with service out of the Denver office. The USDA agreement with these associations specified that they would derive no profit from the arrangement and would permit any private subscriber willing to pay the costs to join their leased wire circuits.

These private arrangements resulted in duplicate line charges because their lines paralleled the Federal-State circuits in many instances. For example, a livestock marketing firm in Billings, Mont., would have to pay its pro rata costa for a line from San Francisco even though the Federal-State circuit, which carries the same reports, runs directly through Billings. This duplication led to requests to be able to "tap on" to the circuit at the nearest market news office. In addition, other commodity groups who depend on the Federal-State reports in carrying out their daily operations, wished to avail themselves of this faster service at their expense.

Direct connections to the leased wire circuits would probably have been initiated long before August 1, 1963, if it had not been for the mechanical problem of screening out administrative messages or incomplete market news data, which are consolidated by one of the receiving Federal-State offices prior to public issuance. Although automatic selector equipment for screening messages has been available for a number of years, the Federal-State Market News Service does not have this equipment on its sending machines. Indirectly, the present arrangement is an outgrowth of the action of the 87th Congress directing a joint Department of Agriculture-Weather Bureau survey in 1962 to explore the possibility of coordination of the use of their separate leased wire circuits. As a result of this survey, USDA officials learned (1) of the extensive arrangements which the Weather Bureau has for over 1,000 private subscribers on its leased wire circuits throughout the country, and (2) of the fact that automatic selector equipment could be attached to the receiving machines, at no cost to the Government, for the purpose of screening out messages. The joint report by the U.S. Departments of Commerce and Agriculture, which was submitted to Congress in April 1962, includes the following statement:

"At present, only Federal and Federal-State Market News offices are connected with the AMS (USDA) leased wire network. No radio stations, TV stations, or other private subscribers have direct access to the AMS leased wire circuit. Therefore, any weather information on this circuit would have to be relayed from the market news offices to the press. This method of communication would not be faster nor more effective than the existing arrangements for distributing weather information.

"With the increased capacity and automatic selectivity feature of the AMS network provided for under its proposed modernized leased wire plan, consideration is being given to the desirability of opening the AMS network to private subscribers who would pay the machine rental and the added mileage costs. If this plan were adopted, it is possible that radio stations, TV stations, and newspapers in certain sections would wish to install a private drop. Under such a plan, establishment of AMS-Weather Bureau exchange points at strategic locations would make it possible to transmit selected weather information to stations on the AMS network along with the market news reports."

The Department started relaying market news reports for transmission on the first of the Weather Bureau networks in June 1962. These leased wire networks transmit detailed weather news and forecasts to radio and TV stations, newspapers, public utilities, and various private firms.

The Department filed a request on April 9, 1962, with the American Telephone & Telegraph Co. to provide "Extension" service on the market news leased wire circuits similar to the arrangement which had been approved by the Federal Communications Commission for the Weather Bureau. A letter dated August 7, 1962, was received from A.T. & T. advising that it could furnish such service. The Department deferred further action on this matter until after the congressional hearings on its 1964 appropriations. The proposal was then discussed on March 8, 1963, at the House subcommittee hearings (Department of Agriculture appropriations for 1964, pt. III, pp. 1469–1471).

In accordance with the appropriation hearing discussion, the Department issued a press release on May 20 and published a notice in the FEDERAL REGISTER on May 25, 1963, asking for comments prior to making a final decision on the initiation of this expanded service. This notice received wide circulation—102 replies were received; 68 favored the proposal, 19 opposed, and 15 were noncommittal. Nineteen farm or trade organizations approved the proposal and one was noncommittal. Thirteen newspapers, broadcast stations, or other news media either approved the proposal or simply requested further information for their own evaluation in utilizing the service and one firm opposed it.

Careful consideration at each stage of its development was given to all foreseeable features of this plan. As the result of this consideration, the Department concluded that this plan would make a proper and useful contribution to the Federal-State Market News Service. Accordingly, the Department announced on July 10, 1963, that direct hookups to the Federal-State market news network would become effective on August 1, 1963.

The American Newspaper Publishers Association, in its August 20, 1963, memorandum, lists six arguments against allowing private firms and individuals to connect to the leased wire circuits of the Federal-State market news service. Following are the arguments and the USDA comments on them:

ANPA ARGUMENT NO. 1

Under our concept of freedom, it is improper for the Government to engage in the business of news gathering and dissemination. It can too easily become a propaganda agency. The longstanding policy of Small Business Administration (and its predecessor agency the Reconstruction Finance Corporation) has been not to make loans to newspapers or broadcast stations because it does not wish to create any implication of Government influence on editorial content. The same policy should apply to the Department of Agriculture.

USDA COMMENT

Federal, State, and county governments have been engaged for more than 100 years in gathering and disseminating specialized reports, data, and other information. Examples are weather reports, census reports, agricultural crop estimates, and agricultural market news reports. Federal laws authorize these services.

Congress, in establishing the U.S. Department of Agriculture in 1862, specifically authorized the new Department "to acquire and diffuse among the people of the United States useful information on subjects connected with agriculture, in the most general and comprehensive sense of the word."

The Agricultural Marketing Act of 1946 provides that "the Secretary of Agriculture is directed and authorized to collect and disseminate marketing information, including adequate outlook information on a market-area basis, for the purpose of anticipating and meeting consumer requirements, aiding in maintenance of farm income, and bringing a balance between production and utilization of agricultural products.

Congress each year in its appropriation actions reviews and directs the operation of these services.

The bug-a-boo of these services becoming propaganda agencies is completely foreign to American concepts. This presupposes that the executive branch of the Government would have the desire (and ability) to use for propaganda purposes its staff of meteorologists or statisticians or agricultural marketing specialists; that Congress would abdicate its responsibilities and fail to exercise its powers of direction; and that the American people would tolerate such actions.

The Small Business Administration's policy against making loans to newspapers or broadcast stations in order not to imply any Government influence on editorial content is not germane to this issue. Agricultural market news reports have no connection with editorial policy or content. These reports are limited to specialized, technical data for the use of farmers and others who buy and sell agricultural commodities. The excerpts on page 6 from typical market news reports show their scope and content. The fact that the Chicago hog market opened at $17 to $17.25 per hundredweight and closed at $16.50 to $16.75 may have been very significant to many persons in making their marketing plans for the following day. It is hardly conceivable, however, that the collection and dissemination of this information by the Government could be used to influence editorial content.

ANPA ARGUMENT NO. 2

Government should not engage in an enterprise in competition with existing private ownership which is able to provide satisfactory service, as the U.S. Department of Agriculture will be doing in this case.

USDA COMMENT

There is no such existing private ownership. Comprehensive, detailed market news reports on a national basis are collected and disseminated only by the U.S. Department of Agriculture in collaboration with State departments of agriculture. There are private marketing analysts or commodity specialists who provide their services to their customers through newsletters or other media. Some of them collect certain marketing information; most of them utilize the Government market reports for their primary data; and none of them duplicates the extent and scope of the Government reports.

The objection to competition with a privately owned firm apparently refers to the P.A.M. News Corp. This firm was purchased by the New York Journal of Commerce from its owner-operator on May 1, 1963. P.A.M. (under a different firm name) was started during the 1940's for the purpose of relaying to fresh fruit and vegetable growers and shippers Federal-State market news reports plus certain supplemental market information which it collects directly. P.A.M. leases wire circuits for this purpose and states that it presently has about 300 customers. The Federal-State market news reports are transmitted via a special hookup maintained by P.A.M. from the USDA leased wire center in Washington, D.C., to the P.A.M. office in New York City. This arrangement has existed for many years. P.A.M. then relays these Government reports to its customers via its own leased wire circuit. P.A.M. discontinued use of its special hookup in August and is now obtaining the Federal-State market news reports by direct connections on USDA leased wire circuits.

The daily supplies and prices of fresh fruits and vegetables fluctuate more rapidly and widely than any other agricultural commodity group. Therefore, maximum speed in receiving the Government market news reports from the major wholesale markets and production areas is of primary importance. The opportunity for fresh fruit and vegetable growers and shippers, at their expense, to obtain direct connections on the Federal-State leased wire circuits is of concern to the P.A.M. News Corp. because these wire connections will reduce the lag in time for the receipt of Federal-State market reports directly from their source. Whether this arrangement will affect the P.A.M. News Corp. may depend upon the value its customers place on the supplemental market information which it collects and sells to them.

ANPA ARGUMENT NO. 3

The announcement sets up a system of censorship by giving the Department of Agriculture authority to cancel the service of anyone who allegedly abuses the service by "Misrepresentation" of reports, or for any other reason when, in its sole judgment, such cancellation is desirable.

USDA COMMENT

No system of censorship or management of the press is involved in any manner. This objection is drawn from a misinterpretation of a statement in AMS Bulletin 510 which was issued to explain the expanded leased wire arrangement. Unfortunately, the Agricultural Marketing Service wrote this statement in such a capsule form that it is easily subject to misinterpretation.

The statement in AMS Bulletin 510 was as follows:

"The new service is available to all who want it, and no application need be made to USDA to receive service. However, USDA reserves the right to cancel at any time the connection of any or all subscribers who abuse the service by misinterpretation of reports, or for any other reason when, in its sole judgment, such cancellation is desirable."

This statement is intended to cover only two kinds of situations. First, notice of reservation by USDA of the right to cancel service to an individual subscriber if he should issue false or fraudulent market news reports, which be designates as being Federal-State market news reports. Second, notice of reservation by USDA of the right to cancel the new service in its entirety and in the sole judgment of USDA if, for some unforeseen reason, it should turn out to be detrimental to the best interests of agricultural producers as a whole.

Objections related to censorship would have to be based on the possible cancellation action against individual subscribers. Guarding against the unlikely possibility of false or fraudulent reports, ascribed to the Federal-State Market News Service, is not a capricious or unreasonable safeguard. For example, intermingling of data from other sources so that they appear as part of the Federal-State report should be considered as a false report.

The agreement which has been in effect between USDA and P.A.M. News Corp. for several years contains similar restrictions and cancellation provisions. No objection has ever been received from P.A.M. to these provisions which are as follows:

"P.A.M. News Corp. will retransmit official market news reports without amendment or modification; will credit all market news reports originating in Agricultural Marketing Service as USDA; and will credit all non-USDA market reports as independent or by specific private agency so as to indicate no responsibility on the part of USDA. Either party may terminate this agreement upon 30 days notice in writing to the other party."

Working relationships under this agreement with P.A.M. News Corp. have been very satisfactory and no question of termination has ever risen.

If cancellation of the service to an individual subscriber should arise, the established procedure for withdrawal of other voluntary fee services provided under the Agricultural Marketing Act of 1946 (i.e., inspection, grading, and classing services) would be followed. This procedure calls for affording the respondent an opportunity to file a written statement or, at his option, to have an oral hearing to show cause why the service should not be withdrawn. The procedure next requires that the respondent be served with a proposed suspension order consisting of tentative findings, conclusions, and decision specifying the suspension period and giving him 20 days in which to file exceptions. After ruling on exceptions received, the Administrator or Deputy Administrator of AMS may issue a formal suspension order for a specified period of time.

In addition to the safeguards of individual rights contained in this USDA procedure, the Administrative Procedure Act gives any person adversely affected by such action the right of judicial review. This act provides, among other things, that the reviewing court shall decide all relevant questions of law and shall hold unlawful and set aside agency actions found to be arbitrary, capricious, an abuse of discretion, contrary to constitutional rights, or for certain other specified reasons. (Now contained in 5 U.S.C. 701 et seq.)

ANPA ARGUMENT NO. 4

Future expansion of this service—as is indicated in a Department of Agriculture background memorandum—could easily lead to a complete national news wire in direct competition with Associated Press and United Press International.

USDA COMMENT

The basis for this sweeping charge is so vague that it is difficult to find a meaningful comment. The USDA is not engaged, or authorized to engage, in the operation of a complete national news wire. AMS Bulletin 510 makes very clear that there will be no changes made in the informational material transmitted on the leased wire network as the result of private subscribers. It states that:

"The primary purpose of the leased wire network is to relay information throughout the country, for use by market news offices in preparing and issuing reports. The network continues to serve this purpose, and no changes can be made in its operation because of the addition of private subscribers. USDA cannot add to, subtract from, or modify its reports solely as a service to any private subscriber. Many of the reports move on the circuit in abbreviated telegraphic language in order to get the most traffic transmitted, and subscribers will receive the reports in this form."

There is only a nominal amount of unused capacity on the leased wire circuits. In fact, they operate at a much higher rate than is normally scheduled for wire circuits. Therefore, there is no opportunity for use of the market news leased wire circuits to transmit any significant amount of other traffic.

Federal-State offices mailed out about 20 million mimeographed market news reports last year. It is as farfetched to say that the market news leased wire system could be turned into a complete national news wire service as it would be to say that these mimeographed reports could be turned into complete newspapers.

ANPA ARGUMENT NO. 5

The announced plan has monopolistic implications in that only A.T. & T. wires can be used although the present privately owned news service in this field uses wires leased from Western Union. FCC policies and actions have been aimed at preserving competition in the leased wire filed between A.T. & T. and Western Union.

USDA COMMENT

The USDA obtains its leased wire services under a contract (TPS 72907) made by the General Services Administration for all civil Federal agencies. USDA has no jurisdiction over the awarding of contracts to provide these long line services.

ANP ARGUMENT NO. 6

The American taxpayers should not be expected to pay for news wire services to anyone.

USDA COMMENT

As set forth in AMS Bulletin 510, private subscribers pay directly to the telephone company all costs of their connections. USDA pays for the cost of its trunklines and connections to the Federal-State market news offices—exactly as it has in the past.

The USDA pays the same tariff rates, approved by the Federal Communications Commission, as any other public agency or private firm. Rates vary dependent upon transmission speed, hours per day of operation, and type of equipment—not on the identity of the leasing party. For example, USDA pays the same mileage charge per month for a 75-word-per-minute line as does P.A.M. News Corp.

The cost of conducting the agricultural market news service is borne by Federal and State appropriated funds. However, the expanded service is being paid for entirely by the private subscribers at no additional cost to the taxpayers.

One private subscriber expressed the following views in a recent letter:

"The information on livestock market prices will be of real value in helping to keep our staff informed on market conditions. As a result, we will be able to better serve our members in the livestock industry. This improved dissemination of market news infor-

V 37-80 APR 25 72 XUM

mation will be of value in stabilizing livestock prices in the market. With the individual subscriber paying all costs of the service, this step forward should be approved by all segments of the industry."

The direct extension connection or "drop" system, instituted on August 1, 1963, after careful and thorough consideration is found to be a desirable additional feature of the Market News Service. It is our opinion that the system does not abridge the constitutional guarantees of any person, and that the long-standing administrative policy of the Department of providing the most prompt and accurate market news information to all interested segments of the public by the most expeditious means available far outweighs the specious arguments advanced in opposition to the system. Therefore, the direct extension connection or "drop" system under the conditions described herein is hereby reaffirmed.

All interested persons have had actual and timely notice of the system for many years. All comments submitted pursuant to the notice published in the FEDERAL REGISTER on May 25, 1963, and all other data, views, and arguments brought to the attention of the Department during the more than 8 years the system has been in operation have been carefully considered, and it does not appear that further public procedure with respect to this matter would develop any further useful information regarding the matter. Accordingly, it is found for good cause that further public procedure with respect to the direct extension connection or "drop" system is unnecessary and this reaffirmation of the system shall become effective upon issuance.

Done at Washington, D.C., this 19th day of April 1972.

G. R. GRANGE,
Acting Administrator.

Farmers Home Administration

STATE ADVISORY COMMITTEES

Establishment

In accordance with established policies and delegated authorities of the Farmers Home Administration (FHA), Advisory Committees have been established for each State for the purpose of assisting in the coordination of communications regarding the many programs between FHA and the community. Where two or more States are under the jurisdiction of one State Director, the State Director may apply to the Administrator for permission to establish one Committee for all of those States rather than a separate Committee for each State.

Composition. Each Committee will be composed of five lay members from different geographical areas of the State(s), the Dean of the College of Agriculture and/or Director of Extension Service who will serve as ex officio members, and such other ex officio members as may be appointed by the Administrator. Variations in the number or composition of the Committees require the prior approval of the FHA Administrator. All Committee members should be individuals who are interested in the FHA's objective of strengthening family farms, developing strong rural communities, and eliminating rural poverty. One of the five lay Committee members should be actively engaged in farming. One should be a person with experience in agricultural financing. The other three lay Committee members should be individuals interested in the broad spectrum of our programs, particularly in rural housing and community development.

Functions. The functions of the State Advisory Committees will be:

1. To advise the State Director with respect to adapting broad national FHA policies to local conditions in the respective States, and to submit recommendations that may be helpful in shaping the future program of the FHA.

2. To consider the problems and advise the State Director concerning agricultural credit and other needs of operators of family-type farms, the needs of rural residents and of rural communities in the State, and to suggest ways for the FHA to meet these needs more effectively.

3. To inform the State Director and the Administrator of the Committeemen's reactions, and of the reactions of the public in general, to the FHA program.

4. To assist in coordinating the FHA program with the activities and programs of other agencies operating in the field of agriculture in the State.

5. To advise the State Director regarding the need for emergency credit in the State.

Eligibility. The eligibility requirements set forth below will be adhered to strictly in the selection of State Committeemen, and any Committeeman who, subsequent to appointment, does not meet such requirements will become immediately ineligible to serve as such Committeeman.

1. No FHA borrower, nor the wife or husband of a borrower, is eligible for appointment as a member of a State Advisory Committee if he or she is currently indebted to the Government by virtue of an FHA loan, an FHA insured loan, or a loan secured through the Farm Security Administration, the Emergency Crop and Feed Loan Division of the Farm Credit Administration, or the Regional Agricultural Credit Corporation.

2. Persons who perform any of the following functions or services for an FHA-financed association or organization are not eligible for appointment if they are to continue to perform such functions or services after appointment: Serve as officials; perform any administrative or employee function with respect to any phase of the business; and perform clerical services, maintain financial or other records, prepare financial reports, or develop operating budgets. In addition, persons who are members of grazing associations unincorporated Economic Opportunity Cooperatives, or of insured rental housing and closely held labor housing organizations are not eligible for appointment.

3. Members must meet the legal and regulatory requirements for appointment and service in the Federal Government. In this connection the State Director determines that the nominee meets the citizenship requirements for Federal employment; his appointment will not be in violation of the dual pay and employment provisions of sections 5531–5537 of title 5, United States Code; and that his appointment will not be in violation of the laws and Executive orders regarding political activity and the holding of State or local office.

4. It is also the State Director's responsibility to make the determination that the nominee's appointment would be clearly consistent with national security. National security is defined as the protection and preservation of the military, economic, and productive strength of the United States, including the security of the Government in domestic and foreign affairs, against or from espionage, sabotage, and subversion, and any and all other illegal acts designed or tending to weaken or destroy the United States. Such determinations will be accomplished by adequate verbal inquiry of reliable local sources. State Directors will observe the criteria given in the FPM, Chapter 732, Subchapter 2, in making an evaluation relative to the character, reputation, and activities of the nominee. His determination will be evidenced by adding the following certification to each recommendation for appointment on Standard Form 52, "Request for Personnel Action":

Based on the information which I have received in answer to verbal inquiries the appointment of the nominee will be clearly consistent with the interests of the National security.

5. The State Director determines further that he has not been separated from the Federal Service under Public Law 733, 81st Congress, now sections 7531–7533 of title 5, United States Code. In making this determination, it is well to remember that only a person separated after August 26, 1950, need be questioned, and any exception to this requirement must be requested from the National Office in writing, giving complete information regarding the separation of the employee for approval by the Civil Service Commission as required by FPM Chapter 732, Subchapter 1.

Dated: April 3, 1972.

Administrator,
Farmers Home Administration.

PACIFIC GAS AND ELECTRIC CO.

Notice of Hearing on Suspension of Construction Activities Authorized Pending Completion of NEPA Environmental Review

In the matter of Pacific Gas and Electric Co. (Diablo Canyon Nuclear Power Plant, Units 1 and 2), Dockets Nos. 50-275, 50-323.

On December 7, 1971, the Director of Regulation of the Atomic Energy Commission published in the FEDERAL REGISTER, 36 F.R. 23265, pursuant to 10 CFR Part 50, Appendix D, section E, a determination with certain exceptions, not to suspend construction activities at the Diablo Canyon Nuclear Power Plant, Units 1 and 2, pending completion of an environmental review under the Commission's regulations implementing the National Environmental Policy Act of 1969 (NEPA), 10 CFR Part 50, Appendix D.[1] A request for a hearing was filed on December 30, 1971, by the Scenic Shoreline Preservation Conference, Inc. (petitioner).

Upon analysis of the request and the responses filed by the Regulatory Staff and the Pacific Gas and Electric Co. (licensee), it has been determined by memorandum and order dated April 21, 1972, that a hearing is warranted and that a hearing will be held. Accordingly, pursuant to 10 CFR Part 50, Appendix D, section E.4(b) and § 2.703 of the Commission's "Rules of Practice," 10 CFR Part 2, notice is hereby given that a hearing will be held at a time and place to be announced by the Atomic Safety and Licensing Board specified below, and published in the FEDERAL REGISTER.

The issue to be considered at the hearing will be whether the activities under the construction permits for the Diablo Canyon Nuclear Power Plant, Units 1 and 2, should be suspended pending completion of the NEPA environmental review. In resolving that issue, the following criteria should be considered and balanced:

Criteria. (a) Whether it is likely that continued construction during the review

[1] Construction of these units is authorized by Construction Permits Nos. CPPR-39 and CPPR-69.

period will give rise to a significant adverse impact on the environment; the nature and extent of such impact, if any; and whether redress of any such adverse environmental impact can reasonably be effected should modification, suspension or termination of the permit or license result from the ongoing NEPA review.

(b) Whether continued construction during the prospective review period would foreclose subsequent adoption of alternatives in facility design or operation of the type that could result from the ongoing NEPA environmental review.

(c) The effect of delay in facility construction or operation upon the public interest. Of primary importance under this criterion are the power needs to be served by the facility; the availability of alternative sources, if any, to meet those needs on a timely basis; and delay costs to the licensee and to consumers.

(d) In the context of balancing environmental harm and economic cost of abandonment, a paramount consideration shall be whether the commitment of substantial financial resources, in proceeding with construction pending completion of the NEPA review, might affect the eventual decision reached on that review; and, if so, the degree to which such an effect might occur.[1]

The Licensing Board shall render a de novo decision based upon the criteria above. The burden of proof shall be upon the licensees.

For purposes of this proceeding, on the question whether activities under the construction permits should be suspended pending completion of NEPA review, the parties shall be the licensee, the Regulatory Staff, and the petitioner. An answer shall be filed by the licensee within 3 days of the date of publication of this notice following 10 CFR § 2.705 to the extent appropriate. A reply to an answer may be filed within 3 days after it is served.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC. Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR § 2.708 of the Commission's "Rules of Practice," an original and 20 conformed copies of each such paper with the Commission.

A copy of the Director of Regulation's determination and the accompanying staff discussion and findings are available for inspection by members of the public in the Commission's Public Document Room, 1717 H Street NW., Washington, DC. Copies of those documents are also available at the San Luis Obispo County Free Library, 1354 Bishop Street, San Luis Obispo, CA, between the hours of 8 a.m. and 5 p.m., Monday through Friday.

We direct that all matters involving the above question be concluded with utmost expedition so that final decision will be reached within 60 days of publication of this notice. For these purposes, the proceeding shall be conducted under the following requirements:

1. The hearing will be held before an Atomic Safety and Licensing Board (Licensing Board) composed of the following members: Dr. Franklin C. Daiber, Dr. M. Stanley Livingston, and Michael Glaser, Esq., Chairman. Pursuant to 10 CFR § 2.785(a)(1), the Commission hereby delegates to the Atomic Safety and Licensing Appeal Board (Appeal Board) the authority and the review function which would otherwise be exercised and performed by the Commission. The Appeal Board shall be composed of the following members: Dr. John H. Buck, Dr. Lawrence R. Quarles, and Algie A. Wells, Esq., Chairman.

2. The Licensing Board shall render its initial decision within 40 days from the date of publication of this notice. In order to meet this schedule, the Licensing Board shall conduct the hearing as soon as possible.

3. The Licensing Board's initial decision shall constitute the final decision of the Commission unless exceptions are filed within 5 days after its date or unless, within the same time period, the Appeal Board or Commission directs that the record be certified to it for final decision.

Insofar as this notice and these requirements reflect shortening of time periods otherwise prescribed in 10 CFR Part 2, we find good cause for such action under 10 CFR § 2.711 and 10 CFR Part 50, Appendix D, section E.4(c). We further note that the authority of 10 CFR § 2.711 also extends to the Licensing Board.

Dated: April 21, 1972.

By the Commission.

W. B. McCOOL,
Secretary of the Commission.

CIVIL AERONAUTICS BOARD

[Docket Nos. 24353, 24374; Order 72-4-101]

EASTERN AIR LINES, INC.

Order Dismissing Complaint

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of April 1972.

U.S. Mainland-Puerto Rico/Virgin Islands Fares, Docket 24353, San Juan/Virgin Islands-Florida excursion fares proposed by Eastern Air Lines, Inc., Docket 24374.

By tariff revisions[1] marked to become effective April 23, 1972, Eastern Air Lines, Inc. (Eastern) proposes to establish round-trip excursion fares from San Juan, St. Croix, and St. Thomas to Daytona Beach, Kennedy Space Center, Melbourne, Orlando, and Tampa, and return. The round-trip fares are $139 from St. Croix or St. Thomas (with a stopover permitted at San Juan, Miami or Ft. Lauderdale) and $126 from San Juan (with a stopover permitted at Miami or Ft. Lauderdale). The fares are subject to a 3-day minimum and 21-day maximum stay in Florida, and are marked to expire December 15, 1972.

In support of its proposal, Eastern states that the significant increase in travel from Caribbean points to the Disney World area experienced during the fourth quarter of 1971, indicates that the excursion fares will be financially successful. It expects to generate at least 2,100 passengers and to realize a net contribution to profit of approximately $122,000.

Pan American World Airways, Inc. (Pan American) has filed a complaint against the proposal requesting its suspension and investigation. Pan American alleges that Eastern has failed to demonstrate that the markets involved, already highly stimulated by the opening of Disney World, require fare reductions of the magnitude proposed. It further alleges that Eastern has significantly overestimated traffic generation (40 percent) and understated traffic diversion (60 percent)—particularly in light of the potential diversion of traffic currently destined for Miami.

Eastern answers that it is precisely because the Disney World area is a prime attraction that the fares will encourage family travel. It alleges that its success with other circle-trip excursion fares, identical in principle to the instant proposal and at levels comparable to those here proposed, supports its generation/diversion estimate. Finally, the carrier alleges that the truly price conscious passenger could use existing fares which are lower than the fares in the instant filing if he desired to travel only to Miami.

Eastern's proposal to establish round-trip excursion fares from Puerto Rico and the U.S. Virgin Islands to points in Florida and return comes within the scope of the investigation of mainland-U.S.-Puerto Rico/Virgin Island fares in Docket 24353, and its lawfulness will be determined in that proceeding. The question then is whether to permit the proposal to become effective, or to suspend it pending investigation. Upon consideration of all relevant matters, the Board finds that the complaint does not set forth sufficient facts to warrant suspension, and the request therefor will be denied and the complaint dismissed.

On the basis of Eastern's experience with similar types of excursion fares, we have no reason to conclude that the 40-percent generation estimated in connection with the fares here involved is unreasonable. Moreover, the minimum/maximum stay requirement and directional nature of the fares should reduce the potential for diversion. Finally, the discounts involved (19 to 25 percent) are not out of line with existing excursion fares in other markets.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof.

It is ordered, That:

1. The complaint of Pan American World Airways, Inc., in Docket 24374 is dismissed; and

2. A copy of this order be served upon Eastern Air Lines, Inc., and Pan American World Airways, Inc.

This order shall be published in the FEDERAL REGISTER.

ENVIRONMENTAL PROTECTION AGENCY

CALIFORNIA STATE MOTOR VEHICLE POLLUTION CONTROL STANDARDS

Waiver of Application

On January 8, 1972, the Administrator of the Environmental Protection Agency, by notice published in the FEDERAL REGISTER (37 F.R. 302), called a public hearing pursuant to section 209(b) of the Clean Air Act, as amended (42 U.S.C. 1857 f-6a(a), 81 Stat. 501, Public Law 91-604), concerning the request by the State of California that the Administrator waive application of the prohibitions of section 209(a) to the State of California with respect to State emission standards applicable to 1973 through 1976 model year gasoline powered motor vehicles under 6,001 pounds g.v.w. section 209(b) requires the Administrator to grant such waiver, after public hearing, unless he finds that the State of California does not require standards more stringent than applicable Federal standards to meet compelling and extraordinary conditions, or that such State standards and accompanying enforcement procedures are not consistent with section 202(a) of the Clean Air Act, as amended.

The public hearing was held in Los Angeles, Calif., on February 8, 1972. The record of the public hearing was kept open until February 23, 1971, for the submission of written material, data or arguments by interested persons.

Having given due consideration to the record of the public hearing, all material submitted for that record, and other relevant information, I find that:

1. The State of California had, prior to March 30, 1966, adopted standards (other than crankcase emission standards) for the control of emissions from new motor vehicles and new motor vehicle engines;

2. The State of California requires standards more stringent than applicable Federal Standards to meet compelling and extraordinary conditions;

3. The California State emission standards applicable to 1973 and 1974 model year light-duty vehicles, when considered as a total regulatory program including related assembly-line testing and enforcement procedures, are more stringent than the applicable Federal standards, are required to meet California's compelling and extraordinary conditions, and are consistent with section 202(a) of the Clean Air Act, as amended, except that application of the 1973 standards to off-road utility vehicles manufactured during the 1973 model year does not give manufacturers of such vehicles the period of time necessary to develop and apply the requisite technology.

4. The request that the Administrator waive application of the prohibitions of section 209(a) with respect to the California State emission standards applicable to 1975 model year light-duty vehicles should be held under consideration pending development of additional information by the Environmental Protection Agency.

5. The request that the Administrator waive application of the prohibitions of section 209(a) with respect to the California State emission standards applicable to 1976 model year light-duty vehicles was withdrawn by the State of California at the public hearing.

Therefore, I hereby waive the application of section 209(a) to the State of California with respect to the following identified State standards and test procedures:

1. Provisions of title 13, California Administrative Code (as amended September 15, 1971):

(a) Section 1946 (Exhaust emission standards for 1973 through 1976 model vehicles under 6,001 pounds gross vehicle weight), insofar as applicable to the 1973 and 1974 model-years only;

(b) Section 2109(1) (test procedures), insofar as applicable to the 1973 and 1974 model-years only;

(c) Section 2208(e) (test procedures), insofar as applicable to the 1973 and 1974 model-year only.

2. California Exhaust Emission standards and Test Procedures for 1973 through 1976 Models Gasoline-Powered Motor Vehicles under 6001 pounds gross vehicle weight, adopted by the Air Resources Board, September 15, 1971. *Provided,* That due to considerations of lead-time and technological feasibility, this waiver for such standards and procedures shall not become applicable with respect to emissions from 1973 model off-road utility vehicles (as defined at 45 CFR 85.1(a)(8), 36 F.R. 22449) unless provision is made for calculating emissions equivalent to that provided at 45 CFR 85.87(b), 37 F.R. 671.

This waiver is applicable only with respect to the model years specified above as defined in the applicable test procedures.

Certified copies of the above standards and procedures are available for inspection at Office of the Director, Mobile Source Enforcement Division, Environmental Protection Agency, 401 M Street SW., Washington, DC 20460. Copies of the standards and procedures may be obtained from the California Air Resources Board, 4321 South San Pedro Street, Los Angeles, CA 90013 or 1025 P Street, Sacramento, CA 95814.

Dated: April 19, 1972.

ORYZALIN

Notice of Establishment of Temporary Tolerance

Elanco Products Co., Post Office Box 1750, Indianapolis, IN 46206, submitted a petition (2G1201) requesting establishment of a temporary tolerance for negligible residues of the herbicide oryzalin (3,5-dinitro-*N*⁴,*N*⁴-dipropylsulfanilamide) in or on the raw agricultural commodity soybeans at 0.1 part per million.

It has been determined that a temporary tolerance of 0.1 part per million for negligible residues of the herbicide in or on soybeans is safe and will protect the public health. It is therefore established as requested on condition that the herbicide be used in accordance with the temporary permit being issued concurcurently by the Environmental Protection Agency and which provides for distribution under the Elanco Products Co. name.

This temporary tolerance expires April 19, 1973.

[Docket No. 72-15]

NORTH ATLANTIC MEDITERRANEAN FREIGHT CONFERENCE

Order of Investigation Regarding Rates, Practices, Rules and Regulations Relating to Movement of Heavy Lift Cargo

The North Atlantic Mediterranean Freight Conference (Med-Conference) is a group of common carriers operating under Commission-approved Agreement No. 9548 in the trade from North Atlantic ports in the North Atlantic Hampton Roads/Eastport, Maine Range to all ports served on the Mediterranean Sea (except Spanish and Israeli ports), on the Sea of Marmara and Black Sea, and on the Atlantic Coast of Morocco. The Med-Conference currently has on file with the Commission Freight Tariff FMC-3, which sets forth the rates, charges, rules and regulations of the member lines for ocean transportation of freight in the trades covered by Agreement No. 9548.

Rule 27 of the Med-Conference tariff provides for the assessment of extra charges to be added to the regular tariff rates on heavy lift cargo. Rule 30-A(VII) and Rule 30-VI of the tariff require assessment of heavy-lift charges to any single piece or package within a container if such piece or package exceeds the weights set forth in Rule 27.

Whereas the Conference membership formerly consisted only of carriers operating conventional break bulk vessels for which the heavy lift scale was originally constructed, the membership has now changed to include carriers operating a mix of conventional vessels, Roll-On/Roll-Off and container line vessels.

While the advanced design and technology incorporated in the Roll-On/Roll-Off and container line vessel permit the loading and discharging of heavy lift cargo with significant economic benefit to the operator, the Conference has refused to amend Rule 27, Rule 30-A(VII) or Rule 30-VI to reflect rate allowances related to the carriers' actual expense. In lieu thereof, the heavy lift charges appear to be predicated upon the conventional vessel operator's costs.

V 37-80 APR 25 72 XUM

Furthermore, despite the fact that heavy lift services and expenses originally envisaged by Rule 27 may be significantly reduced or eliminated in the operation of vessels having container and roll-on/roll-off cargo handling capability, the Rule has not been modified except to the extent that equivalent charges designated as "positioning, lashing, and securing" are now applied against cargo moving on roll-on/roll-off vessels. Since the transportation of cargo which is rolled on and off a vessel does not involve a mechanical lifting operation by special vessel rigging or shoreside crane, the propriety of assessing a heavy lift or equivalent charge on such cargo is doubtful as is the assessment of heavy lift charges on containerized cargo moving on a house-to-house basis where the carrier is not required to handle the cargo separately. Indeed the application of Rule 27 as modified and Rules 30–A(VII) and 30–VI appears to result in the assessment of charges for which no services are performed or if services are performed, at levels which are not related to carriers' actual expense.

The application of Rule 27 as modified may also be unfair to the particular carrier members of the Conference who operate containerized and roll-on/roll-off vessels and their shippers in that such carriers are not permitted to relieve cargo of expenses which are not incurred in their particular modes of operation. Furthermore, Rule 27 may otherwise be contrary to the public interest, detrimental to the commerce of the United States, unjustly discriminatory or unreasonably prejudicial in violation of law.

Now, therefore, it is ordered, Pursuant to sections 22, 15, 16, 17, and 18(b)(5), that an investigation be instituted to determine whether the provisions of the Med-Conference tariff related to heavy lift cargoes violate the Shipping Act, 1916, because they: (1) Constitute unjust discrimination or unfair treatment as between carriers, shippers, exporters, or otherwise operate to the detriment of the commerce of the United States or are contrary to the public interest in violation of section 15 of the Act. (2) Make or give an undue or unreasonable advantage to any particular person, locality or description of traffic in any respect whatsoever, or subject any particular person, locality or description of traffic to any undue prejudice or disadvantage in any respect whatsoever in violation of section 16 First. (3) Result in charging or collecting rates or charges which are unjustly discriminatory between shippers contrary to section 17. (4) Result in rates or charges so unreasonably high or low as to be detrimental to the commerce of the United States contrary to section 18(b)(5).

It is further ordered, That in the event the rates, practices, rules or regulations of the Med-Conference as they concern charges for heavy lift shipments are found to violate the provisions of the Shipping Act, 1916, the investigation shall determine what action would best ameliorate the condition. In such event consideration should be given but not limited to the possibility of withdrawing from the Med-Conference its authority over rates governing the movement of heavy lift cargo by requiring that such rates be declared "open" or that Agreement 9548 be otherwise appropriately modified.

It is further ordered, That the North Atlantic Mediterranean Freight Conference and its member lines, as set forth in Appendix "A" hereto, be named as respondents in this proceeding;

It is further ordered, That this proceeding be assigned for public hearing before an examiner of the Commission's Office of Hearing Examiners and that the hearing be held at a date and a place to be determined and announced by the presiding examiner;

It is further ordered, That: (I) A copy of this order shall forthwith be served on the respondents herein; (II) the said respondents be duly notified of the time and place of the hearing; and (III) this order be published in the FEDERAL REGISTER and notice of hearing be served upon respondents;

It is further ordered, That all persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72);

And it is further ordered, That all future notices issued by or on behalf of the Commission in this proceeding, including notice of time and place of hearing or prehearing conference, shall be mailed directly to all parties of record.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until dipsosition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

The proposed increase of Getty Oil Co. and one of the proposed increases contained in Supplement No. 2 to Atlantic Richfield Co.'s FPC Gas Rate Schedule No. 638 do not exceed the corresponding rate filing limitations imposed in Southern Louisiana and therefore are suspended herein for 1 day.[1]

The remaining proposed increases for sales to El Paso in San Juan Basin exceed the corresponding rate filing limitations imposed in Southern Louisiana and therefore are suspended for 5 months.

All of the producers' proposed rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

CERTIFICATION OF ABBREVIATED SUSPENSION

Pursuant to § 300.16(1)(3) of the Price Commission rules and regulations, 6 CFR Part 300 (1972), the Federal Power Commission certifies as to the abbreviated suspension period in this order as follows:

(1) This proceeding involves producer rates which are established on an area rather than company basis. This practice was established by Area Rate Proceeding, Docket No. AR61-1 et al., Opinion No. 468, 34 FPC 159 (1965), and affirmed by the Supreme Court in Permian Basin Area Rate Case, 390 U.S. 747 (1968). In such cases as this, producer rates are approved by this Commission if such rates are contractually authorized and are at or below the area ceiling.

(2) In the instant case, the requested increases do not exceed the ceiling rate for a 1-day suspension.

(3) By Order No 423 (36 F.R. 3464) issued February 18, 1971, this Commission determined as a matter of general policy that it would suspend for only 1 day a change in rate filed by an independent producer under section 4(d) of the Natural Gas Act (15 U.S.C. 717c(d)) in a situation where the proposed rate exceeds the increased rate ceiling but does not exceed the ceiling for a 1-day suspension.

(4) In the discharge of our responsibilities under the Natural Gas Act, this Commission has been confronted with conclusive evidence demonstrating a natural gas shortage. (See Opinions Nos. 595, 598, and 607, and Order No. 435.) In these circumstances and for the reasons set forth in Order No. 423 the Commission is of the opinion in this case that the abbreviated suspension authorized herein will be consistent with the letter and intent of the Economic Stabilization Act of 1970, as amended, as well as the rules and regulations of the Price Commission, 6 CFR Part 300 (1972). Specifically, this Commission is of the opinion that the authorized suspension is required to assure continued, adequate and safe service and will assist in providing for necessary expansion to meet present and future requirements of natural gas.

[FR Doc.72-6175 Filed 4-24-72;8:45 am]

[1] Atlantic's increase relates to a contract dated on or after Oct. 1, 1968, and is within the ceiling for 1-day suspensions for such vintage gas.

Notice of Applications for "Small Producer" Certificates [1]

APRIL 13, 1972.

Take notice that each of the applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before May 8, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7701]

MISSOURI POWER & LIGHT CO.

Notice of Proposed Changes in Rates and Charges

APRIL 21, 1972.

Take notice that Missouri Power & Light Co. on March 28, 1972, tendered for filing proposed changes in its Rate Schedule: F.P.C. No. 33. The proposed changes would increase by 6 percent the rates charged to customers under FPC Rate Schedule No. 33. The proposed rate change is described in the company's transmittal letter as follows:

In 1971, I.S. rate was increased approximately 6 percent, permitted by two orders handed down by the Missouri Public Service Commission referred to in III(A) and III(B). This 6 percent was applied uniformly to Missouri Power & Light Co. customers affected, namely residential, commercial and industrial.

Missouri Public Service Commission Order No. 868 dated July 27, 1971, provided for an interim increase of approximately 3.3 percent. This increase reflects the increased cost of purchased power from the applicant's major supplier, Union Electric Co., and is subject to refund pending final disposition of Docket No. E-7571 currently pending before the Federal Power Commission.

Missouri Public Service Commission Order No. 17,108 dated December 12, 1971, provided for an increase of approximately 2.7 percent. This increase reflects the outcome of rate case No. 17,108, which covered the test period July 1, 1969, through June 30, 1970. The order was delayed ninety (90) days by the price freeze and was officially put into effect December 23, 1971. Based on operations of the test period as adjusted by the Missouri Public Service Commission, the increase would allow a rate of return on common equity of approximately 11.95 percent.

The five municipalities, as all other I.S. customers were included in the rate case. Based on Missouri Public Service Commission's above findings, Missouri Power & Light Co. requests to increase Rate Schedule F.P.C. No. 33 by approximately 6 percent effective May 1, 1972.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 26, 1972. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN EL SALVADOR

Entry or Withdrawal From Warehouse for Consumption

APRIL 21, 1972.

On April 19, 1972, the U.S. Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a comprehensive bilateral cotton textile agreement with the Government of El Salvador concerning exports of cotton textiles and cotton textile products from El Salvador to the United States over a 5-year period beginning on April 1, 1972. Among the provisions of the agreement were those establishing an aggregate limit for the 64 categories and within the aggregate limit specific limits on Categories 1/2/3/4, 9, 31, and 61 for the first agreement year which began on April 1, 1972.

There is published below a letter of April 21, 1972, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textiles and cotton textile products in Categories 1/2/3/4, 9, 31, and 61 produced or manufactured in El Salvador which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning April 1, 1972, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Previously, the Chairman of the President's Cabinet Textile Advisory Committee issued a directive, pursuant to Article 3 of the Long-Term Arrangement Regarding International Trade in Cotton Textiles, limiting imports of cotton textiles in Category 9 from El Salvador for the 12-month period beginning October 29, 1971. The letter published below also cancels and supersedes this directive.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

ASSISTANT SECRETARY OF COMMERCE

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

APRIL 21, 1972.

DEAR MR. COMMISSIONER: This directive cancels and supersedes the directive issued to you on December 14, 1971 by the Chairman, President's Cabinet Textile Advisory Committee, regarding imports of cotton textiles in Category 9 produced or manufactured in El Salvador.

Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of April 19, 1972, between the Governments of the United States and El Salvador, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective as soon as possible, and for the twelve-month period beginning April 1, 1972, and extending through March 31, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1/2/3/4, 9, 31, and 61, produced or manufactured in El Salvador, in excess of the following levels of restraint:

Category		12-month levels of restraint [1]
1/2/3/4	pounds	260,870
9	square yards	2,000,000
31	number	1,436,781
61	dozen	84,210

[1] These levels have not been adjusted to reflect any entries made on or after Apr. 1, 1972.

Cotton textiles and cotton textile products in the above categories produced or manufactured in El Salvador and which have been exported prior to April 1, 1972, shall not be subject to this directive.

Cotton textiles and cotton textile products in the above categories which have been released from the custody of the Bureau of Customs under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of April 19, 1972, between the Governments of the United States and El Salvador which provide, in part, that within the aggregate limit, the limits on certain categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on October 9, 1971 (36 F.R. 19722).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of El Salvador and with respect to imports of cotton textiles and cotton textile products from El Salvador have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely yours,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

I. American Truck Service Club, Inc. (ATSC), 26 Platt Street, New York, NY 10038, incorporated in the State of Delaware on May 1, 1968, filed with the Commission on November 20, 1969, a notification on Form 1-A and an offering circular relating to an offering of 50,000 units, consisting of one share of common stock and four warrants, at $6 per unit for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

Kenneth Bove & Co., Inc., a registered broker-dealer having its principal place of business in New York City, was named as underwriter. The offering was to be conducted on a "best efforts all or none" basis. The offering commenced on March 16, 1970, and according to the Form 2-A filed by ATSC was completed on April 2, 1970.

II. The Commission on the basis of information reported to it by its staff, has reasonable cause to believe that:

A. The notification and offering circular of ATSC contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading with respect to:

(1) The names of the actual promoters, affiliates and principal stockholders of ATSC;

(2) The criminal records of two of the affiliates and principal stockholders of ATSC;

(3) The sale of unregistered securities of ATSC by its affiliates;

(4) Liabilities of ATSC which arose as a result of loans made to ATSC by and on behalf of its control persons;

(6) The number of its shares owned by its principal stockholders; and

(7) The actual method of distribution for its offering pursuant to regulation A.

B. The regulation A exemption was not available to ATSC because Martin Clare, a promoter and affiliate of ATSC presently connected with it, has been convicted of a crime specified in Rule 252(d)(1) within 10 years of the filing of ATSC's notification.

C. The offering was made in violation of sections 5 and 17 of the Securities Act of 1933.

III. It appearing to the Commission that it is in the public interest and for the protection of the investors that the exemption of the issuer under regulation A be temporarily suspended.

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption of the issuer under regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any persons having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within 30 days after the entry of this order; that within 20 days after receipt of such request the Commission will, or at any time upon its own motion, may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, the order shall become permanent on the 30th day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

ISRAEL CORP. LTD.

Notice of Filing of Application Exempting Company or, in Alternative, for Order Declaring That Company Is Not an Investment Company

APRIL 18, 1972.

Notice is hereby given that the Israel Corporation Ltd. (Applicant), 9 Ahad Haam Street, Tel Aviv, Israel, a corporation organized under the laws of the State of Israel, has filed an application for an order pursuant to section 6(c) of the Investment Company Act of 1940 (Act) exempting it from all provisions of the Act or, in the alternative, pursuant to section 3(b)(2) of the Act declaring that it is primarily engaged in a business or businesses other than that of investing, reinvesting, owning, holding or trading in securities either directly or (A) through majority-owned subsidiaries or (B) through controlled companies conducting similar types of businesses. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Applicant was incorporated on August 29, 1968, in order to engage in business in Israel in industry, utilities, tourism, finance, agriculture and service related industries. In order to implement these purposes, the Applicant has raised and intends to continue to raise capital in many countries, including the United States. At least 80 percent of the capital of Applicant will be held by nonresidents of Israel and it is intended that its initial shareholders should be wealthy, sophisticated individuals.

The Applicant, under its prospectus dated June 5, 1969, has offered its securities to residents of the United States in units consisting of 100 Ordinary Shares, Series "A" (par value $1,000 per share) at a purchase price of $100,000 per unit, and has sold $7,300,000 of its Ordinary Shares, Series "A" to residents of the United States. The Applicant expects that its next series of shares will be offered in the United States and elsewhere during 1972 and said offering is expected also to be made in terms of units of at least $100,000.

To date, the Applicant has implemented two major transactions. It has acquired 50 percent of the issued share capital of Zim Israel Navigation Co. Ltd. (Zim), Israel's largest shipping company, and 26 percent of the voting shares of Haifa Refineries Limited (HLR), Israel's only refiner of petroleum products. The Applicant acquired its 50 percent interest in Zim for a purchase price of IL. 58,537,288, subject to adjustment under certain circumstances based upon the profit of Zim, and acquired its 26 percent interest in HRL for a purchase price of IL. 42,163,000. The Government of Israel owns the remaining 50 percent and 74 percent interest in Zim and HRL, respectively.

In its application, Applicant asserts that it may, from time to time, temporarily fall within the definition of the term "investment company" contained in section 3(a)(3) of the Act, due to the fact that it may own or may propose to acquire investment securities having a value exceeding 40 percent of its total assets. However, Applicant contends that it has implemented its two major acquisitions in a manner which has yielded it control over the business and activities of Zim (a majority-owned subsidiary of the Applicant) and which will enable it to exercise a controlling influence over the management and affairs of the business of HRL.

The Applicant presently has total assets (exclusive of cash) on an unconsolidated basis as follows:

Securities of majority-owned subsidiaries:		
Zim, issued share capital	IL	58,537,288
Zim, long-term loan		2,625,000
Yehuda Hotels Ltd., issued share capital		3,484,774
Securities of companies of which Applicant claims control:		
HRL, issued share capital		42,163,000
Other Assets		
Nonmarketable Israel Government Bonds		432,000
Total assets	IL	107,242,062

Section 3(a)(3) of the Act defines as an investment company any issuer which is engaged or proposes to engage in the business of investing, reinvesting, owning, holding, or trading in securities, and owns and proposes to acquire investment securities having a value exceeding 40 percent of the value of such issuer's total assets (exclusive of Government securities and cash items) on an unconsolidated basis. The above chart indicates that investment securities represented by applicant's holdings of less than majority-owned companies aggregate IL. 42,595,000 or approximately 39.72 percent of its total assets (exclusive of cash) on an unconsolidated basis.

In connection with the acquisition of 50 percent of the issued share capital of Zim, the applicant has acquired, pursuant to an agreement with the Government of Israel, dated August 2, 1970, 50 percent of the voting and management power in Zim. In accordance with the terms of that agreement, applicant can nominate the Chairman of the Board of Directors, Managing Director, and Chairman of the Finance Committee of Zim, and at least one-half of the membership in all Committees of the Board of Zim.

In connection with the acquisition of 26 percent of the voting securities of HRL, the Applicant has received certain contractual and statutory privileges either by agreement with the Government of Israel, or under Israel law, as follows:

1. The right to appoint directors of HRL in proportion to share ownership.

2. The right to 26 percent of the voting power in HRL, which right may not be diluted and which carries with it the ability to block the taking of certain crucially important actions by HRL including all actions which require the passing of an extraordinary resolution under Israel law.

3. The right to representation on all committees of the HRL Board of Directors, as well as the Boards of Directors of HRL's subsidiaries and affiliates and committees of such Boards.

4. The right to designate the Vice Chairman of the Board of Directors of HRL and to be consulted with respect to the appointment of senior staff members.

5. The right to appoint the Chairman of the Finance Committee of HRL.

V 37-80 APR 25 72 XUM

6. The right to participate in the choice of the Managing Director of HRL in that the said Managing Director shall be elected only with the approval of the directors appointed by the applicant, which election or reelection will take place annually.

7. The right to require arbitration with respect to expenditures by HRL which are opposed by directors appointed by applicant, under certain circumstances.

In view of the above-mentioned contractual and statutory rights conferred upon applicant by the Government of Israel, applicant asserts that HRL is a controlled company of applicant and that applicant is engaged in a business or businesses other than that of investing, reinvesting, owning, holding, or trading in securities either directly or (A) through majority-owned subsidiaries or (B) through controlled companies conducting similar types of businesses.

Section 3(b)(2) of the Act, among other things, excepts from the definition of an investment company in section 3(a)(3), any issuer which the Commission finds and by order declares to be primarily engaged in a business or businesses other than that of investing, reinvesting, owning, holding, or trading in securities either directly or (A) through majority-owned subsidiaries or (B) through controlled companies conducting similar types of businesses.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person from any provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than May 10, 1972, at 5:30 p.m., submit to the Commission in writing a request for hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communications should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

TARIFF COMMISSION

[AA1921-86/90]

LARGE POWER TRANSFORMERS FROM FRANCE, ITALY, JAPAN, SWITZERLAND, AND THE UNITED KINGDOM

Determinations of Injury

The Assistant Secretary of the Treasury advised the Tariff Commission on January 20, 1972, that large power transformers from France, Italy, Japan, Switzerland, and the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. In accordance with the requirements of section 201(a) of the Antidumping Act (19 U.S.C. 160(a)), the Tariff Commission instituted joint investigations Nos. AA1921-86/90 to determine whether an industry in the United States is being, or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

A public hearing was held March 7-10, 13, and 14, 1972. Notice of the joint investigations and hearing was published in the FEDERAL REGISTER of January 29, 1972 (37 F.R. 1509).

In arriving at its determinations, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of its investigations, the Commission has unanimously determined[1] that an industry in the United States is being injured by reason of the importation of large power transformers from France, Italy, Japan, Switzerland, and the United Kingdom sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS OF CHAIRMAN BEDELL AND COMMISSIONER MOORE[2]

In our opinion, an industry in the United States is being injured by reason of the importation of large power transformers from France, Italy, Japan, Switzerland, and the United Kingdom that are being sold at less than fair value (LTFV) within the meaning of the Antidumping Act, 1921, as amended.

The imported product. The term "large power transformers" as used in this determination includes all transformers rated 10,000 kv.-a. or above, by whatever name designated, used in the generation, transmission, distribution, and utilization of electrical power, including but not limited to shunt reactors, autotransformers, rectifier transformers, and power rectifier transformers.

The industry. In making these determinations, we have considered the injured industry to consist of the facilities of the United States used in producing large power transformers of the type described above.

Conditions of competition. Large power transformers are custom-made articles, not "off the shelf" articles. The purchasers of such articles plan their needs several years in advance of delivery and then solicit bids on units made according to their specifications. Orders are placed about 1 to 2 years in advance of delivery except in emergencies arising from a failure in the system. It takes from 1 to 2 years to build the largest units. Prices are generally established at the time an order is accepted. Thus, price competition occurs at the time an order is placed, not at the time of delivery; consequently, the level of pricing in effect in a given year will significantly affect the earnings of a producer 1 or 2 years later.

Most purchasers of large power transformers, when considering offers, compare prices on the basis of an "evaluated bid price" rather than the "raw bid price." That is, they compare the total cost of each transformer in terms of its delivered cost plus the estimated expenses of installation and operation during its anticipated life (including power losses).

Ten firms produce large power transformers in the United States. In the last 6 years, U.S. producers' shipments of such transformers have doubled, measured in terms of megavolt amperes (MVA) or dollars. To keep pace with the increase in demand during the period, the industry has made large increases in its capacity to produce large power transformers.

Margins of dumping and underselling. The Treasury Department compared the purchase price of 38 transformers (imported from the five countries named in its determination) with the foreign market price of similar transformers and found that 28 were sold at LTFV. Efforts by Treasury to obtain pricing information on other transactions were frustrated by a lack of response on the part of some foreign producers. The dumping margins (percent of price discrimination, i.e., percent by which foreign market price was reduced with respect to export sales) were as high as 46 percent, with the weighted country averages ranging from 9.8 to 33.0 percent.

Of the 28 instances of specific sales of LTFV transformers, the Commission was able to obtain information on the competitive bids involved in the sales of 20 such transformers. In every one of them the foreign producer undersold the lowest U.S. bidder by a margin in the range of 2.8 to 33.7 percent, based on evaluated bids. In every one the margin of dumping constituted a substantial part of the margin of underselling, and in most of them it completely underwrote the amount of underselling.

By analyzing the repeat purchases of virtually identical transformers by specific systems, it was determined that in nine out of fourteen analyses the producers of LTFV exports were the price leaders in the U.S. market. The underselling (price leadership) by the producers of LTFV exports was concentrated in the medium-to-large capacity transformers.

Consequences of underselling. As a direct result of the underselling, contract awards to LTFV suppliers have taken an appreciable share of the domestic market for large power transformers, based on the aggregate MVA and the value of such awards. The market penetration represented by awards to LTFV suppliers, on a cumulative basis (almost 7 percent in 1967-69) is more than adequate to warrant an injury determination, i.e., it is more than de minimis.

The primary injury resulting from the prices of the LTFV transformers in this case is due, not to the loss of individual transformer orders, but to the depressant effect those prices had on the price level of the total U.S. market for large power transformers. Prices for large power transformers increased during the years 1965-68; however, despite increasing production costs and a continuing large backlog of orders, prices underwent a significant decline in 1969. This decline in the overall level of pricing was attributable in large part to LTFV sales to investor-owned utilities, which constitute 85 percent of the total U.S. market for large power transformers. Foreign purchases by investor-owned utilities had been minimal prior to 1967, when one large company placed significant contracts with a foreign supplier. In 1968 and 1969, other large investor-owned utilities began purchasing foreign-made transformers from LTFV suppliers, and price deterioration commenced.

Prior to the large market penetration by LTFV imports, the industry was receiving a modest return on its sales. After sales of LTFV imports reached their peak, the annual industry returns became nominal, and then the industry began to experience a net loss on sales. During the years 1965-69, the industry was profitable; in 1970, earnings from large-power-transformer operations declined to just above the break-even point; and in 1971, the industry experienced a 4.5-percent loss on its net sales. Price depression that occurred in 1969 and thereafter affected profit levels in 1970 and 1971.

An analysis of the bid-pricing practices of the producers in each of the five countries named by the Treasury Department in its determination showed that each country had producers that undersold U.S. producers by appreciable margins. Following a well-established precedent of this Commission, we perceive no reason for separating any country from this affirmative determination. Each country made a substantial contribution to the injuries incurred by the LTFV imports.

Conclusion. In summary, the LTFV imports of large power transformers from France, Italy, Japan, Switzerland, and the United Kingdom have had a substantial disruptive effect on the domestic market for such transformers. The dumping margins have undergirded substantial margins of underselling in the United States, with a resulting loss of a significant share of the market and a resulting suppression or depression of market prices to the point where the national industry is no longer able to operate at a profitable level. If these dumping practices are allowed to continue, there is adequate capacity among these nations to threaten the continued existence of the large-power-transformer industry.

By order of the Commission.

PAY BOARD

[Order 2, Amended]

CONSTRUCTION INDUSTRY STABILIZATION COMMITTEE

Authorization Regarding Wages, Salaries and Other Economic Adjustments

In order to more clearly delineate the delegation of authority from the Pay Board to the Construction Industry Stabilization Committee (CISC), the Pay Board has determined that it would be appropriate to amend Pay Board Order No. 2.

Pursuant to the authority vested in the Pay Board by Executive Order No. 11640, and Cost of Living Council Order No. 3, as amended, it is hereby ordered as follows:

1. The Pay Board authorizes the Construction Industry Stabilization Committee (CISC) to administer Pay Board regulations to the extent applicable with respect to collective bargaining agreements in the construction industry. CISC shall also administer CISC "Substantive Policies" as approved by the authorized construction subcommittee of the Pay Board, which are attached as a supplement to this order.

2. All wage and salary increases and other economic adjustments contained in collective bargaining agreements in the construction industry scheduled to take effect on or after August 16, 1971, require approval of CISC regardless of the number of employees involved.

3. Pay adjustments shall be governed by Pay Board regulations as provided in the "Substantive Policies" of CISC. Pay Board regulations established subsequent to this date shall be made applicable to collective bargaining agreements in the construction industry to the extent specifically provided in such regulations, or as otherwise modified following consultation between the Pay Board and CISC.

4. In administering the foregoing regulations of the Pay Board, CISC shall comply with the following procedures:

a. CISC shall make regular reports to the Pay Board, particularly relating to (i) cases received for processing by CISC, (ii) the current administrative report and the agenda of cases to be considered by CISC, (iii) the results of cases approved and denied, and the cases returned to the parties for modification or further negotiation. It shall also report with respect to such other matters, such as significant activities of the craft boards, as are deemed by CISC to be responsive in carrying out the delegation of authority under this order, or are in response to specific requests of the Pay Board.

b. CISC shall consult with the Pay Board on a timely basis with respect to any matter of unusual import or of special significance to the effectiveness of the stabilization objectives, particularly in those situations or application of policy which may establish precedents outside of the construction industry.

c. Because of the relation of construction contract administration to the general administration of Pay Board regulations or policies, if special instances arise where CISC wishes to make exceptions to applicable Pay Board regulations or policies or to modify or add to the approved "Substantive Policies," CISC will first work out an agreement with respect thereto with the construction subcommittee of the Pay Board.

d. CISC and the Pay Board will each appoint a liaison committee and provide for alternates to serve in place of members of the liaison committees. The purpose of the liaison committees will be to consult regularly and to coordinate procedures, policies, and general activities of CISC and the Pay Board insofar as they relate to matters delegated to CISC. The Executive Directors of the Pay Board and CISC shall consult as to any case where a question of appropriate jurisdiction is raised.

e. CISC shall refer to the Pay Board any request for legal action by the Justice Department to enforce compliance with wage stabilization standards or CISC orders.

f. Significant CISC public information releases, and public reports, including annual reports, shall be reviewed by the construction subcommittee of the Pay Board before being issued. Provisions can be made for the issuance of routing repetitive reports or releases.

SUPPLEMENTARY "SUBSTANTIVE POLICIES"

(1) The CISC will carry out its responsibilities in the framework of the general regulations of the Pay Board, and where applicable, Pay Board regulations will be used by CISC. However, specific regulations of the Pay Board with respect to matters such as tandem relationships, deferred increases, merit increases, incentives, and the like may not be directly applicable in all instances to construction and will need supplementation. In addition, CISC will apply the policies set forth below. Together, they constitute a complete substitute for the standards set forth in sections 6(a) and 6(b) of Executive Order 11588 dated March 29, 1971. These CISC policies shall be applied so as to conform as closely as the special conditions of the construction industry permit to those of the Pay Board.

(2) No agreement is automatically entitled to the "general wage and salary standard" or the exceptions thereto of the Pay Board. Moreover, the application of equal percentage adjustments to all crafts in any locality is often not a practical basis for stabilization; on occasion cents-per-hour developments among some or all crafts may be more appropriate.

(3) Pending final resolution of treatment of fringe benefits exempt under section 203(g) of the Economic Stabilization Act Amendments of January 9, 1971, these benefits, together with all other benefits, will be considered in determining economic adjustments subject to the review of the CISC.

(4) In the application of exceptions in individual cases providing for adjustments in excess of the "general wage and salary standard," the following principles are to be applied:

(a) There are some few situations with long established formulas for setting wage rates on the basis of averaging other construction rates for the same craft in other localities. The adjustments provided by these formulas may be approved except where they are shown to have an unstabilizing effect, or where the formula includes deferred increases which are themselves found to be unreasonably inconsistent with stabilization. The CISC will not approve "me-too" clauses, but will examine all economic adjustments provided by contract clauses.

(b) There are a few intercraft relationships, often within a single international union, which are so well recognized that adjustments, at least to a degree, to restore appropriate relationships among these classifications may be approved. The case of plumbers and fitters or plaster tenders, lathers and plasterers may be illustrative in some localities.

(c) In general, any restoration to appropriate historic relationships among crafts or localities should be spread over a period of 2 or 3 years or more. The CISC in reviewing historical relationships will also give attention to clear evidence of changing historical relationships over the past decade.

(d) Attention should be directed to questions of appropriate differentiation of rates by crafts among branches of the industry, such as heavy and highway, housing and commercial work, and local parties and craft boards may be urged to review or consider such differentiations.

(e) The CISC may give special consideration to agreements which provide for significant changes in the geographical structure of bargaining, including the development of wage zones under one agreement, where such changes would promote the stabilization of collective bargaining and the effective utilization of manpower and management resources.

(5) Deferred increases which would cause unstabilizing effects on wage relationships in a locality or among localities (i.e., which would prove unreasonably inconsistent with the application of such standards to a locality or a branch of the industry), should be promptly reviewed and agreement sought on adjustments at a local level or the adjustment spread over a sufficiently long period to reduce unstabilizing effects and to achieve settlements at reasonable amounts. In general, such deferred increases are now held up and may not be placed into effect without approval of the CISC. The CISC is to proceed promptly to identify those cases on a locality by locality basis and to seek revisions in agreements. The CISC ordinarily intends to handle these cases directly with the International Unions and the national offices of contractor associations in the first instance, rather than with the craft dispute boards.

(6) In the consideration of all applications in 1972, the CISC recognizes the necessity to show continued retardation in the rate of increases permitted for 1972 as measured by Pay Board standards. The CISC shall also apply this principle to agreements extending into 1973 and 1974.

(7) The CISC is to continue to apply its policy on economic adjustments which are broader than wages and fringe benefits, that is, which would include the money value of all economic adjustments including work rules.

(8) The CISC is to seek to improve the role of the craft boards and to enhance their contribution to the improvement of collective bargaining and procedures for dispute settlements in the industry.

Effective date. This amendment shall be effective on the date of publication in the FEDERAL REGISTER.

GEORGE H. BOLDT, *Chairman.*

GUN CONTROL

Published Ordinances of Political Subdivisions of States

Pursuant to the provisions of section 921(a)(19), Title 18, United States Code, and section 178.24, Title 26, Code of Federal Regulations (26 CFR Part 178), the following is the annual revised compiled list of the published laws of political subdivisions of States, which are determined to be relevant to the enforcement of Chapter 44, Title 18, United States Code, relating to firearms.

The list of ordinances of each State is preceded by relevant State statutes pertaining to the purchase and possession of firearms.

This revised compilation is in implementation of Title I of the Gun Control Act of 1968 (18 U.S.C. Chapter 44; 82 Stat. 1213) and supersedes that list published on April 2, 1971 (36 F.R. 6202).

The fee for an application and card, or for renewal of a card, shall be two dollars which shall be payable to the licensing authority and shall not be prorated or refunded in case of revocation or denial.

Upon receipt of an application for a card, the licensing authority shall forward a copy of such application to the commissioner of public safety, who shall within twenty-one days advise in writing of any disqualifying criminal record, if any, of the applicant and whether there is reason to believe that the applicant is disqualified for any of the foregoing reasons for possessing a card. No person shall sell, furnish, or deliver any firearm to another, knowing or having reasonable cause to believe that such other person is prohibited by this section from purchasing, owning, possessing, receiving, carrying, controlling, or using any firearm.

Whoever violates this section shall be imprisoned not less than one nor more than five years.

Costs of the proceedings shall be taxed as in other civil actions and paid by the petitioner. T.C.A. TITLE 39

39–4901. *Carrying dangerous weapons—Penalty.* Any person who shall carry in any manner whatever, with the intent to go armed, any razor, dirk, bowie knife or other knife of like form, shape or size, sword cane, ice pick, sling shot, blackjack, brass-knucks, spanish stiletto, or a fountain pen pistol or gun, or like instrument containing a firing pin capable of shooting tear gas or pistol cartridges, or any pistol or revolver of any kind whatever, except the army or navy pistol which shall be carried openly in the hand, or any other dangerous weapon, shall be guilty of a misdemeanor.

39–4904. *Selling or disposing of dangerous weapons.* It is a misdemeanor to sell, or offer to sell, or to bring into this state for the purpose of selling, giving away, or otherwise disposing of any knife or other prohibited weapon mentioned in § 39–4901; and the person guilty thereof, for each knife or other prohibited weapon shall, upon conviction, be fined not less than one hundred dollars ($100) nor more than five hundred dollars ($500), and be imprisoned in the county jail not less than one (1) month nor more than six (6) months, such jail sentence to be in the discretion of the trial judge. Provided, however, any person licensed by the state of Tennessee to sell rifles or other firearms may stock and sell pistols and/or sidearms to persons desiring them for protection of their home, business, or for target practice; however, sales to aliens, persons who have been convicted of a crime of violence, fugitives from justice, persons of unsound mind, minors, drunkards, drug addicts, and persons who have been convicted of the illegal sale of alcoholic beverages, are excluded.

Any person desiring to purchase a pistol or sidearm as above provided shall certify to the seller that he is not one of the persons listed above as excluded from legal sale of such firearm, and the person having the gun for sale, whether it be a firearms dealer engaged in the business of selling firearms, new or used, or any other person, shall file with the sheriff of the county wherein such sale is to be made, and with the chief of police if the sale be within a municipality, a copy of the certificate as notice to such law enforcement officer of the pending sale. Such certificate must also show the purpose for which the gun is to be used. If, after fifteen (15) days from the time of the receipt of such notice, the sheriff and/or chief of police make no objection tending to show that such proposed purchaser is in fact excluded by law from legal purchase, as set out above, the sale may be consummated and the gun delivered to the purchaser, together with a bill of sale therefor. The fifteen (15) days' notice of pending sale provided for above must be made by registered mail and return receipt requested unless the officer or officers, as the case may be, personally acknowledge receipt of such notice. The said certificate to be filed with the law enforcement officer shall carry the right thumb print of the applicant along with the information as to race, height, weight, age, color of eyes, color of hair and sex of the applicant.

The fifteen (15) day waiting period shall not apply to transactions between licensed importers, licensed manufacturers, licensed dealers, or licensed collectors who meet the requirements of the first paragraph above and certify prior to the transaction the legal and licensed status of both parties. The burden shall fall upon the transferor to determine the legality of the transaction in progress. However, all other provisions and requirements of the preceding paragraph above must be observed. The burden of proof of the legality of such transactions or transfers shall rest upon the transferor.

Nothing in this section shall preclude any person eligible to purchase a pistol or sidearm, as set out above, from making an occasional sale of a used or secondhand gun legally purchased by him without being licensed to do business as such; but whenever such sale is made, the same procedure must be followed as is provided above for persons licensed by the state of Tennessee to engage in such business. • • •

39–4905. *Selling or giving weapons to minor—Penalty.* Any person who sells, loans, or gives to any minor a pistol, bowie knife, dirk hunter's knife, or like dangerous weapon except a gun for hunting, is guilty of a misdemeanor, and shall be fined not less than one hundred dollars ($100) and be imprisoned in the county jail, in the discretion of the court.

The person having the gun for sale, whether it be a firearm dealer engaged in the business of selling firearms, new or used, or any other person, shall file with the chief of police of the Town of Greeneville, a copy of the certificate as notice to such law enforcement officer of the pending sale.

The certificate must also show the purpose for which the gun is to be used. If, after three (3) days from the time of the receipt of such notice, the chief of police makes no objection tending to show that such proposed purchaser is in fact excluded by law from legal purchase as above set out, the sale may be consummated and the gun delivered to the purchaser, together with a bill of sale therefor. The three (3) day notice of the pending sale provided for above must be made by registered mail and return receipt requested unless the officer to whom such notice must be given personally acknowledges receipt of such notice.
